THIRD SESSION

NINETEENTH LEGISLATURE

### **Regina, Thursday, November 27, 1980**

*2:00 o'clock p.m.*

Mr. Speaker informed the Assembly that he had received a communication from the Private Secretary to His Honour the Lieutenant Governor stating that His Honour would open the Session at 3:00 o'clock p.m. today, Thursday, the Twenty-seventh day of November, 1980.

*3:01 o'clock p.m.*

His Honour the Lieutenant Governor entered the Chamber and, having taken his seat upon the Throne, was pleased to open the Session with the following speech:—

MR. SPEAKER,

MEMBERS OF THE LEGISLATIVE ASSEMBLY

It is my privilege to welcome you to the Third Session of the Nineteenth Legislature of Saskatchewan.

On November 22, 1980, the people of Canada were saddened by the death of the former Governor-General of Canada, the Right Honourable Jules Leger. My Government deeply regrets his death, but we remember with warmth and respect his courageous and dedicated life in the service of his country, and we extend our sincere sympathy to Madame Leger.

In this Celebrate Saskatchewan year, my Government looks back on a decade of sustained growth and prosperity for this province. As we enter the new decade, we find ourselves in the grip of a national economic recession. We are faced with the need to devise new constitutional relationships to govern our country. We are faced with continuing social change and new social challenges. Saskatchewan's positive response to these realities reflects the developing strength and resilience of our economy, and the co-operative and progressive spirit of our people.

CELEBRATE SASKATCHEWAN

Two years ago my Government established a program called 'Celebrate Saskatchewan' to co-ordinate and promote the activities marking our 75th anniversary as the Province of Saskatchewan.

THURSDAY, NOVEMBER 27, 1980

Local governments, individuals, organizations, businesses, and Saskatchewan people throughout the province enthusiastically adopted the program.

We were honoured to have Her Royal Highness, the Princess Margaret, tour our province, and to have both the Governor General of Canada and the Prime Minister of Canada take part in our official ceremonies in September.

During 1980 over 870 communities held special events recognizing our heritage, celebrating our present, and reflecting on our future. In total, some 3100 Celebrate Saskatchewan events have taken place.

Our 75th year as a member of Confederation has been memorable. My Government is pleased with the renewed sense of pride our people have acquired — as Saskatchewanians and as Canadians.

In recognition of this anniversary and as a tribute to our pioneers, we will construct a new Provincial Archives Building in Regina. This building will be an important addition to Saskatchewan's cultural and educational scene.

#### RENEWED CANADIAN FEDERALISM

Our Constitution has been the centre of attention and debate by Canadians and their representatives during 1980. Early this year the people of Canada decided to change their federal government after a short term in office. The historic Quebec referendum followed in May, and the people of Quebec decisively demonstrated their desire to remain Canadians. My Government participated in the efforts of the Ministerial Committee and the First Ministers towards a renewed Canadian federation.

We believed this national debate should centre on what it means to be a Canadian. We participated in this debate in the traditional Saskatchewan spirit of co-operation. My Government put forth its view that changes to *The British North America Act* and any new Constitution must reflect both national and regional interests and concerns.

It was with deep regret that my Government noted the action of the federal government toward unilateral changes to *The British North America Act*. Our position has been consistent; constitutional change should be the product of consensus among governments in Canada. We have no doubts about the vitality of Canada. We have no doubts about the ultimate strength of the ties which bind us together as Canadians. The positive response to our approach from people in Saskatchewan and across our nation confirms our optimism about our future.

But the federal government's unilateral action further divides — rather than unites — Canadians. It causes more discord — not less. Rigid opposition to that unilateral action holds no promise for the consensus Canadians are seeking. In view of these facts, my Government chose to work for real changes in the federal resolution.

My Government must report that not all the essential changes we have sought have been forthcoming. While the federal government has shown some flexibility, we do not have agreement on the specific wording of essential changes respecting ownership and control of resources, equalization, and an amending formula.

My Government pledges itself to continue to press for needed changes in the federal resolution. The cost of failure is too great to abandon negotiation without exploring every avenue, without seeking every solution, in the quest for consensus. Should our efforts fail to achieve essential changes, my Government will have no option but to oppose the federal resolution.

#### THE ECONOMY

Canada is currently undergoing a period of serious economic recession. In 1980 our nation will experience the first absolute fall in real gross domestic product in a quarter of a century. The national economy has failed to provide jobs for the 765,000 unemployed in Canada.

In contrast to the national scene, Saskatchewan's economy will show modest real economic growth in 1980. Saskatchewan's unemployment rate remains among the lowest in the country. Saskatchewan's population reached an estimated 970,000 persons on July 1, 1980, its highest level ever.

#### AGRICULTURE AND RURAL AFFAIRS

In response to serious drought conditions experienced in the spring and early summer, my Government implemented a major drought relief program to assist in the movement of fodder and the development of water sources.

My Government received excellent co-operation from municipal reeves and councils. The reeves became the drought chairmen for each municipality, supplying information on fodder deficiencies and surpluses throughout the province. The reeves brought buyers and sellers in each municipality together while the Department of Agriculture coordinated such contacts between municipalities.

The success of this program was a convincing demonstration of the co-operative spirit and tradition at work in Saskatchewan, joint local community and provincial action to solve problems.

With the help of July and August rains, grain crop production in 1980 will exceed last year's level in volume, with some reduction in quality.

We have witnessed this past year the continuation of the attack begun several years ago on Western agriculture's deal with Confederation — the Crow Rate.

My Government believes that there are constructive ways to cover the legitimate costs of the railways while still preserving the Crow Rate for Western farmers. We will continue to put forward proposals which can accomplish both objectives.

Saskatchewan's farmers did receive encouraging news this summer with the announcement that Canada attained record grain exports in the 1979-80 crop year. My Government's 1,000 grain hopper cars are expected to come on stream over the coming months, and we will continue our efforts to increase the level of exports.

It was also gratifying to note that, through the continued efforts of my Ministers and community groups throughout Saskatchewan, more than 1,000 kilometres of Prairie railway branch lines were placed under protected status, making these lines eligible for upgrading.

Following federal-provincial discussions over the past year, the national government has moved closer to an effective hog stabilization plan for Canada. Efforts will be intensified in the coming year to achieve effective national plans for both hogs and beef.

You will be asked to consider amendments to *The Saskatchewan Crop Insurance Act*, *The Farm Security Act*, *The Stray Animals Act*, and *The Rural Municipality Act*.

#### QUALITY OF LIFE

My Government has received a comprehensive report on the state of cultural activities in the province. Building on the success of Celebrate Saskatchewan and the obvious interest of Saskatchewan citizens in enriching their culture, my Government is reviewing the document and moving toward implementation of some of the recommendations.

Saskatchewan people will continue to enjoy greater participation in leisure activities. My Government is taking action which will help our provincial parks respond to the emerging interest in fitness and healthy lifestyles. To meet a growing demand, my Government will develop new year-round facilities in these parks.

Many of these new developments have been funded by the Saskatchewan Heritage Fund — an excellent example of resource revenues being used to improve the quality of life for Saskatchewan people.

This year my Government will begin action to preserve unique wilderness areas for the benefit of future generations.

A major initiative to preserve heritage resources in the province, *The Heritage Property Act*, will be proclaimed tomorrow. The Act provides for the sharing of responsibility for heritage conservation between the province and municipalities.

Government House, a restored provincial heritage property in Regina, will be open to the public in 1981.

#### EDUCATION

My Government will take a number of new initiatives this year to improve our educational system by making it more flexible and responsive to the changing needs of the communities it serves.

One of my Government's urban native initiatives, the 'Community Schools Program', was successfully introduced this year in Saskatoon, Prince Albert, and Regina. This program will be expanded for the next school year.

With native people, educational institutions, unions, and employers, the Department of Continuing Education will start a Native Career Development Program.

You will be asked to consider amendments to *The Education Act* to strengthen the right of all children, regardless of circumstance, to a tuition-free education. Provision will be made for the introduction of the division system for election of school boards in Regina and Saskatoon.

One of every five adults in Saskatchewan has enrolled in some form of adult education. My Government will continue the development of an integrated system of accessible adult education.

To meet the challenges of rapid scientific and technological changes in our society, my Government will undertake a major study to develop policies incorporating new developments in these fields in our educational and research programs.

Amendments will be introduced at this Session to *The Association of School Business Officials of Saskatchewan Act*, *The Community Colleges Act*, and *The Student Assistance and Student Aid Fund Act*.

#### HEALTH AND SOCIAL SERVICES

1981 has been designated as the International Year of the Disabled. Saskatchewan is a leader in services to the handicapped; and in preparation for this important year, my Government established a Task Force to collect broadly-based advice on future needs in the field. This report will be made available to the public for review and comment.

In day care and the care of our elderly citizens, attention will be given both to new and improved delivery of services.

You will be asked to pass a new Dental Therapists Act to replace the existing *Dental Nurses Act*.

Amendments to *The Department of Health Act*, *The Change of Name Act*, and *The Registered Nurses Act* will also be placed before you.

#### THE NORTH

During the last Session my Government introduced *The Environmental Assessment Act* to formalize one of the most rigorous review processes utilized in North America. This symbolized my Government's strong commitment to the need for reviewing both the environmental and socio-economic impacts of new developments in any area of Saskatchewan, a tradition well established with the Churchill River, Poplar River — Nipawin, and Cluff Lake Boards of Inquiry. We will continue to implement measures to ensure local participation in the opportunities arising from approved development projects.

My Government has completed initial consultations with northern local governments in order to create a regional government structure with greater local autonomy.

A Northern Municipalities Act is being prepared. A detailed proposal for reorganization of municipal government in northern Saskatchewan will be available soon for public review.

The Department of Northern Saskatchewan recently opened a large repair depot and will be developing a training centre complex in Buffalo Narrows. Northerners will use this complex to develop equipment repair, mining and industrial skills.

