D. J. VANSICKLE,  
*Chief Electoral Officer.*

The said commissioner having previously administered the Oath to the Members who appeared, and the Members having subscribed the Roll containing the Oath, they took their seats in the Assembly at 3 o'clock p.m.

*3:00 o'clock p.m.*

The Clerk of the Legislative Assembly informed the Assembly that he had received a communication from the Private Secretary to His Honour the Lieutenant-Governor stating that His Honour would open the Session at three o'clock p.m. today, Thursday, the Fourth day of February, 1965.

3:05 o'clock p.m.

His Honour the Lieutenant-Governor entered the Chamber and took his seat on the Throne.

The Hon. Mr. Heald, Provincial Secretary, then said:

"I am commanded by His Honour, the Lieutenant-Governor to inform you that he does not see fit to declare the causes of the summoning of the present Legislature until later today, when the Legislative Assembly shall have elected a Speaker, according to law."

His Honour the Lieutenant-Governor then retired from the Chamber.

The Hon. Mr. Thatcher, addressing himself to the Clerk, moved, seconded by Hon. Mr. Heald, that James Edward Snedker, Esquire, Member for the Constituency of Saltcoats, do take the Chair of this Assembly as Speaker.

The question being put by the Clerk, it was

Resolved, *nemine contradicente*, that James Edward Snedker, Esquire, do take the Chair of this Assembly as Speaker.

The Clerk having declared James Edward Snedker, Esquire, duly elected, he was conducted to the Chair, where, standing on the upper step, he returned his humble acknowledgements to the Assembly for the great honour they had been pleased to confer upon him by choosing him to be their Speaker.

Thereupon he took the Chair, and the Mace was laid on the Table.

3:15 o'clock p.m.

His Honour the Lieutenant-Governor re-entered the Chamber and took his seat upon the Throne.

Mr. Speaker then addressed His Honour to the following effect:—

MAY IT PLEASE YOUR HONOUR:

The Legislative Assembly have elected me as their Speaker, although I am but little able to fulfill the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error I pray that the fault may be imputed to me and not to the Assembly whose servant I am, and who, through me, the better to enable them to discharge their duty to their Queen and Country, hereby humbly claim all their undoubted rights and privileges, especially that they may have freedom of speech in their debates, access to your person at all seasonable times, and that their proceedings may receive from you the most favourable consideration.

The Hon. Mr. Heald, Provincial Secretary, then said:—

MR. SPEAKER,—

I am commanded by His Honour the Lieutenant-Governor to declare to you that he freely confides in the duty and attachment of the Assembly to Her Majesty's person and Government, and not doubting that their proceedings will be conducted with wisdom, temper and prudence, he grants, and upon all occasions will recognize and allow, their constitutional privileges.

I am commanded also to assure you that the Assembly shall have ready access to His Honour upon all seasonable occasions, and that its proceedings, as well as your words and actions, will constantly receive from him the most favourable construction.

His Honour the Lieutenant-Governor was then pleased to open the Session with the following Speech:—

MR. SPEAKER,

MEMBERS OF THE LEGISLATIVE ASSEMBLY:

IT IS MY PRIVILEGE to welcome you to the First Session of the Fifteenth Legislature of Saskatchewan.

#### Jubilee Year Celebrations

This year, 1965, we celebrate the diamond jubilee of the founding of our province.

It is an occasion for giving thanks to Providence for all the blessings of the past 60 years.

A wide range of activities has been planned, designed to encourage our people to review the history of the province, to reflect on our inheritance and accomplishments, to visit Saskatchewan's beauty spots, and to envisage our bright and challenging future.

#### Economic Development

1964 has been a year of signal importance for our province; for it has seen our people enjoy a remarkable degree of economic growth, chiefly in the field of industry.

Although grain production did not reach the record level of 1963, it was above average and good prices and ready markets prevailed.

Chief among our developments in the non-agricultural sector was the outstanding growth of the potash industry, in which investment in our province surpassed three hundred million dollars.

We also saw the establishment of Saskatchewan's first base metals mine in the Lac la Ronge district.

My Government has pursued a course of private enterprise methods to encourage development and private initiative throughout the province.

These efforts were marked by a thirty per cent increase in the number of new companies registered in our province during 1964, as compared to 1963.

This adds greater impetus to my advisors' efforts to further diversify Saskatchewan's economic base.

#### **Johnson Commission**

My Government has also recognized the need for vigilance, efficiency and effectiveness in the discharge of public business.

To this end, it established a Commission on Government Administration to study ways and means of improving efficiency, and the practise of economy in the administration of government.

It is hoped their report will be available to the government before the Legislature adjourns.

There are already indications that their recommendations will be most useful in making significant savings in the expenditure of public funds.

#### **Tax Reductions**

My Government believes that taxes in Saskatchewan are a burden greater than that borne by Canadians in other parts of the country. Therefore, although large expenditures are planned in the forthcoming year, my Government will propose major tax reductions.

#### **Increased Highway Spending**

To facilitate the development of our primary industries, my Government plans a greatly expanded program of highway construction, so that our province's transportation standards will meet those of the other developed provinces of Canada.

You will be asked to approve capital expenditures which are about fifty per cent greater than in the past year for highways.

#### **Youth Department**

My advisors have expressed concern about our failure in the past to retain a large proportion of our young people in Saskatchewan. You will, therefore, be asked to approve the establishment of a new agency for youth. The purpose of this agency will be to co-ordinate and promote the cultural and recreational facilities available throughout the province for our young people.

#### **Education**

You will be asked to sharply increase our assistance to education.

