## LEGISLATIVE ASSEMBLY

Province of Saskatchewan

Third Session

Twenty-Second Legislature

---

**Thursday, February 25, 1993**  
(1st Day)

3:00 p.m.

Mr. Speaker informed the Assembly that he had received a communication from the Private Secretary of Her Honour the Lieutenant Governor stating that Her Honour would open the Session at 3:00 p.m. today, Thursday, the Twenty-fifth day of February, 1993.

3:03 p.m.

Her Honour the Lieutenant Governor entered the Chamber and having taken her seat upon the Throne, was pleased to open the Session with the following speech:

Mr. Speaker

Members of the Legislative Assembly

It is my privilege to welcome you to the Third Session of the Twenty-Second Legislature of Saskatchewan.

Today, as I speak, I invite you to pay honour to Madame Jeanne Sauvé, who died on January 26th. A native of Prud'homme, Madame Sauvé won our pride and respect as we watched her distinguished career and her courageous battle against illness. Her achievements will inspire the generations of women who follow.

When my government assumed office it urged the people of Saskatchewan to join in a journey of renewal - a journey to right the wrongs of the past and rebuild our economy and society together.

And when this Assembly convened in 1992, my government set forth its broad objectives for that journey:

- to restore common sense and competence to the management of the public treasury;
- to restore public faith in the ability of politicians to serve the public interest;
- to give new hope to the less fortunate; and
- to bring people together.

Judge us, my government said, on our success in achieving these objectives. This government renews that invitation today.

FEBRUARY 25, 1993

The journey is not an easy one. But all the elements required to build a better future are here. To make sure that future is the one which Saskatchewan people want, my government has enlisted their partnership to renew the economy, to re-invest in people, to restore our sense of community. My government has asked the people to join in reinventing Saskatchewan's future.

### **SOUND FINANCIAL MANAGEMENT**

Step one in that process is to begin living within our means - an issue confronting not only governments in Canada, but even in the United States. We have taken the first step. This year, Saskatchewan was the only province to reduce annual operating expenditures. Both the annual deficit and borrowing requirements were also sharply reduced.

Were there no interest to pay on our accumulated debt - the legacy of past deficits - the current year's accounts would yield a surplus.

And when the government offered its first issue of Saskatchewan Savings Bonds, the people's response was overwhelming. Thirty-seven thousand Saskatchewan people purchased over \$550 million in bonds to help rebuild our finances. However modestly, Saskatchewan has begun to turn a most important corner. My government took the hard path toward deficit reduction - not because it believes in reducing government's role in society - but precisely because it is the only way to restore our capacity to meet people's needs.

It is no longer appropriate to measure success in meeting those needs solely by the level of government expenditures. Compassion is not lessened by improving efficiency. Equity and fairness are not constricted by rediscovering the important role the community can play in delivering services effectively.

Despite the financial restraints, my government has launched important new initiatives in health, in job creation and in education. As we reduce the deficit, Saskatchewan will thus be positioned in the forefront of development.

This way lies the direction for our journey of renewal. We must restore financial stability in Saskatchewan - not as an end in itself - but to gain our freedom to choose a better future for ourselves and our children.

### **ECONOMIC RENEWAL AND JOB CREATION**

There is no more important dimension to that future than the creation of jobs, and no more important location for those jobs than Saskatchewan's smaller communities.

Of the hundreds of new, expanding and potential business projects in the province, more than half are outside Regina and Saskatoon. Those outside our two largest cities have the potential to create or maintain almost 8,000 jobs.

Community Bond Corporations continue to help local people spark needed development. Thirty have been incorporated since my government took office.

Hopeful things are happening in places like Esterhazy, Moose Jaw, Swift Current, Kerrobert, Aylsham and Cut Knife.

The government has also concluded an agreement with Atomic Energy of Canada Limited to locate a share of its nuclear research facilities in Saskatoon. This will create high quality jobs in research and development.

Several new uranium developments are currently proposed in Northern Saskatchewan. All are being carefully reviewed with respect to environmental protection, occupational health and safety and Northern socio-economic concerns.

FEBRUARY 25, 1993

Sears Canada, with modest assistance from the government, is establishing a telemarketing centre in Regina. The centre is a major investment in communications technology and will create up to 900 jobs.

To build on this developing momentum, my government in November launched Partnership to Renewal - A Strategy for the Saskatchewan Economy. The strategy, designed in partnership with a broad spectrum of Saskatchewan people, sets out to create a positive environment for economic renewal, to build on existing economic strengths and to seek full employment.

To guide the strategy and evaluate progress toward these goals, the government has named a broadly based Provincial Action Committee on the Economy.

In 1992, this government began the task of making its economic development programs more accessible. It undertook to establish a single window for the delivery of services. In time, this will mean a common location and name for all development services in each region. As a start, a new toll-free 800 number will put those seeking help in touch with the right person.