The Department of Co-operation and Co-operative Development and the Department of Northern Saskatchewan will enhance the role of co-operatives in northern Saskatchewan.

You will be asked to consider amendments to *The Department of Co-operation and Co-operative Development Act* and *The Credit Union Act*.

#### RESOURCES AND CONSERVATION

My Government has overseen an extremely successful period in the mineral resource field through 1980. We are committed to the orderly development of our valuable resource base in keeping with our objectives of new economic opportunities and a fair return to the people of the province.

Major growth is slated for the Potash Corporation of Saskatchewan facilities at Allan, Lanigan, and Rocanville. Recently the Potash Corporation of Saskatchewan announced the preliminary stages of the development of a new mine at Bredenbury, east of Melville. Such expansions will employ local residents and provide large economic opportunities for Saskatchewan business.

The outlook for the development of our energy resources has been severely clouded by the recently announced National Energy Program of the federal government.

The federal budget included severe taxes, an oil pricing policy which will inhibit oil drilling activity, and few specific measures to achieve Canadianization of the oil industry. We regret the approach taken by the federal government on these matters. My Government, through its Crown corporation, Sask Oil, will increase its level of activity. We will press hard for renewed negotiations to arrive at an energy program that will better serve the national interest.

My Government intends to introduce certain amendments to *The Oil Well Income Tax Act* which will clarify and streamline the tax system.

Conservation and related research are priority topics with the Government. Saskatchewan is leading Canada in home insulation programs and in solar and passive-solar projects.

To encourage energy conservation and technological advancement in the area of renewable energy, the Governments of Saskatchewan and Canada signed an \$18 million agreement for renewable energy and energy conservation demonstration. Several projects have received approval for funding under this agreement. The Energy Show in Saskatoon was an unqualified success.

## JUSTICE

Last year the Law Reform Commission of Saskatchewan brought down its final report on 'Proposals for Reform of The Jury Act'. The Commission recommended sweeping changes to the method of selecting and compensating jurors in Saskatchewan. This Session my Government will bring forward a new Jury Act.

Amendments to *The Police Act* will be placed before you which will permit a municipality to increase the number of members on the Board of Police Commissioners from three to five.

The Department of Northern Saskatchewan will undertake new programs for corrections in the North. As an alternative to sending northern offenders south to the Prince Albert Correctional Centre, the Department has developed a Northern Corrections Program. Two community residential centres and a bush camp will be built to accommodate northern offenders. These centres will be staffed mainly by northerners trained through a DNS program.

Amendments will be sought to *The Land Titles Act* and *The Provincial Court Act*.

## TRANSPORTATION

My Government recognizes that urban transit in major cities is a basic service. Transit will become more essential to our urban transportation systems with rising energy costs. We are considering additional ways to encourage the use of these systems.

My Government will keep its emphasis on highway construction to serve the north in the coming year.

In the south, my Government will continue to upgrade the rural highway system and to provide assistance for the rural road system through revenue sharing. These roads are essential parts of the social, recreational and marketing activities in Saskatchewan's rural communities. In this fiscal year, rural municipalities will receive over \$34 million under my Government's revenue-sharing program.

During this Session my Government will be proposing amendments and regulations which will reaffirm the philosophy of *The Automobile Accident Insurance Act* — that all citizens involved in an automobile accident will be protected against loss. To maintain the emphasis on people, we are proposing to increase third party liability and weekly income benefits.

## INDUSTRY, TOURISM AND CONSUMER RIGHTS

Saskatchewan businesses continue to enjoy a favourable economic climate, based on successful diversification of the economy into a broad range of primary, manufacturing, and service industries.

My Government will be examining opportunities to enhance the contribution of tourism by developing a wider variety of vacation experiences in Saskatchewan for residents and visitors. Saskatchewan business will be encouraged to take advantage of the economic opportunities afforded by this strategy and the development of our primary resources.

Rejuvenation of small Saskatchewan communities is continuing through the Main Street Development Program. More than one-quarter of the eligible communities in the province have created Business Improvement District Boards and received grants to improve their business districts.

We will continue our efforts to provide better service to the buyers and sellers of goods and services. To maintain the integrity of the marketplace, my Government plans to combine a number of separate agencies into a new Department of Consumer and Commercial Affairs.

You will be asked to consider amendments to *The Business Corporations Act*, *The Non-Profit Corporations Act*, and *The Real Estate Brokers Act*.

#### WORKERS AND PENSIONS

In the last Session important improvements were made in labour legislation. Other improvements will be made to preserve a sound industrial relations environment in Saskatchewan, and to provide adequate minimal employment conditions for working people. In this regard, the provincial minimum wage is again to be raised — to \$3.85 on January 1, 1981 and to \$4.00 on July 1, 1981.

In this Session you will be asked to consider amendments to *The Trade Union Act*, which will clarify procedures to be followed in conducting strike votes.

*The Superannuation (Supplementary Provisions) Act* will be amended to supplement the pensions received by persons under public service superannuation plans.

#### REPRESENTATION

The final Report of the Constituency Boundaries Commission has been received. Legislation in the form of The Representation Act will be introduced to implement the recommendations of this Commission. You will be asked to consider amendments to *The Election Act* and *The Members of the Legislative Assembly Conflict of Interests Act*.

The Public Accounts for the last fiscal year, together with Estimates for the year beginning April 1, 1981, will be submitted to you.

I leave you now to the business of the Session with full confidence that you will favourably discharge your duties and responsibilities.

May Divine Providence continue to bless our province and guide this Legislature in all its deliberations.

His Honour the Lieutenant Governor then retired from the Chamber.

## **Regina, Friday, November 28, 1980**

*10:00 o'clock a.m.*

PRAYERS:

Mr. Speaker laid before the Assembly, pursuant to Rule 105 the report of the Legislative Librarian dated November 24, 1980, which is as follows:—

### REPORT OF THE LEGISLATIVE LIBRARIAN

REGINA, NOVEMBER 24, 1980

*To the Honourable*

*The Speaker of the Legislative Assembly of Saskatchewan*

Sir:

I have the honour to submit to you the Annual Report of the Legislative Librarian for the period November 1979 to October 1980.

The primary duty of the Legislative Library is to serve the Members of the Legislative Assembly. This function the Library has always endeavoured to fulfill within the confines of its budget and facilities. It has continued this endeavour during the past year. Throughout its history it has also served researchers and other employees of government departments and agencies and crown corporations, provided reference assistance to the general public and, under necessary restrictions, given borrowing privileges to members of the local federal civil service, university students, local lawyers, and other individuals working on special projects. But that the Library's foremost responsibility is to the Legislature has always been fundamental in its operation.

*Reference and Circulation*

Reference and circulation statistics demonstrate that the past year has been busy and productive, very substantial increases being shown in all categories except one. In a number of categories the totals exceed those of any previous year.

Following is a three-year comparison:

|  | 1977-78 | 1978-79 | 1979-80 |
|--|---------|---------|---------|
| Reference inquiries                          | 4367    | 6634    | 7939    |
| Circulation                                  |         |         |         |
| Books from general collection                | 3059    | 2946    | 3413    |
| Law reports & texts,<br>statutes & debates   | 490     | 458     | 873     |
| Government publications,<br>pamphlets & maps | 1625    | 1701    | 2646    |
| Periodicals                                  | 1086    | 1359    | 1722    |
| Newspapers                                   | 547     | 654     | 921     |
| Statistics Canada publications               | 599     | 733     | 607     |

The circulation figures do not include transfers from one borrower to others frequently made without notifying the library, renewals, often requested two or three times, and the many items borrowed each day for immediate xeroxing. They also take no account of the mass of materials used on the premises, (Statistics Canada publications, for instance, are used much more extensively in the library than borrowed). Gathering such statistics would make an impressive total but they would be either impossible to obtain or more time-consuming to record than this library with a small staff can afford. It should also be noted that lending to other than Members of the public service, except on interlibrary loan, is largely confined to books and law texts, other materials being restricted to use within the Library.

Reference inquiries and requests for information and research materials followed the patterns of previous years with a variation particular to the past one. Saskatchewan's 75th birthday, as would be expected, occasioned greatly increased use of local history books and pamphlets, of earlier issues of *The Saskatchewan Newspaper Index* for information and leads about noteworthy individuals and events in the history of the province, of reports and news items on activities and government-sponsored programmes related to previous Jubilee festivities and Royal and Vice-Regal Visits, and of books dealing with Saskatchewan and Territorial history in general. Otherwise, as in the past, all the matters of current provincial and national concern were subjects of inquiry. A representative list would include those which immediately come to mind at this point in Canada's history: the Constitution and the difficulties and controversies associated with its patriation, federal-provincial fiscal relations, provincial vs. federal control over mineral resources and mineral taxation, and the future of energy supplies. Topics specifically germane to Saskatchewan were uranium mining and the proposed uranium refinery at Warman, the Medicare crisis of 1962 in relation to the events leading to and the differences of opinion over the recent Hall Commission Report, *Canada's National-Provincial Health Program for the 1980's*, the abandonment of rail lines and the

subsequent effects on small communities situated on them, the history and architecture of the Legislative Building, the provincial takeover of the potash industry, and the history and operations of government departments and agencies and crown corporations. A miscellany of subjects of more general interest pursued by public service and caucus researchers and students should include, among a myriad of others, Indian treaties and native land claims, all varieties of environmental pollution and the problems of control, the economic position of women, the aged, and the handicapped, compulsory retirement, pensions, conflict of interest, freedom of information and the right of privacy, the legal responsibilities of school boards and decisions in court cases illustrating those responsibilities, the platforms of political parties and their policies and operations when elected, multinational corporations, and development in the communication field.

As in all previous years, searches for and through legislation and regulations were daily, through legislative and parliamentary debates almost daily occurrences, and the Statistics Canada publications were used several to many times each day.