In addition to increases in ordinary expenditures, the Legislature will be asked to provide for the extension of technical school facilities in centres now not providing these facilities, in order to meet the increasing demand for skilled labour in a province that is fast industrializing.

You will also be asked to extend financial assistance to a number of private high schools.

My Government is fully aware of the problems facing our institutions of higher learning, due to ever-increasing enrollment and capital and operating costs, which are now greatly increased.

To alleviate this situation, you will be asked to approve substantial increases in operating and construction grants to the University of Saskatchewan in both Saskatoon and Regina.

#### **Pensions for Teachers and Civil Servants**

My Government will ask the Legislature to provide financial assistance for the purpose of increasing the pensions of teachers and public servants who retired some years ago with deplorably inadequate pensions.

### Arts and Culture

My Government realizes the tremendous importance of encouraging the growth of the arts and culture if our distinctive Canadian way of life is to continue to develop. Therefore, you will be asked to approve the granting of larger funds to materially aid this development.

### Indian and Metis Branch

You will be asked to approve of legislation setting up a New Indian and Metis Branch of the Government of Saskatchewan.

The task of this department will be to raise the standard of living of the Indian and Metis people to a level closer to that enjoyed by fellow citizens.

The immediate problem that will face this branch will be the task of securing employment for these people.

### New Institutions

My Government plans to construct a new Women's Correctional Institute in Prince Albert.

It will also build a modern home in Regina to give proper care to approximately forty children.

### Hospitalization and Medicare Amendment

Amendments to the Saskatchewan Hospitalization and Saskatchewan Medical Care Insurance Acts will be introduced, to prevent citizens from being jailed for failure to pay the hospitalization or medicare tax.

### Minimum Wage

My Government will make proposals to increase the Saskatchewan minimum wage.

### Wire-tapping

Legislation will be introduced to make wire tapping illegal in the Province of Saskatchewan.

### Legislative Secretaries

My Government will ask the Legislature to authorize the appointment of a limited number of legislative secretaries to help my ministers with the heavier portfolios.

### Election Act

You will be asked to amend The Saskatchewan Election Act to prevent, in future, confusion such as resulted in the last election. Absentee ballots will be largely discontinued and members of the armed forces will be given the same voting privileges as other citizens.

### Insurance Company Amendment

The Government will introduce legislation which will permit all insurance companies to compete on a tender basis for insurance on such institutions as schools, hospitals, and sanatoria. This insurance has heretofore been awarded automatically to the Government Insurance Office.

### Retail Store Opening

Permissive legislation will be introduced to enable municipal councils to pass legislation allowing retail stores to remain open either Friday night or Saturday night, but not both.

My Government intends to introduce a number of measures which will be of particular help to agriculture.

#### **Lease Land**

The problem of leasing Crown lands has caused much concern throughout Saskatchewan.

A new point system has been set up for the allocation of pasture lease land. An independent appeal board whose members were nominated by Saskatchewan farm organizations, has been set up to ensure that leases are awarded on a fair and equitable basis.

Where conditions warrant, the Government will sell grazing lands for establishment of economic farm units to farmers now renting the same.

It will, when requested, sell cultivation leases to farmers now renting, with a 10 per cent down payment, with 30 years to repay, and a low interest rate.

#### **Master Farm Awards**

In order to draw attention to the wholesomeness of the family farm and the dignity of rural life, Master Farm Family awards will be instituted. Each year, two "Master Farmer" awards will be given, one in the North, one in the South. These awards will be given to individuals who have made outstanding contributions to agriculture during the year.

#### **Coloured Margarine**

Legislation will be introduced to permit the sale of coloured margarine.

#### **Rail Line Abandonment**

The railway network in Saskatchewan is the life blood of the community and the vital factor in its economic well-being.

My Government believes that wholesale rail abandonment in the province would be completely unthinkable.

A Special Committee of Cabinet has been established to receive representations from farm organizations and other interested parties.

When proposals are before the Government of Canada, this Committee will make representations to Ottawa.

My Government is determined to make every effort to guarantee that a policy is devised which will provide for a proper rationalization of transport services.

#### **Liquor Outlets**

You will be asked to approve amendments to The Liquor Act which will permit the establishment of a very limited number of new agencies. These agencies will be used to provide services in communities where size of population does not warrant the present type of outlet.

#### **Tourist Industry**

My Government is dissatisfied with the progress which Saskatchewan has made in developing the tourist industry.

The Tourist Bureau will be expanded this year and you will be asked for increased expenditures for tourist promotional purposes.

#### **Provincial Parks**

My Government will continue the expansion of provincial parks. It is expected that 11 new regional parks will be established during 1965.

### Canada Pensions Plan

You will be asked to co-operate with the Government of Canada in introducing the Canada Pensions Plan.

At the appropriate time, if necessary, legislation will be introduced into the Legislature to effect such co-operation.

### Constitution

You will be asked to approve a resolution which, in conjunction with similar legislation now before the Government of Canada and the other provinces, will permit Canada to amend her own constitution.

The Public Accounts for the last fiscal year, together with estimates for the year beginning April 1, 1965, will be submitted.

I leave you now to the business of the Session with full confidence that you will favourably discharge your duties and responsibilities.

May Divine Providence continue to bless our province and guide the Legislature in all its deliberations.

His Honour the Lieutenant-Governor then retired from the Chamber.

---

On motion of the Hon. Mr. Gardiner, seconded by the Hon. Mr. Steuart:

Ordered, That the Report of the Select Special Committee appointed to prepare lists of the Members to compose the Select Standing Committees of this Assembly, be taken into consideration at the next sitting.

Mr. Speaker informed the Assembly that Joseph Ronald Lindsay Parrott had been appointed Clerk Assistant of the Legislative Assembly during the present Session.