In addition, my government will empower communities to deal directly with their development opportunities by introducing Regional Economic Development Authorities.

To provide a sound statutory basis to coordinate the initiatives of the new economic strategy, my government will introduce *The Economic Development Act*. Currently the Department of Economic Development is responsible for legislation under 11 different Acts. By ending this fragmentation, the new Act will strengthen coordination and improve accountability.

Tourism is a key part of Saskatchewan's economic future. A joint industry-government Tourism Task Force will explore options for future partnerships in developing and marketing tourism opportunities.

Under existing resources, the government has established a new Cooperatives Directorate within the Department of Economic Development in recognition of the vital role that cooperatives play in Saskatchewan.

Saskatchewan is more dependent on international trade than any other province. Working in partnership with our exporters, the government will work toward establishing a new Saskatchewan trade and market development organization.

Benefits have already accrued to Saskatchewan's economy from a December European trade mission which produced over 100 jobs and many profitable future opportunities for Saskatchewan firms.

My government continues to develop a comprehensive energy strategy for Saskatchewan. It will cover all forms of energy production, the role of renewable and alternative energy sources and energy use. The strategy will identify economic opportunities in the production, processing and transportation of energy resources and ways to reduce our energy consumption.

#### **AGRICULTURE AND FARM INCOME**

Mr. Speaker, in the crisis which faces our farmers, Saskatchewan should not stand alone. This crisis demands a national solution.

My government will do all within its power and capacity to rebuild the province's farm economy. But it will continue to insist that the federal government stand by its promises and fulfil its responsibilities.

The shortfall in farm income over the past several years has been devastating to Saskatchewan farmers and to rural and urban communities. Provincial net farm income in 1993 is projected to sink to \$241 million, the lowest level since 1970. My government stands firmly with the farmers in their demand that the federal government fulfil its promise to deliver a third line of defense.

FEBRUARY 25, 1993

The plight of farmers is made more critical by the serious flaws in the second-line support programs. Current farm income programs not only fail to meet the real needs of farmers, they cannot be modified to do so. This government has therefore appointed a new Farm Support Review Committee to guide it in developing new safety nets. The committee began its work in January and will be asking for public input over the next few months.

Saskatchewan's farm income is under further attack by the federal government's recent proposals to change the current method of paying grain transportation assistance and to speed up rail line abandonment. Changes must indeed be made to develop a transportation system which is effective, efficient and affordable. But my government firmly believes that this can be done while maintaining the current method of paying the Crow Benefit.

How to achieve a commercially viable, self-sufficient and sustainable agricultural industry is at the centre of my government's concerns. In the consultation paper - Forging Partnerships in Agriculture - my government seeks to engage farmers and their organizations in a positive dialogue leading to the adoption of a new agricultural strategy.

One crucial question to be examined is a strategic approach to modern global marketing. Historically, institutions like the Canadian Wheat Board have provided muscle to individual producers confronted by large international buyers. But, if the federal government removes barley sales to the United States from the purview of the Board that strength will be eroded and Saskatchewan farmers will suffer.

My government strongly believes that we must build on the success of the Canadian Wheat Board, not undermine its mandate.

To assist farm families in financial difficulties, the government in 1992 enacted the Farm Land Leaseback Program. Many banks and credit unions have been active in providing six-year leasebacks, and my ministers continue to encourage the federal government to direct the Farm Credit Corporation to cooperate.

Alarming to my government were recent attempts to assemble large tracts of farm land near Eston. At this session we will amend *The Saskatchewan Farm Security Act* to broaden the investigative powers of the Farm Ownership Board and to strengthen enforcement provisions.

## **NEW NATIONAL GOALS**

This year Canadians will vote for a new national government. My ministers believe that we must set out new national goals which are practical, realistic and centred on critical economic issues.

All governments face fiscal problems. We cannot solve them by ourselves. We must cooperate to find solutions.

But such solutions cannot slow our economic recovery. We must work together creatively and quickly to make sure we do not repeat the mistakes which so aggravated the effects of the recent recession. Saskatchewan felt the burden of that recession acutely. We want to be part of the solution to the problem. We want a national economic strategy which will unite the provinces and the federal government in a common cause.

Of central interest to all Canadians is the future of our social programs. Despite its fiscal problems, the federal government still has more flexibility to act than the provinces. Now is not the time for Ottawa to withdraw further support from health, education, training and the many other areas so important to the future of Canada.

My government is committed to working with whomever forms the next federal government to build a realistic national strategy to create jobs, keep our social programs and regain fiscal stability.