#### *Acquisitions*

The character of the library has always dictated the predominance of the political and social sciences, economics, law, and Canadian history in the choice of books and pamphlets for its collection. Although this emphasis has been adhered to consistently, the magnitude of the problems associated with the environment, energy sources, consumption and conservation, transportation, and management has meant that an ever larger portion of the book budget has had to be assigned to those fields during the past years. Budget restrictions, leaping prices, and voluminous publication have necessitated very careful selection and cautious buying in the attempt to keep abreast of developments in these mandatory areas, and, regretfully, minimal purchase of books for general interest reading and reading for enjoyment.

The following number of individual titles were processed: books, 896; Statistics Canada publications, 1690; government documents (non U.S.) and pamphlets, 2455. The latter number does not include serial publications such as daily federal and provincial *Debates, Bills, Votes and Proceedings*, and House of Commons Committee proceedings which for the year would total in the thousands.

It is fair to say that the most important part of the library's collection consists of government documents. Of these, the United States government publications require special comment because of their importance and because of the problems they present. This library is one of only five recipients in Canada of full sets of U.S. documents, the estimated worth of its current holdings being considerably over \$1 million, all of which have been received free of charge. The volume of materials, the space required for shelving, and the time involved in processing constitute the problems. Funds to provide for the adoption of the CODOC system (Co-operative Documents System) for the organization of these documents would be a worthwhile investment. Their accessibility, the speed and efficiency of their handling, and their research value, already demonstrated by current use, would be greatly increased thereby.

An encouraging development is the number of these publications now arriving in the form of microfiche. Assurance has come from the Assistant Superintendent of Documents of the U.S. Government Printing Office that the trend will accelerate rapidly in the near future. The result will be a welcome amelioration of the library's space problem.

During the year a total of 15543 items were received for this collection, of which 4016 were monographs, 9159 were serial issues, and 2368 were discarded because they would be of no use here. 748 items were weeded from the materials received in previous years. Although already included in the reference and circulation statistics it might be of interest to note that 1245 reference inquiries were handled involving the use of, and 864 items were loaned from the U.S. documents collection.

The library continued its subscription to the portion of Micro-media's Microlog service which provides provincial government publications on microfiche, receiving the microfiche at half-price because it lends Saskatchewan government publications for inclusion in the service. While retaining, requesting and ordering hard copy annual departmental reports and publications of other provinces likely to be of particular interest to its patrons, the certainty is that as time goes on space considerations will force the library to depend more and more on microfiche materials. It is a present fact that use of the Microlog collection is increasing noticeably, more, if not most departments now being equipped with readers.

The library continues to receive a large number of journals, magazines, newspapers and law reports by subscription, on a complimentary basis, and by reason of its depository status. They cover a wide-ranging spectrum of fields of interest, mirroring the emphases and strengths of the collection as a whole. 995 is the current total, of which approximately 250 are U.S. government periodicals.

#### *Newspaper Indexes*

Indexing the four Saskatchewan dailies, *The Western Producer* and *The Commonwealth* has continued, occupying three-quarters of the time of one staff member and smaller portions of the time of two others. In addition to the more current material entered on cards there are seven cumulations of *The Saskatchewan Newspaper Index*. The first two, covering the 1930's and 1940's were of relatively limited scope, concentrating almost entirely on the *Leader Post*. More detailed coverage began with the 1949-1954 issue. While the range of subjects and events is broad, indexing has necessarily been selective, the needs of the library's own clientele being the criterion as to what should be included. There are, of course, gaps and misses but the aim has been to keep these to a minimum.

In spite of inevitable shortcomings these indexes have proven consistently over the years to be very useful, often invaluable, sources of information about Saskatchewan historical events, government operations and decisions, political parties and politicians, and agricultural, educational and environmental problems and policies, to mention just a few of the matters included. There are very few days in the year when the Indexes are not used by one, usually more, of the library staff members, caucus or departmental researchers, or university students, both undergraduate and graduate. Preceding and during legislative sessions especially, they are very often consulted by Members themselves.

#### *Newspapers*

At the end of 1979 the library ceased binding the four Saskatchewan daily newspapers, replacing the bound volumes with microfilm copies for permanent

retention. The decision was dictated by the lack of storage space and the inferior lasting quality of present-day newsprint. It is intended to retain the daily issues for at least three years for ease in xeroxing articles in response to requests by Members and other users of the library.

#### *Interlibrary Loans*

125 requests were processed on behalf of Members, researchers, and other government employees stationed in the Legislative Building to whom such service by the library is confined. This is a considerable decrease from last year's total, a number of constant users of this service having moved to other locations. The figures for loans of Legislative Library materials to Saskatchewan and out-of-province libraries are included in the general circulation figures.

#### *Stack and Storage Areas*

Because of strenuous efforts by the employees in the library's stack area on the lower floor of the Legislative Building, there has been continued improvement in the arrangement of materials, provision of working space and facilities for researchers and staff, and in general appearance. It should be emphasized that this section of the library is not just a repository for materials infrequently referred to and U.S. government documents. On the contrary, many items and multi-volume sets are sent to the area immediately after processing because their bulk makes it impossible to keep them in the main library, as are many periodicals removed from the reading room on receipt of the current issues, the daily newspapers older than one month, and the provincial weeklies older than two months. The majority of U.S. government publications held in the stacks are there for processing only before being moved to the storage area provided in the Regina Saskatchewan Archives Office. For the last few years policy has been as much as possible to transfer from the main library to the stacks only those government documents, reports, and pamphlets which must be retained for at least several years or permanently. There are many calls each day for materials from this area, much of it required for immediate use.

Every year a significant amount of material which has passed its retention period or is out of date is discarded. Some of the former, such as the *Gazettes* of other provinces, unpassed federal and provincial Bills, for example, preferably should be kept for longer periods if space permitted.

The area assigned to the Library in the Gemini Building houses government documents such as the British House of Commons and House of Lords Debates (for all but the most recent years), early provincial (non-Saskatchewan) *Statutes*, all but the most recent of the *Acts* of the American States, the *Congressional Record*, and the *Canadian Patent Office Record*. These must be kept permanently. The library is reluctant to transfer to that location even seldom-used material because of the inordinant amount of travel time required for retrieval. Under present conditions the *Canadian Patent Office Record*, of which the library is the only recipient in the southern half of the province, is virtually inaccessible to the public.

*Miscellaneous*

The fourth annual *Checklist of Saskatchewan Government Publications* was distributed to 110 libraries, mostly situated in Canada, several in the United States, and a few in the United Kingdom. It includes all the 1979 publications issued by the Saskatchewan government departments, agencies, and crown corporations received by the library as a depository library, excluding individual *Bills* and *Orders of the Day* of the Legislative Assembly. The aim is to make it complete but inevitably there are some tardy arrivals and a few misses every year which must be covered by a supplement.

Accession lists of newly acquired books, government documents, reports and pamphlets were circulated bi-monthly.

A large amount of xeroxing of library materials, totalling approximately 2500 sheets per month, was done for individuals, government offices and libraries, and to fill interlibrary loan requests. This estimate does not include xeroxing done by employees of other departments using, on government business, the machine assigned to the library by Office Services.

The library continued to order books on behalf of departments and agencies which have no staff member qualified as a librarian or library technician to perform that function, and to catalogue books for the Publications Division of the Department of Mineral Resources.

Tours of the library were provided to three groups of staff members of the Regina Public Library's Information Services Branch. The purpose of the tours was to make them aware of the resources and services of the library and, particularly, to increase their knowledge of and expertise in searching through and for statutes, regulations, and parliamentary debates.

The library's contribution to the permanent collection on microfilm of Saskatchewan's weekly newspapers in the Regina Office of the Saskatchewan Archives Board continues. Under an arrangement begun in 1948 the library transfers to the Archives, after a holding period of one to two years, the provincial weeklies to which it subscribes. The library tries to ensure that all of these weeklies are included in the subscription list.

The Reading Room was used for receptions by the Saskatchewan Youth Parliament in December, the Saskatchewan Council of the Girl Guides of Canada on the occasion of their Canada Cord presentation in May, and on September 4 during the celebrations marking Saskatchewan's 75th anniversary as a province.

Respectfully submitted

Thereupon the Member for Saskatoon-Sutherland rose to continue his remarks on the Address-in-Reply. Mr. Speaker ruled that since the Member's remarks had been interrupted by Rule 13(3) his remarks were deemed to be concluded and that he could not re-enter the debate. Mr. Speaker referred all Hon. Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, para. 354 which states: 'At the hour appointed for the interruption of proceedings, when the Speaker puts the question, a Member who is speaking at that time is considered as concluding his speech even though he has not spoken for his full allotted time'.

The debate continuing on the motion, it was on motion of Mr. Allen, adjourned.

The Order of the Day having been called for the following Resolution, it was dropped.

That the final report of the Constituency Boundaries Commission established pursuant to *The Constituency Boundaries Commission Act*, laid before this Assembly by the Hon. Mr. Speaker recommending that the area of the province: (i) lying south of the dividing line as defined in section 14 of the said Act, be divided into 62 constituencies; and (ii) lying north of the dividing line as defined in section 14 of the said Act be divided into two constituencies, be hereby approved and adopted by this Assembly:

That the descriptions of each of the constituencies as recommended by the said final report, except the names of the constituencies of Regina North, Saskatoon Buena Vista and Saskatoon West and the description of the boundaries of the constituencies of Arm River, Canora, Kinistino, Redberry, Regina North, Regina North West, Rosetown-Elrose, Shaunavon, Thunder Creek and Turtleford be approved and adopted by this Assembly; and

That the final report of the Commission be altered by: (i) deleting the constituency name 'Regina North' and substituting therefor 'Regina Argyle'; (ii) deleting the constituency name 'Saskatoon Buena Vista' and substituting therefor 'Saskatoon South'; (iii) deleting the constituency name 'Saskatoon West' and substituting therefor 'Saskatoon Fairview'; and (iv) deleting the descriptions of the boundaries of the constituencies of Arm River, Canora, Kinistino, Redberry, Regina North, Regina North West, Rosetown-Elrose, Shaunavon, Thunder Creek and Turtleford and substituting therefor the descriptions of the boundaries set out in the schedule, tabled in this House today, and attached to this resolution, and that the final report of the Constituency Boundaries Commission, as so altered by this resolution, be approved and adopted by this Assembly.