Mr. Speaker laid before the Assembly, pursuant to Standing Order 105, the report of the Legislative Librarian dated February 1, 1965, which is as follows:—

REPORT OF THE LEGISLATIVE LIBRARIAN

REGINA, FEBRUARY 1, 1965.

*To the Honourable,*

*The Speaker of the Legislative Assembly of Saskatchewan.*

Sir:

I have the honour to submit to you the Annual Report of the Legislative Library.

During the year the efforts of the staff have been directed to furthering the objective of providing a Library with up-to-date holdings, properly serviced, to meet the needs of the Members of the Legislative Assembly, to aid officials of the public service, and to further research, scholarship, and the pursuit of knowledge generally. To achieve this objective the Library has continued to purchase, subscribe to, or otherwise acquire reference works, pamphlets and brochures, newspapers, periodicals, government documents, law books, and books for the general collection, particularly those relating to Canadian public affairs, history, economics, and agriculture. Special efforts were made to acquire items printed in or relating to Saskatchewan, including local histories and all daily and weekly newspapers. Staff time was allocated to the microfilming of newspapers and other archival functions carried out jointly with the Saskatchewan Archives Board through the Archives Division of the Library. In May a further three volumes of the Newspaper Index to significant articles in the daily press of the province, covering the years 1955-1959, was published.

In 1964 the Library received a number of valuable gifts. The following individuals donated books or manuscripts: Mrs. W. A. V. Allan, Nipawin, Mr. N. T. Hansen, Melbourne, Australia, Miss Marie A. Roy, Point-aux-Trembles, Quebec, Mrs. D. G. Scott Calder, Regina, Dr. George Spence, Regina; and the following donated historical photographs: Mr. Jack Canham, Miss Mary Donaldson, Mr. Paul F. Groome, Mrs. E. G. Holmes, Mrs. Edna Watkins, all of Regina, Mrs. Phyllis Henry, Moosomin, and Mrs. T. J. Hughes, North Burnaby, B.C. The Library is now receiving a full depository set of American government documents.

The Reading Room of the Library with its maps, photographs, and other historical items, continued to attract numerous visitors. Many of the 55,000 persons who visited the Legislative Building in 1964 passed through its doors. The resources of the Library were widely used, not only by members of the Legislative Assembly and the public service, but also by post-graduate students, staff of two provincial royal commissions, students of the Regina Campus of the University of Saskatchewan, members of the Older Boys' Parliament, and writers for the news media. The following summary indicates the number of items borrowed and used outside the Library but does not include items used on the premises:

*Books and Materials Circulated in 1964*

Books, including reference shelf .....	2,370
Law, Statutes and Debates .....	706
Newspapers .....	930
Pamphlets and Maps .....	1,434
Periodicals .....	788
Dominion Bureau of Statistics .....	553
Total .....	6,781

*Reference Inquiries, Bibliographic Research, etc.*

Total in Legislative Library .....	4,743
Total in Archives Division .....	1,500
Requests served by microfilm .....	250
Inter-Library loan requests — 323 items borrowed from other libraries for 43 borrowers.	

In concluding this report I wish to record publicly the very real sense of loss felt at the departure of Mr. John H. Archer by all those who had worked with him. He brought to the position of Legislative Librarian, which he had occupied since 1951, a rare combination of professional knowledge, wisdom, charm, ready wit and vigor, requiring of himself always an excellence of performance which few could emulate. We wish him success in his new position as Director of Libraries at McGill University.

I wish also to acknowledge the assistance of a conscientious staff with whom it has been a pleasure to work in the period since July, 1964, during which I have had oversight of the Library.

Respectfully submitted,

ALLAN R. TURNER,

*Provincial Archivist and  
Acting Legislative Librarian.*

*(Sessional Paper No. 4)*

The Orders of the Day having been called, Mr. Brockelbank (Kelsey), from his place in the House, asked leave under Standing Order 20 to move the adjournment of the House for the purpose of discussing a definite matter of urgent public importance, and stated the subject to be:

“The recent drastic reductions in wheat prices, their serious effects on the farmers of Saskatchewan and the economy of this province, the need for a guaranteed minimum price for wheat of at least two dollars per bushel to protect the farmers and the economy of this province from the serious effects of these price reductions and the urgent necessity for this Assembly to forthwith make a recommendation in respect thereto.”

Mr. Brockelbank (Kelsey) then handed a written statement of the matter proposed to be discussed to Mr. Speaker who, having read it to the House, put the question: “Has the Hon. Member leave to proceed?”

Objection being taken, Mr. Speaker requested those Members who supported the motion to rise in their places, and more than fifteen Members having risen accordingly, Mr. Speaker called upon the Hon. Member to proceed.

Whereupon Mr. Brockelbank (Kelsey) moved: "That this House do now adjourn."

By unanimous consent the said motion to adjourn was withdrawn.

By unanimous consent it was moved by Mr. Brockelbank (Kelsey), seconded by Mr. Nollet:

That this Assembly request the Federal Government to establish a guaranteed minimum price for No. 1 Northern wheat in storage at Fort William or Port Arthur of at least two dollars per bushel and that guaranteed prices for other grades of wheat be properly related to the guaranteed price of No. 1 Northern and that guaranteed prices for all grades of wheat at other shipping points such as Churchill, Manitoba and Vancouver, British Columbia be properly related to the guaranteed prices at Fort William and Port Arthur.

A debate arising, it was moved by Mr. Gallagher:

That the debate be now adjourned.

### STATEMENT BY MR. SPEAKER RESPECTING ORAL QUESTIONS ON THE ORDERS OF THE DAY

Would the House permit me to make a brief statement respecting oral questions on the Orders of the Day?