## RENEWING HEALTH CARE

Some thirty years ago, Mr. Speaker, the eyes of Canada were riveted on Saskatchewan as the Lloyd government struggled to launch North America's first public, prepaid Medicare program. Today, those eyes are again on Saskatchewan as we engage our communities in moving to what Tommy Douglas described as the "second phase" of that struggle. He said, and I quote:

"The first phase would be to remove the financial barrier between those giving the service and those receiving it. The second phase would be to reorganize and revamp the whole delivery system - and of course, that's the big item."

My government has begun to tackle this "big item", to rebuild our entire health care system.

Over the past months the Minister of Health has met with thousands of Saskatchewan people about wellness and health reform. My government is grateful for the participation of all those who shared their vision for health in Saskatchewan.

The wellness approach is a new way of looking at the province's health system to help achieve the highest possible level of health in all aspects of our lives. It encompasses physical, mental and spiritual well-being. Wellness means improving quality of life.

The reorganization of the health delivery system has already started with the creation of the Mid-West, Prince Albert, Saskatoon and Regina Health Boards. In this Session, the government will introduce legislation that will provide a foundation for:

- increasing community control over the health system;
- encouraging the adoption of a wellness approach to health which emphasizes disease prevention, positive lifestyles and community-based health programs; and
- promoting the coordination and integration of health services to provide a more responsive and efficient health system.

The Assembly will also be asked to enact a new *Public Health Act*. This legislation will modernize public safety and security measures in such basic areas as the provision of water and food and the containment of communicable diseases.

While some other provinces are wringing their hands as they watch health care costs skyrocket, while our powerful neighbour to the south struggles with a system which leaves many without adequate health care, Saskatchewan people are moving forward toward a reformed health system which emphasizes community involvement and control. In partnership with the people, my government is determined to meet the health challenge which Tommy Douglas acknowledged is greater than the introduction of Medicare itself.

## EDUCATION AND THE COMMUNITY

One of the basic principles which my government seeks to apply in all the services it provides is that of dealing with the whole person. Thus, in economic development we have created the single window. In health, we have adopted the wellness concept which encompasses quality of life.

In education, as we have focused on the child, we have found that learning depends on much more than the provision of a school room and a teacher. Some children and young people - too many - come to school hungry, abused or suffering from stress.

Currently being tested are school and community partnerships in which the school becomes the centre for a broad range of services focusing on the needs of the student and the family. This approach works. Learning is enhanced. As part of this Children First: Community Action Program, nearly 20 communities are involved in deciding the most effective ways of working

FEBRUARY 25, 1993

together, using the school as a base, to meet all the needs of children that affect their ability to learn.

My government is committed to building a high quality education system that responds to the province's social and economic needs. One partnership set up to work toward that end is The Saskatchewan Education Council, made up of a broad range of community and education interests. It will recommend a vision for education and new approaches to the issues facing the province's education system.

Also, over the past year, the government commissioned reviews of the universities, the regional colleges, the Saskatchewan Institute of Applied Science and Technology, the private vocational schools and the high school program.

This government is determined to use the recommendations of these reviews and the Saskatchewan Education Council to build an integrated and comprehensive education system, one which will make possible lifelong learning and meet the expanding needs for training and retraining.

My government is committed to finding, in consultation with communities and our educational partners, affordable ways to deliver education. An advisory group is examining changes to the funding formula for school divisions that will provide equitable support in a time of change. This group will also work with school boards to develop new ways of doing business at the local level that will make best use of the resources available for student learning.

My government intends to introduce legislation to allow Saskatchewan Francophones to control and manage their own schools. This Act will meet both the province's constitutional obligations and the needs of the Francophone community.

#### **ENHANCING SOCIAL JUSTICE**

My government is determined that our journey of renewal not bypass Saskatchewan's most vulnerable people. We will, in the year ahead, continue to build on such initiatives as the reform of the income support system.

Almost one in six Saskatchewan children lives in poverty, a rate which has doubled since 1980. To help meet the needs of children in the lowest income families, the government will introduce a new, more broadly based children's benefit in the coming year.

My government will focus on the needs of children and families. We are initiating an Action Plan for Children, a plan built on the belief that children have a right to adequate food, clothing, shelter and a safe, nurturing environment. As part of the plan, we will undertake a review of the child care system and examine processes for advocacy on behalf of children.

Where family relationships are in conflict, additional supports will be provided to strengthen the family and protect children in their own homes. For families with children who have disabilities, several demonstration projects will offer enhanced respite and support services.

Through cooperative action with our communities, my government is determined to reclaim Saskatchewan's position as a leader in social reform.

One of Saskatchewan's greatest challenges in rebuilding a vital, full-employment economy is to meet the needs of the province's working men and women.

The government will strengthen legislation to assist workers and employers in working together to reduce workplace hazards and to prevent injuries through the introduction of *The Occupational Health and Safety Act*. The Act will further provide a framework for dealing with sexual and other forms of harassment.