Leave of the Assembly having been granted, it was moved by the Hon. Mr. MacMurchy:

### STATEMENT BY MR. SPEAKER

As a result of a Point of Privilege raised by the Leader of the Opposition I have examined the CKCK T.V. transcript headed as follows: 'Transcript - Jerry Hammersmith - Supper Newscast - Tuesday, December 9, 1980'.

*Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, para. 84(1) states: 'Once the claim of a breach of privilege has been made, it is the duty of the Speaker to decide if a *prima facie* case can be established. The Speaker requires to be satisfied, both that

privilege appears to be sufficiently involved to justify him in giving such precedence (or as it is sometimes put, that there is a *prima facie* case that a breach of privilege has been committed); and also that the matter is being raised at the earliest opportunity'.

The essence of the Point of Privilege raised by the Leader of the Opposition is: 'The Rules Committee, as well as Mr. Speaker....have been impugned by the public utterance of the Minister of the Department of Northern Saskatchewan. I paraphrase .... what he said is that the Rules Committee of Mr. Speaker was going to Great Britain on a paid holiday at taxpayers' expense....I would ask Mr. Speaker to make a ruling as to whether the trip arranged by your office for the Rules Committee to Great Britain is in fact....a holiday paid by taxpayers' expense.'

The transcript shows that the Member for Prince Albert-Duck Lake said in part that the Member for Qu'Appelle is 'proposing to take a four day holiday at taxpayers' expense'. I can neither support or deny the contention that the Member for Prince Albert-Duck Lake believes the Member for Qu'Appelle is planning a four day holiday at taxpayers' expense. I have not discussed that matter with the Member for Qu'Appelle since he has not attended any of the twelve meetings of the Rules Committee since it was established in May, 1979.

The final decision to go to Great Britain was a personal decision of each Member whom I assume was guided by his own standards.

I can say on behalf of the Committee that a full schedule of meeting is established with British M.P.s, Clerks, Committees, House Leaders and Administrators. We plan to attend the Question Period and meet with Members of the United Kingdom former Rules Committee which was responsible for recommending the new committee system now in effect at Westminster. The terms of reference for the Committee clearly state in part... 'to hold meetings at and away from the seat of government in order that the provisions in other Legislatures can be studied...'

I must say, while I regret the comments of the Member for Prince Albert-Duck Lake insofar as they may indirectly allude to the activities planned by the Rules Committee, I do not believe the said comments will seriously impair the ability of the Committee to accomplish their objective which is to work toward a final report on the basis of research, observation and discussion whether done in Saskatchewan or elsewhere.

Therefore, I find no *prima facie* case of privilege.

The Orders of the Day having been called, Mr. Berntson, from his place in the Assembly, asked leave under Rule 17 to move a motion asking for 'Priority of Debate' for the purpose of discussing a definite matter of urgent public importance and stated the subject to be:

The economic plight of the citizens of Saskatchewan as illustrated by the following points is becoming a staggering burden.

1. The citizens of Saskatchewan are faced with ever increasing inflation which in light of the Conference Board in Canada's economic forecast on December 11, 1980, will cause an unbearable burden on many of our citizens who are on a fixed income. Such are senior citizens.

2. The farm community is caught in an ever increasing cost price squeeze.

3. Housing starts are down and it is increasingly more difficult to own a home.

4. Bankruptcies of businesses in Saskatchewan are increasing at an alarming rate.

5. As a result there is an urgent and compelling need for this Assembly to debate the method of providing economic relief for the senior citizens, the farmers, the businessmen, and the homeowners of Saskatchewan.

STATEMENT BY MR. SPEAKER

A notice regarding this matter proposed for Priority of Debate was received in the Clerk's office at 7:40 a.m. today for which I thank the Hon. Member. I refer all Hon. Members to a ruling of the Chair on February 23, 1971, and I quote a section of that ruling as follows:

'The fundamental principle underlying Rule 17 was to provide an opportunity within a proper framework of parliamentary procedure, where none otherwise existed, for the immediate discussion of any matter deemed to be of such urgency and importance that all of the normal or special business of the Assembly should be put to one side in order to provide complete right of way to a discussion of one specific particular subject.'

'The subject matter of a debate under Rule 17 must not be of a continuing nature and must be 'so pressing that public interest will suffer if it is not given immediate attention'. I refer all Hon. Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, para. 286, p. 92.

'The fact that a grievance is continuing is not sufficient if it is not of recent occurrence.'  
*Erskine May's Parliamentary Practice*, 17th Edition, p. 365.

Although the matter raised is of great public importance, it is not of sufficient urgency that all of the normal business of the Assembly should be put to one side.

On motion of the Hon. Mr. Romanow, seconded by the Hon. Mr. Snyder, by leave of the Assembly:

Ordered, That when this Assembly do adjourn at the end of the sitting of the day on which this motion is adopted, it shall stand adjourned to a date set by Mr. Speaker upon the request of the Government, and that Mr. Speaker shall give each Member seven clear days notice, if possible, by wire and registered mail of such date.

At 12:37 o'clock p.m. the Assembly adjourned on motion of the Hon. Mr. Romanow to the call of the Chair, pursuant to Order made this day.

## **Regina, Monday, March 2, 1981**

*2:00 o'clock p.m.*

PRAYERS:

Resolution (No. 14) on the Orders of the Day was dropped.

The Minister, in each case, having acquainted the Assembly that His Honour the Lieutenant Governor, having been informed of the subject matter of the Bills, recommends them to the consideration of the Assembly, the following Bills were received, read the first time, and ordered to be read a second time at the next sitting:

Bill No. 29—An Act to amend The Automobile Accident Insurance Act

*(Hon. Mr. Robbins)*

Bill No. 30—An Act to amend The Vehicles Act (No. 2)

*(Hon. Mr. Robbins)*

Bill No. 31—An Act to amend The Saskatchewan Insurance Act

*(Hon. Mr. Robbins)*

Mr. Speaker informed the Assembly that the Clerk of the Legislative Assembly had received from the Chief Electoral Officer:—

A certificate of the following elections and returns, viz.:

Of John Otho Chapman, Esquière, as Member for the Constituency of Estevan;

Of Neal Hebert Hardy, Esquire, as Member for the Constituency of Kelsey-Tisdale;

Of David Manly Miner, Esquire, as Member for the Constituency of The Battlefords.

*(Sessional Paper No. 554)*

Mr. Speaker informed the Assembly that David Joseph Mitchell, Esquire, had been appointed Clerk Assistant (Procedural) of the Legislative Assembly.

The Orders of the Day having been called, Mr. Lane, from his place in the Assembly, asked leave under Rule 17 to move a motion asking for 'Priority of Debate' for the purpose of discussing a matter of urgent public importance and stated the subject to be as follows:

'There is legitimate cause for concern and fear that the resolution respecting constitutional change currently being debated in the House of Commons Canada will have debate limited by closure.

This resolution which affects the status, the rights and privileges of the people of Saskatchewan does not have the support of the people of Saskatchewan. It is therefore of urgent and compelling importance that the constitutional position of the Government of Saskatchewan be given priority of debate under Rule 17 so that its position may be placed before the House of Commons before the impending vote.'

#### STATEMENT BY MR. SPEAKER

A notice regarding this matter proposed for Priority of Debate was received in the Clerk's office at 11:55 a.m. for which I thank the Hon. Member.

Matters raised under Rule 17 must be of urgent and public importance. I am sure all Hon. Members will agree that the matter is important. The intent of Rule 17 was to provide the Legislative Assembly with the opportunity to debate a subject which was not of a continuing nature but one that had just arisen. I am sure all Hon. Members will again agree that the matter of constitutional change is a continuing one. Matters under Rule 17 must deal with a matter within the administrative competence of the Government and there must be no other reasonable opportunity for debate.' *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, para. 285, page 91. I further refer all Hon. Members to Rule 17(10)(d) which says 'the motion must not anticipate a matter which has been previously appointed for consideration by the Assembly, or with reference to which a notice of motion has been previously given and not withdrawn.' Two motions are already on the order paper pertaining to the constitutional question. I rule that this matter cannot be raised under Rule 17 since the matter is a continuing one and one that can be debated today and because it anticipates two notices of motions presently on the order paper.

I refer all Hon. Members to precedents of the Legislative Assembly of Saskatchewan May 16, 1980, April 14, 1977 and April 13, 1977. I also refer all Hon. Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, page 91, para. 285.

The Order of the Day having been called for the following Resolution, it was dropped.

That this Assembly express its regret that the federal government has decided to act unilaterally to patriate and amend the Constitution of Canada, and believing that constitutional change should respond to the needs and aspirations of Canadians in every part of the country, endorses the efforts being made by the Government of Saskatchewan to secure changes in the federal resolution to make it more broadly acceptable.

Leave of the Assembly having been granted, it was moved by the Hon. Mr. Blakeney, seconded by the Hon. Mr. MacMurchy:

That this Assembly opposes the current attempt by the federal government to patriate and amend the Constitution of Canada, believing that the unilateral nature of the process is incompatible with the fundamental principles of Canadian federalism, that constitutional changes must have a broad basis of support among Canadians, and that the proposals, if implemented, would upset the balance of Canada's federal system.

A debate arising, it was on motion of Mr. Berntson, adjourned.