In using this device we are, of course, copying a very well-known procedure at Westminster, but what is perhaps not quite so well known is the fact that the British House imposes a very severe discipline on itself, including the giving of notice respecting these oral questions.

Our Standing Orders make no provision for oral questions and unless and until the House is willing to make such provision, it would be my hope that the practice will not develop to any extent, unless the House is prepared to exercise a self-discipline which will ensure that the asking and answering of oral questions on the Orders of the Day does not degenerate into disorderly debate.

The following Questions on the Orders of the Day were, according to Order, referred to the Select Standing Committee on Crown Corporations:—

By Mr. Brockelbank (Kelsey) : Nos. 4 and 6.

The Assembly resumed the adjourned debate on the proposed motion of Mr. Guy, seconded by Mrs. Merchant:

The debate continuing, it was moved by Mr. Gallagher, seconded by Mr. Romuld, in amendment thereto:

That all the words after the word "That" where it first appears be deleted, and the following substituted therefor:

"while this legislature reaffirms its confidence in the Wheat Board system of wheat marketing, and expresses its appreciation for the tremendous achievement of the Canadian Wheat Board, assisted by the Canadian Government, in marketing the record 1963 crop at the highest prices in recent years, we are concerned at the recent decline in wheat prices, and the possibility of a price war between exporting countries.

This Assembly, therefore, urges the Wheat Board and the Canadian Government to do everything possible to re-inforce international co-operation to protect prairie producers from the unfair competition of subsidized wheat exported by other countries, and respectfully requests the Canadian Government to take such measures as are consistent with the achievement of international price stability, and to give consideration to implementation of a two price system for wheat, and to establish a guaranteed minimum price for No. 1 Northern Wheat Basis Fort William of at least \$2.00 per bushel."

Mr. Link from Saskatoon. ‘It is to be hoped that if the cultural standards of Saskatchewan are to be raised, they will not be imported from a fascist state like Montana.’ In the opinion of the Government, this statement endangers the goodwill and friendliness between our two neighbouring countries. Moreover, it could prove directly harmful to the investment climate of the Province of Saskatchewan.”

PRAYERS:

### STATEMENT BY MR. SPEAKER

Having considered the question of privilege raised on Friday last by the hon. member for Kelsey, and having investigated the circumstances surrounding the matter, I now wish to make a brief statement to the House.

The question of privilege involved the answer given to Question No. 189 on February 25, which answer simply referred the inquirer to a publication of the Workmen's Compensation Board. In raising the question of privilege the hon. member for Kelsey claimed that this was an improper answer, since the information asked for was not supplied. I am not aware of any rule which forbids the citing of a publication in answer to a Question; indeed, May's *Parliamentary Practice*, 17th Edition, at page 354 indicates that Questions should not seek "information set forth in accessible documents."

However a series of Speaker's rulings in this House has established that in our practice ". . . Answers generally should not refer the inquirer even to readily accessible documents, excepting in special cases, or where the quotation would be too lengthy . . ." (Journals, March 28, 1941, page 104). I am of the opinion, therefore, that in answering Questions, Ministers should not simply refer the inquirer to a particular publication, but should, where possible, provide the information requested.

As for the question of privilege, it seems to me that this does not arise, since in this case the inquirer was in fact supplied with a copy of the publication referred to attached to the typewritten answer, although it would have been better had the Question been changed to an Order for Return, and the document supplied in that manner.

The Assembly resumed the adjourned debate on the proposed motion of the Hon. Mr. Thatcher:

That Mr. Speaker do now leave the Chair (The Assembly to resolve itself into the Committee of Supply),

and the proposed amendment thereto, moved by Mr. Blakeney:

That all the words after "That" be deleted, and the following substituted therefor:

"this Assembly views with alarm and dismay the inadequacy of the amounts proposed to be voted for school grants and other assistance to local governments and regrets that those local governments will be compelled either to reduce services or to increase property taxes."

and the proposed subamendment thereto moved by Mr. Michayluk:

That the amendment be amended by adding thereto the following words:

“and further this Assembly is of the opinion that much greater emphasis should be placed on the construction of facilities for technical education.”

The debate continuing on the motion, the amendment, and the sub-amendment, it was, on motion of Mr. Radloff, adjourned.

The Assembly, according to Order, resolved itself into a Committee of the Whole on the undermentioned Bills:

The following Bill was reported without amendment, read the third time and passed:

On the following Bill progress was reported, and the Committee given leave to sit again:

Mr. Speaker made the following statement:

#### STATEMENT BY MR. SPEAKER

During debate on Bill No. 30 on Friday last, the honourable Member for Saskatoon City (Mr. Nicholson) made certain statements to which objection was taken. I now have had an opportunity to check the Official Report, and I find that the honourable Member said: “. . . one of the main purposes of the legislation before us is to have six members of the legislature who will be paid by public funds, who will be in a position to travel around Saskatchewan, at public expense, to secure contributions for political purposes . . .” While a Member is, of course, free to express his opinion as to the results of any legislation which might be before the House, it is disorderly to suggest that there are bad or unavowed motives behind any legislative proposal or for that matter, any stand taken by a Member of this Assembly. (See Beauchesne, *Parliamentary Rules and Forms*, 4th Edition, Citation 154(3)). I submit, therefore, that in making this statement, the honourable member was attributing unavowed motives, and I would ask him to withdraw it.