FEBRUARY 25, 1993

*The Workers' Compensation Act* will be amended to ensure that injured workers receive fair compensation and treatment.

The government will soon circulate a discussion paper to gather views on changes to *The Labour Standards Act*. To ensure decent working conditions in the face of a changing labour market, our minimum employment standards must be brought up to date.

My government will expand the employment equity program in the public service to make sure that fair employment opportunities are available to persons of Aboriginal ancestry, women in management and non-traditional roles, persons with disabilities and members of visible minorities.

At this Session, amendments to *The Saskatchewan Human Rights Code* will be introduced to prohibit discrimination on the basis of sexual orientation, family status or receipt of public assistance.

Amendments to *The Limitations of Actions Act* and *The Fatal Accidents Act* will remove certain restrictions which have been disadvantageous to women.

A new *Correctional Services Act* will be placed before you. It will provide for stronger and more efficient community-based corrections programs and permit greater participation by communities, including Aboriginal peoples, in the design and delivery of programs to help reintegrate offenders into society.

In 1992, the government was pleased to sign the historic Treaty Land Entitlement agreement. During this Session we will introduce an omnibus Bill to change a number of provincial laws and regulations to accommodate that agreement.

In recent days a Tripartite Process Framework agreement was signed by the Métis Society of Saskatchewan and the governments of Canada and Saskatchewan. This agreement will enhance Métis administration and control over matters which affect their lives.

During the year ahead, my government will continue working with Indian and Métis people toward self-management of services in education, social development, justice and employment.

The year 1993 has been designated by the United Nations as the International Year of Indigenous Peoples. During this year my government will pursue new partnerships with our Indian and Métis communities, and we encourage others to join with us.

## **BUILDING COMMUNITIES**

Much of our quality of life depends on strong communities, strong local governments and access to quality services. Sustaining service delivery in today's circumstances is a major priority of my government.

We note that the Saskatchewan Urban Municipalities Association (SUMA) has begun a planning process among its members to seek thoughtful and orderly improvement of our local government system and methods of delivering services.

During the coming months, my government will expand discussions with SUMA, and potentially others, to pursue ways of achieving our common goal for the 1990s and beyond: strong and vibrant communities, places to work, places to grow with family and friends, places with access to the services we need.

The North, is a unique part of the Saskatchewan community. My government is committed to working with the people of the North to help ensure that its destiny is fulfilled. This means an emphasis on developing adequate housing, water and sewer systems, community infrastructure and jobs.

FEBRUARY 25, 1993

My government will work with Northerners, their businesses, their organizations and their local governments to promote northern economic and community development.

Recognizing that racial discrimination is a problem here and across Canada, the government will join in the world-wide observance of the International Day for the Elimination of Racism on March 21, 1993.

#### **IMPROVING ENVIRONMENTAL MANAGEMENT**

My government enthusiastically received the Saskatchewan Round Table's Conservation Strategy for Sustainable Development in Saskatchewan in June 1992. Our response and proposed implementation plan will soon be released in a document entitled: *An Environmental Strategy: Partnerships to a Sustainable Future*.

My government awaits the report of the Standing Committee of the Legislative Assembly on the Environment with respect to intersessional hearings held on *The Environmental Charter of Rights and Responsibilities Act*.

In the coming year, the province will hold public consultations concerning designation of a third Ecological Reserve. The proposed site is near the Rafferty Dam, and covers 392 acres. The reserve will include an area which contains the now-rare prairie plant, buffalo grass.

In this Session, the government proposes to establish a new Round Table on Sustainable Development. It will provide an effective link between government agencies and the public in forging policies which protect the environment and support a sustainable future.

#### **OPEN AND ACCOUNTABLE GOVERNMENT**

When this government took office, it acted quickly to restore open and accountable government. Most of the recommendations of the independent Financial Management Review Commission are now in place. As a result, the province's financial position is being reported on a more timely basis, the financial stability of the Crown corporations is being restored and a commitment has been made to disclose significant government transactions with minimum delay.

In this Session, a new *Crown Corporations Act* will be introduced to ensure that Crown corporations are publicly accountable and will prohibit Crown corporations from creating subsidiary corporations without full public disclosure.

The government continues its commitment to reform the process for acquiring government goods and services. Open, fair and competitive contract tendering will be the rule rather than the exception for all government departments, Crown corporations and agencies.

Another recommendation of the Financial Management Review Commission will be implemented by adopting the principles of accrual accounting beginning with the 1993-94 fiscal year.

The government will act to eliminate political influence in setting polling boundaries. *The Constituency Boundaries Act* will put in place an independent boundaries commission.

*The Members of the Legislative Assembly Conflict of Interest Act* will set new rules for all Members of the Legislature. It will also introduce the concept of a Conflicts Commissioner to advise Members and to rule on violations.