## **Regina, Tuesday, March 3, 1981**

*2:00 o'clock p.m.*

PRAYERS:

By unanimous consent the Assembly proceeded to Government Orders—Adjourned Debates.

The Assembly resumed the adjourned debate on the proposed motion of the Hon. Mr. Blakeney:

That this Assembly opposes the current attempt by the federal government to patriate and amend the Constitution of Canada, believing that the unilateral nature of the process is incompatible with the fundamental principles of Canadian federalism, that constitutional changes must have a broad basis of support among Canadians, and that the proposals, if implemented, would upset the balance of Canada's federal system.

The debate continuing, it was moved by Mr. Andrew, seconded by Mr. McLeod, in amendment thereto:

That the motion be amended by adding thereto the words:

'and that this Assembly urge the Lieutenant-Governor-in-Council to refer the proposals for the unilateral patriation of the constitution of Canada to the Court of Appeal of the Province of Saskatchewan pursuant to the provisions of the Constitutional Questions Act R.S.S. 1978, chapter 29.'

The debate continuing on the motion and the amendment, it was moved by Mrs. Duncan, seconded by Mr. Hardy, in amendment to the amendment:

That the following words be added to the amendment:

'And that the Premier of Saskatchewan and the Leader of the P.C. Party of Saskatchewan attend upon Members of the Parliament of the United Kingdom and express Saskatchewan's objection to unilateral patriation of the Constitution of Canada.'

Mr. Speaker ruled the amendment to the amendment out of order on the grounds that it did not alter the amendment but instead enlarged upon the scope of the amendment. Mr. Speaker referred all Hon. Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, page 155, para. 438 and quoted as follows: (1) The purpose of a sub-amendment (an amendment to an amendment) is to alter the amendment; it should not enlarge upon the scope of the amendment but it should deal with matters that are not covered by the amendment; if it is intended to bring up matters foreign to the amendment, the Member should wait until the amendment is disposed of and move a new amendment. (2) A sub-amendment must attempt to explain the substance of the amendment and may not substitute an entirely new proposal.'

The debate continuing on the motion and the amendment, and the question being put on the amendment, it was negatived on the following Recorded Division:

### PRAYERS:

Before the Orders of the Day a Point of Privilege was raised by Mr. Lane regarding certain remarks allegedly made by a Member of the Assembly on Friday last. Mr. Speaker deferred his ruling.

According to Order, the following Bills were read a second time and referred to the Select Standing Committee on Private Bills:

Bill No. 01—An Act to amend An Act to incorporate Radville Christian College

Bill No. 02—An Act to amend An Act to incorporate the Congregation Agudas Israel

Bill No. 04—An Act respecting Montreal Trust Company and Montreal Trust Company of Canada

Bill No. 06—An Act to amend An Act to incorporate Notre Dame College

Bill No. 07—An Act to incorporate the Canadian Baptist Theological College

The Order of the Day being called for Resolution (No. 3), it was dropped.

The Order of the Day being called for Resolution (No. 4), it was moved by Mr. Skoberg, seconded by Mr. Matsalla:

That this Assembly commend the Government of Saskatchewan's far-sighted policy of extending ownership and control of the province's potash resource which has resulted in employment opportunities and substantial financial returns to the people of Saskatchewan and urges the provincial government to resist any federal government attempts to take away the financial returns, as recently suggested by the federal Minister of Agriculture.

A debate arising, it was on motion of Mr. Andrew, adjourned.

The Order of the Day being called for Resolution (No. 6), it was moved by Mr. Mostoway, seconded by Mr. Banda:

That this Assembly urge the federal government to allow direct provincial participation in the administration of the Western Development Fund so that decisions on the priorities for development in the West will be shared by the provinces whose resources contribute to the Fund.

A debate arising, it was moved by Mr. Rousseau, seconded by Mr. Taylor, in amendment thereto:

That all the words after the words 'Western Development Fund' be deleted and the following substituted therefor:

'and that the Province of Saskatchewan supports:

- (1) incentives to encourage exploration and development of Saskatchewan's marginal oil wells;
- (2) development of Saskatchewan's heavy oil reserves;
- (3) construction of a heavy oil upgrading facility at Lloydminster;
- (4) encouragement of energy conservation;
- (5) encouragement for use of alternate fuel sources;
- (6) limited temporary equity participation in new industrial development;
- (7) development of a rural gasification program;
- (8) construction of infrastructure such as sewer and water facilities to serve the economic and industrial growth of the province;
- (9) development of an irrigation program for agriculture;
- (10) introduction of a Family Farm Purchase program;
- (11) construction of agricultural and food processing plants;
- (12) creation of a Rural Community Development program;
- (13) development of other renewable resources such as tourism, forestry and fisheries;
- (14) reinstatement of the Farm Cost Reduction Program

as priorities for development and funding for the Western Development Fund to participate in because our resources contribute to the Fund'.

The debate continuing, it was on motion of Mr. Banda, adjourned.

The Order of the Day being called for Resolution (No. 8), it was moved by Mr. Engel, seconded by Mr. Prebble:

That this Assembly call upon the federal government immediately to implement regulations requiring adequate labelling of industrial chemicals for the protection of workers and the public.

A Point of Order was raised to the effect that the Member speaking was reading from a written speech. The Point of Order was based on paragraphs 309 and 310 of *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, pages 101 and 102. Mr. Speaker ruled that it has been a practice of this Assembly for Members to refer to extensive notes and prepared texts from time to time when dealing with complicated statistics and other technical matters. Mr. Speaker said that if Members felt that the present practice was not acceptable the matter should be raised in the Select Standing Committee on Rules and Procedures. Mr. Speaker ruled that the Point of Order was not well taken.

A debate arising, it was moved by Mr. Prebble, seconded by Mr. Shillington, in amendment thereto:

That the words 'farm and' be added after the words 'adequate labelling of' and that the following words be added to the motion:

'act immediately to establish a government-operated toxicological laboratory to conduct proper testing into the safety of chemicals, and undertake a Royal Commission into the safety and disposal of industrial and agricultural chemicals in Canada.'

A Point of Order was raised by the Member for Indian Head-Wolseley that the amendment was out of order because the seconder of a motion cannot offer an amendment to the motion. Mr. Speaker ruled that the rules and practices of the Assembly do not prohibit the seconder of a motion from offering amendments. Therefore the Point of Order was not well taken.

The debate continuing, it was moved by Mr. Taylor, seconded by Mr. Katzman, in amendment to the amendment:

That the following words be added to the amendment:

'and that this Assembly urge the Government of Saskatchewan to establish centralized collection depots for the disposal of toxic chemicals and the containers of toxic chemicals.'

Mr. Speaker ruled the subamendment out of order on the grounds that the subamendment enlarged upon the scope of the amendment by extending the amendment to cover the provincial as well as the federal jurisdiction. Mr. Speaker cited *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, cit. 438(1).

The debate continuing on the motion and the amendment, it was on motion of Mr. Katzman adjourned.

PRAYERS:

The Minister, having acquainted the Assembly that His Honour the Lieutenant Governor, having been informed of the subject matter of the Bill, recommends it to the consideration of the Assembly, the following Bill was received, read the first time and ordered to be read a second time at the next sitting:

Bill No. 40—An Act respecting the Establishment of the Wakamow Valley Authority

*(Hon. Mr. Snyder)*

The Orders of the Day having been called, Mr. Taylor, from his place in the Assembly, asked leave under Rule 17 to move a motion asking for 'Priority of Debate' for the purpose of discussing a definite matter of urgent public importance and stated the subject to be:

The Minister responsible for the Canadian Wheat Board has announced his intention to delay the announcement of initial payments to the farmers of Saskatchewan until June or July. The information is of urgent and compelling importance now so that farmers may intelligently plan before spring planting.

STATEMENT BY MR. SPEAKER

A Notice under Rule 17 was received in the Clerk's office at 11:55 a.m. today for which I thank the Hon. Member.

I find the subject matter, as raised by the Hon. Member, is out of order since it is not within the jurisdiction of the Government of Saskatchewan. I refer all Hon. Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, page 91, para. 285, which states:

'It must deal with a matter within the administrative competence of the Government and there must be no other reasonable opportunity for debate.'

I also refer Members to precedents of our Legislative Assembly — see *Journals of the Legislative Assembly of Saskatchewan*, March 6, 1974, November 29, 1974, March 10, 1975, and May 16, 1980.

The following Resolution (No. 29) was, by leave of the Assembly, moved by Mr. Berntson, seconded by Mr. Taylor:

That the urgent and compelling matter of the lack of initial payment information from Canadian Wheat Board for the prairie farmer, necessary to intelligently plan spring planting, be debated in this house forthwith.

A debate arising, it was moved by Mr. Taylor, seconded by Mr. Muirhead, in amendment thereto:

That the following words be added to the motion:

'and that this Assembly urge the Canadian Wheat Board to announce initial prices forthwith based on best information available to date.'

The debate continuing and the question being put on the amendment, it was agreed to.

The debate continuing on the motion as amended, it was moved by the Hon. Mr. Lingenfelter, seconded by the Hon. Mr. Gross, in amendment thereto:

That the following words be added to the motion as amended:

'and further that, in order to ensure that all farmers receive full advance price information on all grains and a fair and just price for their grain, this Assembly urges the Federal Government to place the marketing of all grains in Western Canada under the jurisdiction of the Canadian Wheat Board.'

The debate continuing on the motion as amended and the amendment, it was moved by Mr. Birkbeck, seconded by Mr. Pickering, in amendment to the amendment:

That the words 'subject to a vote of the producers of the commodities affected' be inserted after the words 'Federal Government' in the third line of the amendment.

The debate continuing, at 5:00 o'clock p.m. Mr. Speaker interrupted proceedings.