Leave to introduce the same having been granted, the following Bill was received, read the first time, and ordered to be read the second time on Friday next:

Bill No. 60—An Act to amend The Saskatchewan Government Insurance Act. (Hon. Mr. McDonald (Moosomin))

### STATEMENT BY MR. SPEAKER

On March 11 last, during debate on the motion respecting Roads to Resources, an exchange took place between the honourable Members for Athabaska and Cumberland during the course of which the honourable Member for Cumberland, at my request, withdrew an unparliamentary remark. I have now had an opportunity to examine the record and I find that the honourable Member for Athabaska, speaking of the honourable Member for Cumberland, said: "He mentioned the desirability of developing a large sand deposit along the Hanson Lake Road, but I wasn't surprised in this regard, because I understand that he is a large shareholder in a company that is interested in developing these sands." Inasmuch as there appears to be an imputation of improper motives at which the honourable Member for Cumberland has taken offence, I would ask the honourable Member for Athabaska to withdraw any such imputation.

## PRAYERS:

Ordered, That the Hon. Mr. Grant, have leave to introduce Bill No. 62—An Act to amend The Industrial Development Act, 1963.

The Hon. Mr. Grant, a member of the Executive Council, then acquainted the Assembly that His Honour the Lieutenant-Governor, having been informed of the subject matter of the Bill, recommends it to the consideration of the Assembly.

The said Bill was accordingly received, read the first time, and ordered to be read the second time on Thursday next.

The following Question on the Orders of the Day was, by leave of the Assembly withdrawn:

By Mr. Nicholson, No. 276.

The Order of the Day being called for Resolution (No. 12) it was moved by Mr. Larson, seconded by Mr. Nollet:

That this Assembly views with alarm the increasing higher cost of farm machinery and other goods and services required by farmers which in the light of declining farm prices has created an urgent problem of great national importance, and sincerely requests the Government of Canada to implement immediately a comprehensive program of guaranteed farm prices maintained in fixed relationship to farm costs.

A debate arising, it was, on motion of Mr. Romuld adjourned.

The Assembly resumed the adjourned debate on the proposed Resolution (No. 11) moved by Mr. Pederson:

That this Assembly recommends that the Government take suitable action to alleviate the distresses now occasioned in some areas of the province by the differences in time.

The debate continuing, and the question being put it was agreed to.

The Assembly resumed the adjourned debate on the proposed Resolution (No. 10) moved by Mr. Davies:

That this Legislature endorse in principle the recommendations of the Royal Commission on Health Services and urge the Government of Canada to call a conference of Provincial Premiers and Health Ministers immediately with a view to the progressive implementation of recommendations of this report; and further urge the Government of Canada to enter immediately into a financial agreement to pay half the costs of a Medical Care program to any Province which institutes or has instituted a Medical Care program that conforms with the Commission's recommendations respecting medical care plans.

and the proposed amendment thereto moved by the Hon. Mr. Steuart:

That all the words after the word "report" in the fifth line be deleted, and the following substituted therefor: "and further urge the Government of Canada to enter immediately into a financial agreement to pay half the costs of a comprehensive medical care program which has been or will be introduced by any province in Canada."

The debate continuing, the hon. member for Moose Jaw (Mr. Davies) raised a point of order to the effect that the amendment was out of order because it was in substance inconsistent with the motion. Mr. Speaker ruled that a point of order of this nature could not be raised at this stage since the Assembly had already accepted and debated the amendment, and he cited Beauchesne's *Parliamentary Rules and Forms*, 4th Edition, Citation 70(4).

The debate continuing on the amendment, it was moved by Mr. Davies, seconded by Mr. Blakeney, in amendment thereto:

That the words "consistent with the recommendations contained in the said report," be inserted after the word "program" in the third line of the amendment.

The question being put on the proposed subamendment it was negatived on the following recorded division:

A point of order was raised by the hon. member for Kelsey (Mr. Brockelbank) to the effect that since the motion contained two parts, it should be divided, and the question proposed separately on each part. ### STATEMENT BY MR. SPEAKER

The Assembly is being asked for leave to introduce a bill sponsored by a private member, and at this stage there is no way of knowing whether or not the bill is in order particularly with respect to any provisions it may contain involving the public revenue. Might I suggest that the House accept a practice of the House of Commons regarding private members' bills, namely to accept them for first reading with the understanding that each will be scrutinized between now and the time appointed for second reading when any defects therein will be brought to the attention of the Assembly.

Leave to introduce the same having been granted, the following Bills were received, read the first time, and ordered to be read the second time on Monday next:

Bill No. 69—An Act to provide for the Establishment of a Commission to make Inquiries respecting a Plan of Income Maintenance for Persons Disabled by Illness or Personal Injury. (Mr. Davies)

That this House strongly urges the Government of Canada to permit no abandonment of rail lines that are essential to the communities they serve, and to assure that this objective is obtained, this House further urges that the power of the Branch Rationalization Authority be broadened to include mandatory public representation.

and the proposed amendment thereto moved by Mr. Willis:

That the following words be inserted before the first word of the motion:

“That this Assembly welcomes the interest of the Government of Saskatchewan in the problems of rail line abandonment and endorses in principle the statement of the Government of Saskatchewan with respect to federal Bill C-120, but recommends that provision be made in the Bill to provide fair and reasonable compensation to any municipality which suffers damage by abandonment of a branch line; and further this assembly urges the government to convene as soon as possible another conference of representatives of the governments of Alberta, Manitoba and Saskatchewan to further consider the overall problem concerning transportation rationalization and the effects of the new technology upon the industry and to prepare a joint presentation to the federal government and further”

The Order of the Day having been called for second reading of Bill No. 61—An Act to amend The Hours of Work Act, 1959 — Mr. Speaker made the following statement:

### STATEMENT BY MR. SPEAKER

The House will recall that on March 19th last, Bill No. 61—An Act to amend The Hours of Work Act, 1959, was introduced by leave and read the first time. When the Bill aforesaid came up for second reading on March 23rd, a point of order was raised. I listened with interest to the arguments and views voiced by Members upon the point of order and I wish to express my appreciation to them for the benefit of their ideas and opinions. Members will recall that I did with common consent, reserve my ruling in order to allow myself time to consult the relevant authorities, conduct that research which the matter required and deserved, and in order to give the problem serious contemplative consideration commensurate with its magnitude.