In addition, the government will introduce a Code of Ethical Conduct which will set out a high standard of behaviour for all elected representatives.

FEBRUARY 25, 1993

## A NEW FUTURE

Mr. Speaker, these are extraordinary times.

For some, the depth of Saskatchewan's problems tempts despair.

But Saskatchewan people have always been optimists. What could be more optimistic than to call your province "next year country"?

That optimism is soundly based. Saskatchewan's land and the families who farm it will always be Canada's prime agricultural resource. The people in our communities, rural and urban, have the vision and the capacity to renew this province. True, our journey of renewal will encounter more change and face more hard choices before Saskatchewan fully regains its fiscal and economic health. The demands are daunting. But Saskatchewan people have adapted to change before, and done it with a flair.

The people whose ingenuity produced a Wheat Pool and Medicare need not be daunted by change.

With change comes opportunity, and it is the opportunities which beckon us.

Together, on this journey of renewal, we will unlock opportunity and create a future where all can say "next year is here".

I leave you now to the business of this Session, with full confidence that you will favourably discharge your duties and responsibilities. May Divine Providence continue to bless our province and guide the Legislature in all its deliberations.

Her Honour the Lieutenant Governor then retired from the Chamber.

### PRAYERS

Before Orders of the Day, Mr. Neudorf raised a point of privilege stating that the privileges of the Member for Morse had been breached in the Crown Corporations Committee because of alleged improper conduct by the Chair of that Committee on February 11, 1993 who clearly entered debate. Mr. Speaker made the following statement:

The Speaker's Office received notice this morning regarding this question of privilege pursuant to Rule 6 of the *Rules and Procedures of the Legislative Assembly of Saskatchewan* for which I thank the Member.

The question of privilege is on proceedings in the Standing Committee on Crown Corporations on February 11, 1993. I refer Members to *Beauchesne's Parliamentary Rules and Forms*, Sixth Edition, which states the following:

- Cit. 107. Breaches of privilege in committee may be dealt with only by the House itself on report from the committee.
- Cit. 760(3). The Speaker has ruled on many occasions that it is not competent for the Speaker to exercise procedural control over the committees. Committees are and must remain masters of their own procedure.

The important principle here rests on the fact that proceedings in committees are guided by the committee Chair and not by the Speaker of the House. A question of privilege arising in a committee must be dealt with first in the committee. When the Committee reports the matter of privilege to the House, then the Speaker becomes involved.

There is a well established practice in this Assembly on this very subject and I refer Members to rulings of the Chair on May 28, 1991, December 13, 1982, March 25, 1981, April 11, 1980 and April 19, 1976.

I therefore inform the House and the Member that it is not competent for the Chair to consider the matter of privilege raised by the Member and suggest that the matter be raised in the proper forum.

FEBRUARY 26, 1993

On motion of the Hon. Mr. Lingenfelter, seconded by the Hon. Mr. Tchorzewski, by leave of the Assembly:

Ordered, That the Bylaws of the professional associations and amendments thereto be referred, as tabled, to the Special Committee on Regulations.

On motion of the Hon. Mr. Lingenfelter, seconded by the Hon. Ms. Teichrob, by leave of the Assembly:

Ordered, That the Report of the Provincial Auditor for the fiscal year ended March 31, 1992, be referred, as tabled this Session, to the Standing Committee on Public Accounts.

On motion of the Hon. Mr. Lingenfelter, seconded by the Hon. Ms. Simard, by leave of the Assembly:

Ordered, That the Public Accounts of the Province of Saskatchewan for the fiscal year ended March 31, 1992, be referred, as tabled this Session, to the Standing Committee on Public Accounts.

On motion of the Hon. Mr. Lingenfelter, seconded by the Hon. Mr. Koskie, by leave of the Assembly:

Ordered, That the Report of the Saskatchewan Legislative Library be referred, as tabled, to the Standing Committee on Communication.

On motion of the Hon. Mr. Lingenfelter, seconded by the Hon. Mr. Mitchell, by leave of the Assembly:

Ordered, That the annual reports and financial statements of the various Crown Corporations and related agencies be referred, as tabled, to the Standing Committee on Crown Corporations.

On motion of the Hon. Mr. Lingenfelter, seconded by the Hon. Ms. Carson, by leave of the Assembly:

Ordered, That the Retention and Disposal Schedules approved under *The Archives Act* by the Public Documents Committee be referred, as tabled, to the Standing Committee on Communication.

On motion of the Hon. Mr. Lingenfelter, seconded by the Hon. Mr. Cunningham, by leave of the Assembly:

Ordered, That leave of absence be granted to the Honourable Member for the constituency of Moose Jaw Palliser, from Monday, March 1, 1993 to Friday, March 12, 1993 inclusive, for the purpose of attending the Forty-Second Parliamentary Seminar at Westminster.