## STATEMENT BY MR. SPEAKER

Yesterday the Member for Qu'Appelle raised a Point of Privilege with regard to certain unparliamentary remarks allegedly made by a Member last Friday. I have checked the record of last Friday and find that no Member who had the floor uttered unparliamentary remarks as referred to by the Hon. Member for Qu'Appelle. It is true, though, that on that day and on nearly every sitting day of this Session, Members from both sides of the Assembly have been making loud and often obnoxious remarks from their seats all of which are unnecessary, uncalled for, and do not contribute to the debate in any way.

The Chair has repeatedly called the House to order and has tried to curb, if not eliminate, the disruptive remarks made by Members from their seats.

Remarks of that nature are unfortunate. Therefore I will repeat my request for all Members to cease such poor and unparliamentary behaviour. Remarks made by Members not in the debate have, in the past, not been judged to be unparliamentary and in fact are not heard by the Chair.

I will call on all Hon. Members from both sides of the House to resist the temptation to enter the debate from their seats but instead enter the debate by being recognized by the Chair

### PRAYERS:

The Orders of the Day having been called, Mr. Garner, from his place in the Assembly, asked leave under Rule 17 to move a motion asking for 'Priority of Debate' for the purpose of discussing a definite matter of urgent public importance and stated the subject to be:

'The Western Canadian farmers are suffering serious financial hardship and with the increase in cost of agricultural inputs such as energy, herbicides and fertilizers, there is an urgent and compelling need for this compensation to be made as promised by the Clark government and the Trudeau government.'

### STATEMENT BY MR. SPEAKER

A notice regarding this matter proposed for Priority of Debate was received in the Clerk's office at 11:50 a.m. today for which I thank the Hon. Member,

Matters raised under Rule 17 must be of urgent and public importance. I am sure all Hon. Members will agree that the matter is important. The intent of Rule 17 is to provide the Legislative Assembly with the opportunity to debate a subject which is not of a continuing nature but one that has just arisen. I am sure all Hon. Members will again agree that the matter of the financial position of Western Canadian farmers and the increasing cost of agricultural input is one of a continuing nature and is not one that has just arisen.

I therefore rule that this matter is not of sufficient urgency as required under Rule 17 in order to proceed at this time.

I refer all Hon. Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, para 285, page 91 and to the precedent of the Legislative Assembly of Saskatchewan of March 2, 1981

Mr. Garner asked leave to introduce the following Motion:

That this Assembly urge the Government of Canada to make immediate compensation to the farmers of Western Canada for losses suffered as a result of the grain embargo to the USSR and that this compensation be based on the price differential between the pre-embargo price and the embargo price of exported grain.

Unanimous consent having been requested, it was not granted.

According to Order, the following Bill was read a second time and referred to the Select Standing Committee on Private Bills:

Bill No. 03—An Act respecting St. Peter's Hospital, Melville, being An Act to amend and consolidate An Act to incorporate St. Peter's Hospital, Melville

The Order of the Day being called for Resolution (No. 1), it was moved by Mr. White, seconded by Mr. Chapman:

That this Assembly condemn the Federal Government's imposition of the 8 per cent Petroleum and Gas Revenue Tax which will adversely affect the revenues of provincial Crown Corporations such as Sask Oil, invade the province's constitutional and tax room and render unprofitable much of Saskatchewan's oil production activity; and urge the Federal government to remove the tax on Crown Corporations and make provincial royalties deductible.

A debate arising, it was moved by Mr. Andrew, seconded by Mr. Garner, in amendment thereto:

That all the words after the words 'Federal Government' in the sixth line be deleted and the following substituted therefor:

'to recognize the serious shortcomings of the entire National Energy Program; in particular that it:

- (1) fails to recognize the serious need to address the question of energy self-sufficiency;
- (2) will seriously lead to industrial and economic slowdown throughout Canada;
- (3) will cause serious regional tensions in the country that will take years to overcome.

and further urge the Federal Government to modify the National Energy Program in order to put the Country onto a sound economic strategy for the future.'

The debate continuing, it was on motion of Mr. Banda, adjourned.

TUESDAY, MARCH 24, 1981

The Order of the Day being called for Resolution (No. 10), it was moved by Mr. Lusney, seconded by Mr. Kowalchuk:

That this Assembly commend the Saskatchewan government for its progressive farm ownership protection legislation, which is years ahead of any similar legislation in Alberta or Manitoba, and has helped preserve Saskatchewan farm land for Saskatchewan farmers.

A debate arising, it was on motion of Mr. Thatcher, adjourned.

The Order of the Day being called for Resolution (No. 11), it was moved by Mr. Nelson, seconded by Mr. Johnson:

That this Assembly commend the Government of Saskatchewan for its initiative and foresight in enabling Saskatchewan to assume a position of world leadership in the development of fibre optics technology, thereby resulting in the creation of jobs for Saskatchewan residents in an innovative, high technology and environmentally clean manufacturing industry, and in the opportunity for both rural and urban residents of the Province to enjoy the full benefits of modern communications systems and services.

A debate arising, it was on motion of Mr. Garner, adjourned.

The Order of the Day being called for Resolution (No. 12), it was dropped.

The Order of the Day being called for Resolution (No. 16), it was moved by Mr. Allen; seconded by Mr. Miner:

That this Assembly deplore the federal government's decision to levy a natural gas tax which imposes higher prices for natural gas upon customers of the Saskatchewan Power Corporation and which intrudes upon traditional sources of revenue for the provinces.

A debate arising and the question being put, it was agreed to.

The Assembly, according to Order, resolved itself into the Committee of Finance.

Progress was reported and the Committee given leave to sit again.

### PRAYERS:

Before Orders of the Day, the Member for Qu'Appelle rose on a Point of Privilege to the effect that a Minister of the Crown had given an inaccurate response to a question during a meeting of the Select Standing Committee on Crown Corporations.

Mr. Speaker noted that the Member had not given proper notice of the Point of Privilege as required under Rule 6(1). Mr. Speaker waived the notice requirement and referred all Hon. Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, para. 19, page 12, which states:

- '(1) A dispute arising between two Members, as to allegations of facts, does not fulfill the conditions of parliamentary privilege.
- (2) The failure of a Minister of the Crown to answer a question may not be raised as a question of privilege.
- (3) Statements made outside the House by a Member may not be used as the base for a question of privilege.'

Mr. Speaker further quoted from *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, para. 76, page 24, as follows:

'Breaches of privilege in committee may be dealt with only by the House itself on report from the Committee. Thus, should a witness refuse to attend, or refuse to give evidence, the Committee must report the fact to the House for remedial action.'

Mr. Speaker ruled that since the alleged matter occurred outside of the House and appeared to be a complaint concerning answers given to questions, the point was not a *prima facie* case of privilege.

Mr. Berntson asked leave to introduce the following Motion:

That this Assembly register its abhorrence and total dissatisfaction with the federal government as it relates to the recruiting practices of various departments of the federal government which excludes residents of our province, among others, from seeking those positions — an act which clearly relegates citizens of all provinces except Ontario and Quebec to a status of second class citizens.

Unanimous consent having been requested, it was not granted.

Moved by the Hon. Mr. Smishek: That Bill No. 42—An Act to amend The Local Improvements Act—be now read a second time.

A debate arising, it was on motion of Mr. Muirhead, adjourned.

Moved by the Hon. Mr. Gross: That Bill No. 43—An Act to amend The Department of Tourism and Renewable Resources Act—be now read a second time.

Moved by the Hon. Mr. Rolfes: That Bill No. 45—An Act to amend The Registered Nurses Act, 1978—be now read a second time.

The Assembly resumed the adjourned debate on the proposed motion of the Hon. Mr. Snyder: That Bill No. 40—An Act respecting the Establishment of the Wakamow Valley Authority—be now read a second time.

The debate continuing and the question being put, it was agreed to and the said Bill was, accordingly, read a second time and, by leave of the Assembly, and under Rule 48, referred to a Committee of the Whole later this day.

The Assembly, according to Order, resolved itself into a Committee of the Whole.

The following Bill was reported without amendment, read the third time and passed:

'Mr. Thatcher, I name you.'

Mr. Thatcher then withdrew from the Chamber.

### STATEMENT BY MR. SPEAKER

Yesterday the Hon. Member for Thunder Creek raised a Point of Privilege to the effect that a reply to an Oral Question was inaccurate. I deferred my ruling at that time.

I refer all Hon. Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, page 12, paragraph 19(1) which states:

(1) A dispute arising between two Members, as to allegations of facts, does not fulfill the conditions of parliamentary privilege.

and further, from page 114, paragraph 322:

It has been formally ruled by Speakers that a statement by a Member respecting himself and particularly within his own knowledge must be accepted, but it is not unparliamentary temperately to criticize statements made by a Member as being contrary to the facts; but no imputation of intentional falsehood is permissible.

In short a debate in the Assembly over the question of whether something is a fact or not cannot be ascertained by Mr. Speaker and does not constitute a question of privilege.

I rule that the point raised is not a *prima facie* Point of Privilege.

2:57 o'clock p.m.

His Honour the Lieutenant Governor, having entered the Chamber, took his seat upon the Throne.

Mr. Speaker addressed His Honour:—

MAY IT PLEASE YOUR HONOUR:

This Legislative Assembly at its present Session has passed several Bills which, in the name of the Assembly, I present to Your Honour, and to which Bills I respectfully request Your Honour's Assent.

- 37 An Act to amend The Non-profit Corporations Act

- 38 An Act to amend The Credit Union Act
- 46 An Act to amend The Highways Act
- 49 An Act respecting the Consequential Amendments resulting from the change in the name of the Department of Consumer Affairs to the Department of Consumer and Commercial Affairs

The Royal Assent to these Bills was announced by the Clerk.

'In Her Majesty's name, His Honour the Lieutenant Governor doth assent to these Bills.'