Objection has been taken that Bill No. 61, intituled "An Act to amend The Hours of Work Act, 1959" and standing in the name of the honourable Member for Regina East, is a "Money" Bill, so-called: that is, that it proposes to appropriate a part of the public funds or revenue or a part of any tax or impost to a purpose spelled out in the Bill. In such case, a principle of our constitution is that the purpose of the Bill must be recommended to this Assembly by message of His Honour the Lieutenant-Governor. A corollary principle is that such a message can only be delivered to this Assembly by one of His Honour's advisers who is a Minister of the Crown.

The effect of these principles is to preclude any Member, other than a Minister of the Crown, from proceeding with such a Bill upon a point of order taken. The broad principle is that the money voted by this Assembly towards supply must be devoted to purposes approved by the executive. My problem then is to determine whether this Bill, if enacted, would appropriate or require an expenditure out of public money received and collected or receivable and collectable by the Province.

The immediate purposes of Bill No. 61 is to reduce the hours of work, previously established by *The Hours of Work Act, 1959*, for employees covered by that Act, and to effect this reduction in work hours without any diminution of wages. The result is an increase in hourly wage rates which is immediately borne by employers to whom the Act applies. I will assume that this increase in wage rates causes an additional expenditure of employers' monies which they do not recoup from other sources or off-set in other manner. If, then the Province of Saskatchewan is an employer within the meaning of *The Hours of Work Act, 1959*, there is a direct appropriation of public money to meet increased expenditures in the public service.

For the purpose of applying the "Money" Bill rule to Bill No. 61—not by way of a legal opinion which, as Speaker of this Assembly, I cannot give—I must hold that the Crown is not an employer within the meaning of the relevant Act and, consequently, Bill No. 61 would not directly appropriate public money.

It may be suggested that the Bill, although not creating a direct charge on public funds or revenues, will nevertheless indirectly increase the public expenditures if we assume that the costs of goods and services to the provincial Treasury will thereby rise. Admitting this hypothesis for the sake of argument, I am satisfied that an appropriation of public funds within the meaning of our constitutional principle means an authority given by this Assembly to the Crown to pay money out of the consolidated fund. I do not find such authority in this Bill or the Act it proposes to amend.

In reaching my decision I find the following recent precedents of other legislatures persuasive, although not, of course, binding upon me. Members may be interested to refer to the *Canada Labour (Standards) Code*, Chapter 38 of the 1964-65 Statutes of Canada. This Act regulates hours of work, minimum wages, annual vacations, and general holidays. It is administered by the Federal Minister of Labour and, presumably, will indirectly but necessarily add to the general administrative costs of the Federal Labour Department. This Act, as a Bill, was a Government measure and, if a "Money" Bill, would have required to be accompanied by a recommendation of His Excellency the Governor General. There was no recommendation. It follows then that it was not regarded as a "Money" Bill.

Also, in the 1964-65 Session of Parliament, private Members introduced in the House of Commons the following Bills: Bill No. C-15: "An Act to amend The Annual Vacations Act (Two Weeks after One Year)"; Bill No. C-30: "An Act to provide for Pay for Statutory Holidays and for Pay for Work Performed on Statutory Holidays for Employees in Federal Works, Undertakings and Businesses"; Bill No. C-36: "An Act to provide for Minimum Wages for Employees in Federal Works, Undertakings and Businesses"; and Bill No. C-54: "An Act to amend The Annual Vacations Act (Three Weeks after Five Years)." The titles of these Bills are indicative of their purposes. All of them were debated on motion for second reading and continue to be shown on the Order Paper of the House of Commons as awaiting adjourned debate.

In the United Kingdom House of Commons, a private Member's Bill to "Provide Minimum Terms for Severance Pay for Workers Dismissed through Redundancy or Other Causes Beyond their Control" was introduced in 1962, 1963 and 1964. It was lengthily debated on the motion for second reading on the 14th February, 1964, and defeated on a vote. To none of these Bills, although similar or related in purpose to the Bill before this Assembly, was objection taken as being a "Money" Bill.

I would further point out that Section 7 of *The Interpretation Act*, being Chapter 1 of The Revised Statutes of Saskatchewan, 1953, reads as follows: "No provision in an Act shall affect the rights of Her Majesty unless it is expressly stated therein that Her Majesty is bound thereby". There are no provisions in *The Hours of Work Act, 1959*, nor in Bill No. 61 expressly stating that Her Majesty is bound thereby. Neither the original *Hours of Work Act* of 1947, the revised Act of 1953, the substituted Act of 1959 or the twelve amendments thereto have been considered as Money Bills. It therefore follows that Bill No. 61 is clearly not a Money Bill within the meaning of our Standing Order No. 45 and I so rule.

---

Thereupon, it was moved by Mr. Smishek:

That Bill No. 61—An Act to amend The Hours of Work Act, 1959 — be now read the second time.

A debate arising, it was moved by the Hon. Mr. Coderre, in amendment thereto:

That the word "now" be deleted, and the words "six months hence" added to the motion.

The debate continuing, it was moved by the Hon. Mr. Coderre:

That the debate be now adjourned.

Mr. Speaker ruled the said adjournment motion out of order.