FEBRUARY 26, 1993

Leave of the Assembly, having been granted, pursuant to Rule 42, it was moved by Mr. Upshall, seconded by Mr. McPherson:

That this Assembly call upon the Government of Canada to end its policy of off-loading federal responsibilities on the backs of farm families by: (a) reversing its decision to increase grain transportation costs for Saskatchewan farmers by \$80 million; and (b) fulfilling its promise to provide at least \$500 million in a third line of defense payment.

A debate arising, it was moved by Mr. Devine, seconded by Mr. Martens, in amendment thereto:

That the motion be amended as follows:

Delete the word "Canada" and substitute the word "Saskatchewan,"; delete the phrase "off-loading federal," and substitute the phrase "refusing to accept its fair share of," ; and delete the words after the word "responsibilities" and substitute the following:

for agricultural support and live up to its commitments by: (a) retroactively correcting the Premier's admitted damage to farm families in his destructive changes to farm policy; and (b) negotiating in good faith with the Federal Government to obtain a joint solution to the crisis, starting with a willingness to accept the federal offer of \$43 million from the Canadian taxpayers in return for only a \$9 million contribution by the provincial government.

The debate continuing, Mr. Speaker interrupted proceedings and adjourned the Assembly without question put, pursuant to Rule 3(3).

The Assembly adjourned at 1:00 p.m. until Monday at 2:00 p.m.

**CLIFFORD HONEY THURSTON** who died in Regina on August 26, 1992, was a member of this Legislative Assembly for the constituency of Lumsden from 1956 to 1964. Mr. Thurston was born at Drinkwater on May 16, 1911 but at the age of seven he and his family relocated to a farm four miles north-west of Regina. He was educated at Greendyke school and at Scott Collegiate in Regina. After graduation he continued to help operate the family farm. During the winter months in the years between 1930 and 1939, Mr. Thurston also worked for the Department of Highways and for General Motors in Regina. In 1938, Mr. Thurston took over the family farm and on October 14 of that year he married Bernice Leer. In the early 1930s, Mr. Thurston began a very active career in provincial politics that spanned the whole of his working life. In 1933, he joined the CCF as a founding member and subsequently held many party executive posts until his election to the Legislative Assembly in 1956. Mr. Thurston was re-elected to represent Lumsden for a second term in 1960. He ran again in other elections but did not find the same success. During his two terms as a Member of the Legislative Assembly, Mr. Thurston served as the government members' Whip. Mr. Thurston served his community in many other ways. In 1933, he began a thirty year term as the secretary-treasurer of the Greendyke school board. As well, Mr. Thurston had long tenures on the Sherwood Credit Union board of directors during the 1950s and again in the 1970s, and on the Saskatchewan Government Insurance Board from 1947 until 1955. He was a member of the Farmstart Board from 1973 until 1983, the Rural Electrification Committee and sat on the board of Guarantee and Fidelity. As a farmer, Mr. Thurston had a great interest in agricultural issues and served his local milk producers' association and as the Wheat Pool Committee member for Codie and Armor from 1938 until 1978. Mr. Thurston was, as well, an active member of the Saskatchewan Farmers' Union. He farmed until his retirement in 1983.

In recording its own deep sense of loss and bereavement, this Assembly expresses its most sincere sympathy with members of the bereaved family.

A debate arising and the question being put, it was agreed to.

On May 25, 1940, he married Lovern Nelson of Viscount. The couple farmed near Viscount, where Mr. Broten took an active role in his community's affairs. Mr. Broten's interest in his community is illustrated by the many organizations in which he served and held executive posts. He was president of the local Wheat Pool Committee and was a director of the Rutan and Colonsay Co-operatives. Mr. Broten also headed the Viscount Farmers' Union local for a number of years. As well, Mr. Broten was chairman of the Lanigan and Viscount school boards and a board member of the local Telephone company. After many years of service on his constituency council, Mr. Broten was first elected in the general election of 1960. He was re-elected in the 1964 but ran unsuccessfully in 1967 general election. (Hon. Mr. Lautermilch)

Bill No. 7—An Act respecting Social Workers  
(Hon. Ms. Atkinson)

STATEMENT BY MR. SPEAKER

Yesterday after Question Period, a Point of Order was raised by the Member for Rosthern regarding language used by the Minister of Health in replying to an oral question. The Member did not identify the words that caused him concern and in future I ask that Members be prepared to cite the words that they find to be unparliamentary.

I have reviewed the verbatim for yesterday's Question Period and I sense that the words at issue are the ones used by the Minister when she said "I don't know what these guys have been smoking". I am concerned about the use of innuendo and personal reflections such as these which have the potential to create disorder in Question Period.