Mr. Speaker addressed His Honour:

MAY IT PLEASE YOUR HONOUR:

This Legislative Assembly has voted the supplies required to enable the Government to defray the expenses of the Public Service. In the name of the Assembly I present to Your Honour the following Bill:—

'An Act for granting to Her Majesty certain sums of Money for the Public Service for the Fiscal Year ending March 31, 1982,' to which Bill I respectfully request Your Honour's Assent.

### STATEMENT BY MR. SPEAKER

Yesterday the Hon. Member for Souris-Cannington raised a Point of Privilege to the effect that a reply to an Oral Question was misleading. I deferred my ruling at that time.

I want to take this opportunity to stress to all Hon. Members that the protection of the privileges of the Members and of the Assembly itself is paramount. It therefore follows that to raise a Point of Privilege is of great importance and should not be taken lightly. On several occasions lately, I have been asked to rule on whether an answer to an Oral Question was sufficient. The point is actually a dispute over fact which should lead to debate. It is the role of Members to debate issues but it is not the role of the Chair to ascertain whether an oral question or answer is based on fact — this is for the House to consider. Actual Points of Privilege arise very rarely and pertain to instances where the rights and privileges of Members have possibly been infringed upon.

If a Member feels that the answer to a question is vague or not the answer he would like, the opportunity is there for the Member to ask a supplementary question or new questions on subsequent days. I would ask Hon. Members to not involve the Chair in a dispute of fact.

I have reviewed the point raised by the Hon. Member for Souris-Cannington and find that no *prima facie* case of privilege exists.

I refer all Hon. Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, page 12, paragraph 19(1) and page 114, paragraph 322.

Moved by the Hon. Mr. Kaeding: That Bill No. 50—An Act to amend The Rural Municipality Act—be now read a second time.

During consideration of the Main Estimates for the Department of the Environment, it was moved by Mr. Rousseau:

That this Committee does not have confidence in the Minister of the Environment for failing to take action and provide necessary assistance on noise pollution and water quality control in Saskatchewan and therefore this Committee urges this Assembly to reduce the Minister's salary to \$1.00 per year as a symbolic gesture of this Committee's lack of confidence in his ability to direct his Department.

The Chairman ruled the motion out of order and referred all Hon. Members to the Second Report of the Select Special Committee on Rules and Procedures dated December 10, 1980. The Chairman stated that substantive motions cannot be moved in Committee of the Whole or Committee of Finance and cited *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, page 170, paragraph 491.

During consideration of the Main Estimates for the Department of Tourism and Renewable Resources the Minister was asked to table documents from which he was quoting. The Chairman made the following statement:

## STATEMENT BY MR. CHAIRMAN

There are two questions that must be determined regarding this matter. The first is whether or not a Minister should quote directly from departmental documents during debate in Committee of Finance. The second question is whether he can be compelled to table such a document that has been quoted.

I refer all Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, cit. 327 as follows:

'A Minister of the Crown is not at liberty to read or quote from a despatch or other state paper not before the House, unless he is prepared to lay it upon the Table.

I further refer Members to precedents of this House dated December 4, 1973 and February 4, 1935, *Journals of the Legislative Assembly of Saskatchewan*, which ruled that a Minister who quoted from a public document or state paper during debate could be required to lay such paper on the Table, but this did not apply to confidential documents or documents of a private nature passing between offices of a Department. These rulings were based on references in *Beauchesne's Parliamentary Rules and Forms*, Fourth Edition, cit. 183 and *Erskine May's Parliamentary Practice*, Seventeenth Edition, page 421. I therefore rule that in this case the document in question is an interdepartmental report and the Minister cannot be required to table it.

I would like to caution Ministers, however, that while such documents may be referred to in debate, direct quotes should not be read from them, and this practice should be avoided in the future.

#### STATEMENT BY MR. SPEAKER

Yesterday the Hon. Member for Qu'Appelle raised a Point of Privilege to the effect that a reply to an Oral Question was misleading. I deferred my ruling at that time.

I want to take this opportunity to stress to all Hon. Members as I have done on numerous occasions, that the protection of the Privileges of the Members and of the Assembly is paramount. To raise a Point of Privilege is a very serious matter and should not be taken lightly. Actual Points of Privilege arise very rarely and pertain to instances where the rights and privileges of Members have possibly been infringed upon.

This, of course, is not the first time I have been asked to rule on whether an answer to an Oral Question was sufficient. As I have ruled before, the point is a dispute over fact which should lead to debate. It is the role of Members to debate issues and is not the role of the Chair to decide whether an Oral Question is based on fact, or if the answer to a question is misleading — these are matters for the House to consider. If a Member feels that the answer to a question is vague or not sufficient, the opportunity exists for the Member to ask supplementary questions or new questions on subsequent days. Hon. Members should not involve the Chair in disputes over facts.

I advise all Members that continued and repetitious raising of Points of Privilege where none exist demonstrates a clear lack of understanding of the rules of parliamentary procedure or, on the other hand, an abuse of the spirit of proper parliamentary procedure.

I therefore request that the greatest care and deliberation be exercised before raising a Point of Privilege.

I have reviewed the Point raised by the Hon. Member for Qu'Appelle and find that no *prima facie* case of privilege exists.

I refer all Hon. Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, page 12, para. 19(1) and page 114, para. 322, and to the ruling of this Chair April 2, 1981.

On motion of Mr. Andrew, seconded by Mr. Garner, by leave of the Assembly:

### PRAYERS:

The following Bills were received, read the first time and, by leave of the Assembly, referred to the Select Standing Committee on Non-controversial Bills:

Bill No. 114—An Act respecting the Consequential Amendments resulting from the Amalgamation of Her Majesty's Court of Queen's Bench for Saskatchewan and the District Court for Saskatchewan

*(Hon. Mr. Romanow)*

Bill No. 115—An Act respecting the Consequential Amendments resulting from the enactment of The Medical Profession Act, 1981

*(Hon. Mr. Romanow)*

### STATEMENT BY MR. SPEAKER

Last Tuesday a Point of Order was raised that Bill 52—An Act to guarantee Certain Rights to Children whose Interests are affected in Domestic Disputes, was out of order on the grounds that it was a money Bill.

The question to be determined here is whether there are provisions for expenditures in the Bill and if so, whether these expenditures are already covered by general powers conferred by an existing statute. I refer all Hon. Members to *The Infants Act*, chapter I-9, R.S.S. 1978, section 30(3) and 31(1) which state:

30(3)The official guardian and the deputy official guardian shall receive such remuneration as may be approved by the Lieutenant Governor in Council, R.S.S. 1965, c. 342, s.30.

31(1)The official guardian, besides acting as a guardian *ad litem* of infants under rules of court and other orders, shall perform such other duties as the court or a judge may from time to time direct, or as may be fixed by order of the Lieutenant Governor in Council.

From these sections it is obvious that the official guardian does exist, can be paid a remuneration and shall perform such duties as the court or a judge may direct. Section 6 of Bill 52 defines the duties of the official guardian in the instance of a child in a domestic dispute including the power to appoint counsel. This is not a new power or a new expense since this was already provided for under section 31 of *The Infants Act*.

I refer all Hon. Members to *Erskine May's Parliamentary Practice*, 19th edition, p. 752, which states:

'The comparison of provisions in a Bill with the law on the subject, as it exists, may show that, while such provisions undoubtedly involve expenditure, the power to incur such expenditure, is covered by general powers conferred by statute.'

In other words a Bill might involve the expenditure of money but as long as it is not a new charge on the public purse and as long as there was original power in the parent Act for such expenditure, the Bill is not a money Bill.

I further refer you to *Erskine May's Parliamentary Practice*, 19th edition, p. 764, subparagraph (7) which states:

(7)Administration of justice. Provisions which have the effect of increasing the jurisdiction of the courts are not regarded as creating a charge.

I therefore rule that Bill 52 does not impose a new charge on the public purse and therefore is not a money Bill.

The Order of the Day being called for Resolution (No. 32), it was moved by Mr. Nelson, seconded by Mr. Skoberg:

That this Assembly highly commends the coaches, organizers and promoters of minor sports in Saskatchewan and Canada for their work on behalf of Canadian youth, and in order to assist them in their efforts on behalf of our youth this Assembly urges the Federal Government to allot forthwith upon request an income tax number to the registered provincial association of each minor sport.

A debate arising, it was moved by Mr. Skoberg, seconded by Mr. Allen, in amendment thereto:

That the following words be added to the motion:

'and that each provincial minor sports organization be allowed to distribute to their affiliated sports organizations money that is collected through the use of that tax number and that this resolution be communicated to the federal minister responsible for Fitness and Amateur Sports.'

The debate continuing, it was on motion of Mr. Lane, adjourned.

The Assembly resumed the adjourned debate on the proposed Resolution (No. 21) moved by Mr. Rousseau:

That this Assembly recommends the establishment of a public utilities review commission with adequate powers to regulate Saskatchewan utility corporations in such a manner as to prevent them from overcharging for basic requirements and to provide the best possible service at the most reasonable cost to the consumer.

The debate continuing, it was on motion of Mr. Solomon, adjourned.

Moved by Mr. Garner: That Bill No. 16—An Act to amend The Vehicles Act—be now read a second time.

A debate arising, it was on motion of Mr. Johnson, adjourned.

Moved by Mr. Taylor: That Bill No. 88—An Act to amend The Saskatchewan Human Rights Code (No. 2)—be now read a second time.

A debate arising, it was on motion of the Hon. Mr. Romanow, adjourned.

Moved by Mrs. Duncan: That Bill No. 96—An Act to establish an Environmental Magna Carta for Saskatchewan—be now read a second time.