The debate was, on motion of the Hon. Mr. Gardiner, adjourned.

The Order of the Day being called for second reading of Bill No. 69—An Act to provide for the Establishment of a Commission to make Inquiries respecting a Plan of Income Maintenance for Persons Disabled by Illness or Personal Injury — Mr. Speaker made the following statement:

#### STATEMENT BY MR. SPEAKER

Honourable Members will recall that on Thursday, March 25, 1965, Bill No. 69, standing in the name of the honourable Member for Moose Jaw, was introduced by leave and read the first time, its further procedure being subject to a Speaker's caveat as to its being in order.

A Bill, if passed, becomes an Order of the House, mandatory and binding, and must, therefore, throughout its entire passage through the House, be considered in the light of its affect as law.

I have read the Bill and considered the content matter thereof, and I find that the Bill provides for: (1) the establishment by Government of a Commission, the appointment of Commissioners thereto and a Secretariat therefor; (2) the receipt of money, securities or other properties by gifts, grants, bequests or otherwise; and (3) the payment of such remuneration to the Secretariat and remuneration and expenses to the Commissioners as the Chairman himself, a Commissioner, shall see fit.

Section 2, subsections 5 and 6 of *The Treasury Department Act*, being Chapter 33 of the Revised Statutes of Saskatchewan 1953, states as follows:

- "5. 'Public Revenue', 'Revenue', 'Public Money', respectively, mean all revenue and public moneys, from whatever source arising, whether such revenues and moneys belong to the province, or are held by the province, or collected or held by officers of the province for or on account of or in trust for any other province, or for Canada or for the Imperial Government or for any other party or person.
6. 'Revenue Officer' means any person employed in collecting, managing or accounting for revenue or carrying into effect any laws relating thereto or in preventing the contravention of any such laws: and, as regards accounting for and paying over such revenue, the said expression includes a person who has received or has been intrusted with public money, whether such person was regularly employed for the purpose or not".

In view of the foregoing, it is my opinion that: (1) the Chairman of the Commission would be deemed to be a Revenue Officer within the meaning of section 2, subsection 6, of *The Treasury Department Act*; (2) any money received and or disbursed would be deemed to be public money within the meaning of section 2, subsection 5 of *The Treasury Department Act*; and (3) the Accounts of the Commission would be subject to audit under section 22 of *The Treasury Department Act*.

Chapter 15, section 5 of the 4th Edition of Bourinot's *Parliamentary Procedure* states in part in regard to Bills involving public aid or charges: "Under this rule, all Bills providing for the payment of salaries or for any expenditure whatever out of the public funds of the Dominion must first obtain the recommendation of the Governor General".

Beauchesne's *Parliamentary Rules and Forms*, 4th Edition, Citation 243, states in part as follows: "Any Bill providing for the payment of salaries or for any expenditure whatever out of the public funds of the Dominion must first obtain the recommendation of the Governor General".

Nothing is more firmly established or clear than that the right to initiate legislation involving the collection and or the expenditure of public money rests solely with the Government, as indeed it must, for to be otherwise would produce confusion confounded. There is no surer way of destroying elective Government than by destroying the power of elected Government over, and its responsibility for the revenues and expenditures with which it has been entrusted by the people.

I find that the Commission would be a public body, that any money received or expended by it would be public money, that notwithstanding any provisions contained in Bill No. 69, it is indeed a Money Bill which cannot be moved by a private Member and I, therefore, rule it out of order.

The Order of the Day having been called for second reading of Bill No. 71—An Act to amend The Pharmacy Act, 1954 — Mr. Speaker made the following statement:

#### STATEMENT BY MR. SPEAKER

Honourable Members will recall that on Thursday, March 25, 1965, Bill No. 71, standing in the name of the honourable Member for Humboldt, was introduced by leave and read the first time, its further procedure being subject to a Speaker's caveat as to its being in order.

I have read the Bill and considered the contents thereof, and I find that it concerns legal sectional regulations, that it is not a money bill, and that it is in order.

Thereupon, according to Order, the following Bill was read the second time and referred to the Select Standing Committee on Law Amendments and Delegated Powers.

Bill No. 71—An Act to amend The Pharmacy Act, 1954.

**STATEMENT BY MR. SPEAKER**

Honourable Members will recall that during a debate on April 3rd, objection was taken to certain words used by the Member for Moosomin. I did at that time place the whole matter in abeyance pending perusal of the Hansard transcript of the speech.

Having done so, I find that the words used by the honourable Member were unparliamentary and further that the honourable Member did immediately thereafter state as follows: "Mr. Speaker, if anyone would think this was a personal attack on them, I would be very surprised, and if they take it as a personal attack I hope they will accept my apologies if they took it that way".

I presume that the House is prepared to accept the explanation and the apology.

Bill No. 06—An Act to confirm a Certain Bylaw of The Rural Municipality of Cory No. 344 of Saskatchewan.

The Assembly resumed the adjourned debate on the proposed Resolution (No. 12) moved by Mr. Larson:

That this Assembly views with alarm the increasing higher cost of farm machinery and other goods and services required by farmers which in the light of declining farm prices has created an urgent problem of great national importance, and sincerely requests the Government of Canada to implement immediately a comprehensive program of guaranteed farm prices maintained in fixed relationship to farm costs.

The debate continuing, it was moved by Mr. Romuld, seconded by Mr. Leith, in amendment thereto:

That all the words after the word "Canada" be deleted, and the following substituted therefor:

"to continue to develop a program to increase farm income, assist in the establishment of economic farm units, and in conjunction with farm organizations, develop policies that will increase security and opportunity for those presently engaged in the agricultural industry."