Earlier in yesterday's Question Period, I cautioned the Member for Rosthern for accusing the Minister of using "blackmail tactics" as I found those words to be inflammatory. While the comments were of a different character, I also want to caution the Minister of Health to refrain from using the language she used yesterday. To make such insinuations about other Members, whether made in jest or not, is inappropriate in this place.

The Order of the Day being called for Question (No. 77), pursuant to Rule 38(4), it was transferred to Motions for Returns (Debatable) (No.177).

The Assembly resumed the adjourned debate on the proposed motion of Ms. Stanger, seconded by Mr. Renaud:

and the proposed amendment thereto moved by Mr. Boyd,

That the following words be added to the motion:

But regret that the government continues to engage in a policy of betrayal exemplified by such things as: increased SaskTel rates; increased SaskPower rates; increased SaskEnergy rates; increased vehicle registration and insurance and motorists' licence fees; increased E & H tax; a new 10% surtax on personal income tax; increased fuel tax; user fees for chiropractic services; user fees for optometric services; tripled deductible for prescription drug plan; de-insurance of insulin; increased air ambulance fees; increased resident income charges for seniors in special care homes; de-insurance of oxygen; cancelled rural natural gas distribution program; attacks on municipal autonomy; offloading of funding and debt to local governments; increased breeder fees; increased pasture rental fees; increased farm fuel taxes; reintroduction of "purple gas"; destruction of GRIP; ignoring all plebescite results; cancellation of Senior Citizens' Heritage Program; increased unemployment; sustained outmigration; crippling of the Saskatchewan Pension Plan; failure to deliver a workable economic strategy; and a general unwillingness to accept responsibility for real public policy in the province.

The Speaker reserved his ruling.

MARCH 9, 1993

STATEMENT BY MR. SPEAKER

Yesterday, the Government House Leader raised a point of order that Bill No. 10—An Act to Protect Municipal Property Taxpayers in the Province of Saskatchewan proposed by the Member for Rosthern was out of order. It was the Minister's impression that because the bill involved the repeal of a tax, it required a royal recommendation. Not having seen the bill, I reserved my ruling.

Rule 33 of this Assembly outlines the constitutional requirement that in matters involving proposed charges upon the public revenue, or charges upon the people, the crown initiative must be expressed through a royal recommendation:

33. Any vote, resolution, address or bill introduced in the Assembly for the appropriation of any part of the public revenue, or of any tax or impost to any purpose whatsoever, or to impose any new or additional charge upon the public revenue or upon the people, or to release or compound any sum of money due to the Crown, or to grant any property of the Crown, or to authorize any loan or any charge upon the credit of the Province, shall be recommended to the Assembly by Message of the Lieutenant Governor before it is considered by the Assembly. The consideration and debate thereof may not be presently entered upon but shall be adjourned until such further day as the Assembly shall think fit to appoint.

According to well-established practice, however, provisions involving the reduction of charges or the reduction of taxation do not require a royal recommendation. I refer Members to a ruling of the Chair dated May 26, 1978 which states, in part: "while a private member may not introduce a resolution or bill to increase a charge . . . any member may move to reduce a charge, expenditure or a tax."

In addressing the rules of financial procedure, *Erskine May* specifies those matters which involve money but do not necessarily require an expression of the crown initiative. I point out that the principles outlined by *May* form the broad basis of financial practice in this Legislative Assembly. On page 805, of the Twentieth Edition of *Erskine May's Parliamentary Practice*, it is specified that a bill which seeks to abolish or reduce a charge authorized by existing law does not require a royal recommendation. Similarly, *May* indicates on page 825 that provisions for the repeal or reduction of taxation are not subject to the rules of financial procedure. This, of course, is wholly consistent with the more generally known principle that allows Members of this Assembly to move amendments in committee to reduce an estimate, or monetary provisions in a bill. I refer Members to *Beauchesne's Parliamentary Rules and Forms*, 6th Edition, page 260, and page 267, which outlines these procedures.

The purpose of the bill introduced yesterday by the Member for Rosthern is to abolish an existing tax, through the repeal of *The Hospital Revenue Act*. The repeal of a tax, as I have indicated, is not subject to the requirements of Rule 33. For this reason I find the point of order not well taken and the Bill to be in order.

The Assembly resumed the adjourned debate on the proposed motion of Ms. Stanger, seconded by Mr. Renaud:

That an Humble Address be presented to Her Honour the Lieutenant Governor as follows:

TO HER HONOUR THE HONOURABLE SYLVIA O. FEDORUK  
Lieutenant Governor of the Province of Saskatchewan

MARCH 9, 1993

MARCH 10, 1993

STATEMENT BY THE SPEAKER

Yesterday, the Member for Saskatoon Greystone raised a point of order concerning her right to be recognized in Question Period, pursuant to Rule 26 of the *Rules and Procedures of the Legislative Assembly of Saskatchewan*.