The Hon. Mr. Smishek, a member of the Executive Council, having acquainted the Assembly that His Honour the Lieutenant Governor, having been informed of the subject matter of the Bill, recommends it to the consideration of the Assembly, moved:

That Bill No. 108—An Act to amend The Urban Municipality Act—be now read a second time

### PRAYERS

Mr. Speaker laid before the Assembly, pursuant to Section 222(2) of The Election Act, a report respecting the annual fiscal statements of the four registered parties in the Province of Saskatchewan

*(Sessional Paper No. 666)*

Mr. Swan, from the Select Standing Committee on Public Accounts and Printing, presented the First Report of the said Committee which is as follows:

1. Your Committee met for organization on December 9, 1981 and appointed Mr. Andrew as its Chairman and Mr. Skoberg as its Vice-Chairman; on April 7, 1981 Mr. Nelson was appointed Vice-Chairman; and on April 28, 1981 the Committee appointed Mr. Swan as Chairman.
2. Your Committee held 20 meetings and examined the Provincial Auditor's Report and the Public Accounts for the year ended March 31, 1980 with the Provincial Auditor (Mr. Lutz), two of his officers (Mr. Wendel and Mr. Hunt), the Comptroller (Mr. Kraus) and two of his officers (Mr. Reinhardt and Mr. Allen) and other officials of the Department of Finance in attendance.
3. During the course of its deliberations Your Committee met with officials of the following Departments:

Department of the Attorney General  
Department of Finance  
Department of Health  
Department of Industry and Commerce  
Department of Mineral Resources  
Department of Northern Saskatchewan  
Protocol Office

Department of Revenue, Supply and Services  
Department of Social Services

4. Your Committee has considered the matter of sessional printing and recommends as follows:
  - (a) That 375 copies of the Journals be printed, including therewith the 'Questions and Answers' as an appendix;
  - (b) That 800 copies of the Debates and Proceedings be printed daily, one copy each to be supplied to Members of the Assembly;
  - (c) That 120 copies of the Minutes and Verbatim Report of proceedings of the Public Accounts Committee be printed, one copy each to be supplied to Members of the Assembly; and
  - (d) That 175 copies of the Minutes and Verbatim Report of proceedings of the Crown Corporations Committee be printed, one copy each to be supplied to Members of the Assembly.
5. That the Committee authorizes under Section 54 of the Legislative Assembly Act the Chairman, Vice Chairman or their designates from the 1980-81 Public Accounts Committee and a representative from the Clerk's Office to attend the Ninth Annual Conference of Legislative Auditors to be held in New Brunswick July 6-8, 1981.
6. Pursuant to the Comptroller's Supplementary report, this Committee recommends that the dollar limits below which individual expenditures are not reported in Public Accounts be changed as follows:
  - (a) wages and salaries be listed when in excess of \$20,000 rather than \$10,000, and
  - (b) payments to suppliers be listed when in excess of \$10,000 rather than \$5,000.
7. Your Committee notes the concern expressed by the Provincial Auditor as it relates to the Home Care Program and the collection of user fees from funded Agencies.

Your Committee reviewed the process used by the Department as it relates to the voluntary or involuntary method of collection of the user fees from the agencies. Letters on file with the Department left the Committee in a position of being unable to establish that the funds were collected on a voluntary basis.

Your Committee would encourage the Department to pay out the user fees to the Home Care Boards when they are in place and discontinue the Trust Account when this process is completed.

Your Committee strongly recommends that the clear intent of the department be transmitted to all responsible employees before programs proceed.

8. Your Committee notes the concern of the Provincial Auditor related to the funding of projects under the Employment Support Program.

Your Committee accepts the explanation of the Department for the apparent difficulties in this program and would encourage the Department to improve its project records and to adhere to the methods of financing set out by statute and regulations.

9. Your Committee notes the concern expressed by the Provincial Auditor regarding inadequate support documentation for expenditure of grants made to volunteer agencies through the Department of Social Services.

Your Committee recommends that adequate records of expenditures must be maintained to allow for a thorough annual audit in all volunteer agencies.

10. Your Committee notes the concern expressed by the Provincial Auditor regarding the absence of annual accounting from a number of Saskatchewan Assistance plan trustees.

Your Committee recommends that efforts be made by the Department of Social Services to ensure that all trustees file an annual accounting.

11. Your Committee notes the concern expressed by the Provincial Auditor regarding improper payment of salaries out of special purpose funds by an agency of the Department of Social Services.

Your Committee notes that the Department of Social Services is putting in place methods to ensure that such a situation will not recur.

12. Your Committee notes the number of management letters dealing with a variety of areas of concern in the Department of Social Services.

Your Committee thanks the Department for the information provided and looks forward to a better operation within the Department in the coming year.

13. Your Committee notes that there are a number of problems remaining in the Department of Northern Saskatchewan. Your Committee notes that in the last report of the Public Accounts Committee the Comptroller was to fully investigate this depart-

ment with a view to developing better control and management procedures. A report from the Comptroller's Branch has not been reviewed by the Committee.

Your Committee looks forward to receipt of a report from the Comptroller's Branch on their study. This report should assist the Department in improving many of its managerial difficulties. On the whole, it would appear that DNS is maturing and that better department operations will be forthcoming.

14. The Committee notes concerns based on management letters showing the Department of Northern Saskatchewan's problems with properly interpreting the extent of their authority in statutes, regulations and order.
15. Your Committee notes the concern expressed by the Provincial Auditor regarding the lack of income tax deductions taken from recipients of grants from the Options North Program of the Department of Northern Saskatchewan.

Your Committee notes that the Provincial Auditor has by letter dated January 23, 1981 received confirmation from Revenue Canada that these allowances are taxable and therefore the Committee recommends that the Department of Northern Saskatchewan correct this situation by beginning to deduct income tax from these allowances.

16. Your Committee notes concerns expressed by the Provincial Auditor regarding conditional grants and loans provided by the Department of Industry and Commerce in which insufficient documentation exists to indicate whether the grantees are living up to the conditions of the grants.

Your Committee notes improvements made by the Department of Industry and Commerce to ensure adequate follow-up for loan and grant administration.

17. Your Committee notes the concerns raised by the Provincial Auditor regarding the administration of trust funds for patients in the care of the Department of Health.

Your Committee recognizes the improved administrative methods introduced by the Department regarding trust funds and is optimistic that the current problems can be eliminated.

18. Your Committee notes the concern expressed by the Provincial Auditor regarding the inability to have seven community legal aid service clinics audited. This has been an on-going problem and Your Committee notes that the Attorney-General's Department has now put in place a system of auditing for the eligibility of clients and will be looking forward to seeing this problem resolved.

19. Your Committee further notes the concern expressed by the Provincial Auditor, that the Native Court Worker program, under the Department of the Attorney General, did not have established procedures in place to satisfactorily ensure that the terms and conditions of the contracts were fulfilled.
20. Your Committee notes that once again the Provincial Auditor has raised the concern that the Department of the Attorney General has, through the tariff on land title fees, raised \$1,516,681 while only being required to pay out \$9,650.

Your Committee is pleased to note that the Department plans to change the tariff structure to provide for the elimination of the assurance fund fees.

21. Your Committee notes the concern expressed by the Provincial Auditor regarding virements. The Auditor has obtained a legal opinion advising him that virements may not in every case be the appropriate means for providing authority for additional grant payments since specific provisions of an act may overrule the general provisions of the Appropriations Act. The Department of Finance has received a legal opinion which disputes the aforementioned opinion.

Your Committee recommends that the Department of Finance, with the assistance of the Attorney General's Department, review the virement procedure to clarify the misunderstandings.

22. Your Committee was instructed by the Legislature during the 1979-80 Session to give consideration to the desirability of separate legislation governing the Office of the Provincial Auditor.

The Committee noted in its discussions the possibility of considering separate legislation to apply to the Provincial Auditor, and recommends that the Minister of Finance give this further study.

23. Your Committee was instructed by the Legislature, during the 1979-80 Session to review during the 1980-81 Session in detail, the concept of comprehensive auditing and present a report to the Legislature this Session.

Your Committee restricted the review to the Department of Finance and the Provincial Auditor but because of a difference of opinion related to the calling of witnesses, Your Committee reached no conclusions regarding comprehensive auditing and recommends further intensive study.

24. Your Committee advised that copies of the Minutes and Verbatim Report of Proceedings of the Public Accounts Committee will be Tabled as a Sessional Paper.
25. Your Committee extends its appreciation to the Deputy Clerk of the Legislative Assembly and her staff, the Provincial Auditor and his staff, and the Comptroller and his staff for their support services.

Moved by Mr. Swan, seconded by Mr. Nelson:

That the First Report of the Select Standing Committee on Public Accounts and Printing be now concurred in.

A debate arising and the question being put, it was agreed to.

Mr. White, from the Select Standing Committee on Crown Corporations, presented the Report of the said Committee which is as follows:

Having duly examined the Annual Reports and Financial Statements for the last completed fiscal year of the various Crown Corporations and related Agencies, as referred to it by the Assembly, Your Committee has satisfied itself that they reflect the state of the Corporations and Agencies to which they severally relate. The following Corporations were called before the Committee:

1. Agricultural Development Corporation of Saskatchewan
2. Crown Investment Corporation
3. Municipal Financing Corporation of Saskatchewan
4. Potash Corporation of Saskatchewan
5. Saskatchewan Computer Utility Corporation

17. Saskatchewan Mining Development Corporation
18. Saskatchewan Oil and Gas Corporation
19. Saskatchewan Power Corporation
20. Saskatchewan Telecommunications
21. Saskatchewan Transportation Company
22. Saskatchewan Water Supply Board

In conducting its examinations, Your Committee questioned the responsible Ministers who attended with the Chief Officers of the respective Corporations and Agencies, no restrictions being placed upon questions asked within the Order of Reference, save and except questions, the answers to which, in the opinion of the responsible Ministers, might disclose information not in the public interest or prejudicial to the commercial position of the Corporation or Agency concerned.

During its 27 meetings Your Committee worked diligently in dealing with many important matters relating to the Crown Corporations of the Province of Saskatchewan.