A point of order being raised to the effect that the amendment was out of order since the mover had seconded an earlier amendment, Mr. Speaker reserved his decision.

The Assembly resumed the adjourned debate on the proposed motion of Mr. Smishek:

That Bill No. 61—An Act to amend The Hours of Work Act, 1959 — be now read the second time.

The Order of the Day having been called for resumption of debate on the proposed Resolution (No. 12) moved by Mr. Larson:

That this Assembly views with alarm the increasing higher cost of farm machinery and other goods and services required by farmers which in the light of declining farm prices has created an urgent problem of great national importance, and sincerely requests the Government of Canada to implement immediately a comprehensive program of guaranteed farm prices maintained in fixed relationship to farm costs.

Mr. Speaker made the following statement:

### STATEMENT BY MR. SPEAKER

On April 6 last, a point of order was raised alleging that an amendment moved by the Member for Elrose to the proposed Resolution (No. 12) was out of order by reason of the Member aforesaid having, in the same debate, seconded a previous amendment which was ruled out of order. Citation 165 (8) and (3) from Beauchesne's *Parliamentary Rules and Forms*, 4th Edition, were referred to in support of the point of order.

Citation 165 (8) reads as follows: "A Member who has moved or seconded the adjournment of the debate which has been negatived, cannot speak to the original motion." Although a strict interpretation of our Standing Orders would require a seconder for an adjournment motion, it has never been the practice of this House to so require. A search of the Hansard record does not show the Member for Elrose as either moving or seconding an adjournment of this debate. Citation 165 (8) is therefore not applicable to this case.

Citation 165 (3) of Beauchesne was also cited, to which I think, (though not mentioned at the time), should also be added for concurrent consideration, Citation 165 (4) and Citation 165 (1). Citation 165 (3) states in part: "By moving or seconding an amendment a Member, if he utters a few words, actually speaks to the main motion." Subsection (4) says: "A member who speaks in seconding an amendment is unable to speak again on the original question after the amendment has been withdrawn, or otherwise disposed of".

Further, subsection (1) states: "The Member who makes a motion may give the name of his seconder, who will, if necessary, lift his hat as evidence that he had intimated his consent, and the seconder will then be allowed to speak on the question. But if the seconder should rise and say only a word or two, — for instance "that he seconds that motion", — he is precluded from again addressing the House."

The whole case for or against the admissibility of the amendment of the Member for Elrose hinges upon whether or not the Member for Elrose did indeed actually speak at any time in the debate prior to moving the amending motion. The Hansard record does not show that any words were uttered by the Member for Elrose in connection with the seconding of the amendment which was ruled out of order. That being the case, I rule the amendment moved by the Member for Elrose to be in order.

The debate is now on the amendment.

---

A debate arising on the amendment moved by Mr. Leith, seconded by Mr. Gallagher, namely:

That all the words after the word "Canada" be deleted, and the following substituted therefor:

"to continue to develop a program to increase farm income, assist in the establishment of economic farm units, and in conjunction with farm organizations, develop policies that will increase security and opportunity for those presently engaged in the agricultural industry."

and the question being put, it was agreed to on the following recorded division:

"In Her Majesty's name, His Honour the Lieutenant-Governor doth thank the Legislative Assembly, accepts their benevolence, and assents to this Bill."

His Honour the Lieutenant-Governor was then pleased to deliver the following Speech:

MR. SPEAKER, MEMBERS OF THE LEGISLATIVE ASSEMBLY:

It is my duty to relieve you of further attendance at the Legislative Assembly. In doing so, I wish to thank you for and congratulate you upon the work you have done. I wish also to express my confidence that the approval of the programs and plans presented to you will continue to provide the services necessary to the growth and development of our Province.

The legislation you have passed in this first session of the Fifteenth Legislature has been designed to speed the development of those resources Providence has bestowed on us, so that all our people may share in their fruits.

Among those measures, were enactments for tax relief which my ministers believe will go far in inducing a larger measure of industrial investment in Saskatchewan, and in enabling our agricultural industry to reap greater benefits from their operations. In this latter respect, you have approved the establishment of administrative machinery to sell, where conditions warrant, certain cultivation and grazing leases.

You have approved measures to accelerate the construction of roads throughout our Province in the hope of making many undeveloped areas more readily accessible to potential private investors. In this regard you have also moved to relieve municipalities of some of the burden they have had to bear in road construction and maintenance.

It is your hope that our municipalities will also benefit from new measures encouraging the speedy installation of new water and sewer facilities.

You have approved the establishment of an Indian and Metis development branch in order that My Government can proceed with an adequate program to relieve the plight of many thousands of our native people in Saskatchewan.

You have approved an increase in benefits to those of our civil servants and teachers whose pension benefits have proven inadequate.

Your concern for the youth of our Province has been reflected in the establishment of a Saskatchewan Youth Agency, and in the provision of larger sums of money for higher education and school grants.

In the search for efficiencies and improvements in the administration of government, you have approved the expenditure of monies for the work of the Royal Commission on Government Administration.

I thank you for the provision you have made to meet the further requirements of the public service and assure you the sum of money voted will be used economically, prudently and in the public interest.

In taking leave of you, I desire to thank you for the manner in which you have devoted your energies to the activities of the session and wish you the full blessing of Providence as you return again to your respective homes.

The Hon. Mr. Heald, Provincial Secretary, then said:

MR. SPEAKER, AND MEMBERS OF THE LEGISLATIVE ASSEMBLY:

It is the will and pleasure of His Honour the Lieutenant-Governor that this Legislative Assembly be prorogued until it pleases His Honour to summon the same for the dispatch of business, and the Legislative Assembly is accordingly prorogued.