Rule 26 has been a Standing Order of this Assembly since Saskatchewan became a province in 1905. It was borrowed directly from the House of Commons in Ottawa, which like this Assembly continues to maintain it in its original form. Oral Question Period, however, has a relatively recent origin. Members of this Assembly will be aware that the guiding practices of our Question Period were shaped largely during the 1970s, during a time when there were two opposition caucuses represented in this Assembly. Out of necessity the issue of recognition in Question Period became a matter of concern. In a ruling of the Chair dated March 17, 1976, the Speaker indicated that it would be the Chair's policy in Question Period to recognize Members of the Official Opposition before recognizing Members from other opposition parties. This ruling and subsequent practice shows that application of Rule 26 has been qualified by usage during Question Period.

Given this practice, it is important to realize that even in Question Period, Rule 26 remains a guiding principle for Speakers when there is competition for the floor. These situations might involve not only the Opposition but as well Government private Members. In these situations, the Speaker has used his judgement to permit a fair rotation of questioners. Even when Rule 26 is applied to debate, *Beauchesne* clearly indicates on page 137 of the 6th Edition that the Speaker is the final authority on the order of speaking. But *Beauchesne* also points out that the Speaker has been traditionally careful to ensure that an independent Member is not over-looked in any rotation.

I want Members to know that I am very conscious of this responsibility and I do monitor the situation in Question Period in an effort to be fair. As an example, last session, the Member for Saskatoon Greystone was recognized to ask the first question on 7 out of 75 Question Periods, and received 8-1/2 per cent of the total questions asked.

It is my intention to continue the tradition of this House which accepts Rule 26 as a basic principle but also recognizes that the Rule has been qualified in practice to give the Official Opposition some preference at the beginning of Question Period while nevertheless ensuring that other Members have fair opportunity to participate.

The Order of the Day being called for Question (No. 80), pursuant to Rule 38(4), it was transferred to Motions for Returns (Debatable) (No. 179).

The Order of the Day being called for Motion for Return (Not Debatable) (No. 178), it was Ordered. The Return was brought down and Tabled as Sessional Paper No. 61. (See Returns, Reports and Papers Tabled)

STATEMENT BY MR. SPEAKER

I have examined Hansard of recent days and have observed a development that is giving me considerable concern.

In debate Members have characterized each other as "wolverines", "rats", and "dogs." I should not have to remind Members that such language is inappropriate and causes a deterioration in the level of debate.

I know that Members are quite capable of finding better ways of expressing their views.

Mr. Speaker ruled that if the document was indeed a letter, the Minister should table it. The Minister thereupon tabled the document.

PRAYERS

The Minister having acquainted the Assembly that Her Honour the Lieutenant Governor, having been informed of the subject matter of the Bill, recommends it to the consideration of the Assembly, the following Bill was received, read the first time, and ordered to be read a second time at the next sitting:

Bill No. 42—An Act respecting the Creation and Supervision of certain  
Crown Corporations

(Hon. Mr. Penner)

Before Orders of the Day, the Member for Morse raised a point of order relating to the document from which the Minister responsible for the Gaming Commission quoted on March 29, 1993 and which he subsequently tabled in response to a point of order. The Member for Morse stated that the Minister tabled an appendix but that it was only a portion of the document cited. Mr. Speaker referred to *Beauchesne's*, 6th Edition, cit. 495(4) and ruled that only the document cited need be tabled by a Minister and that a complete file need not be tabled because one document in it was cited. Since the Minister had already tabled that document from which he quoted, Mr. Speaker ruled the point of order not well taken.

The Order of the Day being called for Question (No. 92), pursuant to Rule 38(4), it was transferred to Motions for Returns (Debatable) (No. 192).

The Assembly, according to Order, resolved itself into the Committee of Finance to consider resolutions for Interim Supply.

The debate continuing, the Associate Minister of Finance raised a point of order regarding the relevancy of the questions asked. Mr. Chair made the following statement:

Since the fiscal year begins on April 1, and since the appropriation bill based on the Saskatchewan Estimates (the budget) is adopted some months after the beginning of the fiscal year, the Crown will be without funds during that interim period. It is because of this that the Crown asks for an advance against the Estimates to cover the period until the Estimates are approved. This is known as Interim Supply.

The manner by which this is accomplished is for the Government to introduce financial resolutions in Committee of Finance where they are debated and their adoption reported to the House which must adopt them prior to the introduction of the appropriation bill.

The detailed resolutions express the precise amount of monies required by the Government in twelfths of the total Estimates, usually one or two twelfths.

The Minister of Finance appears before the Committee to provide explanations and to respond to questions on the Interim Supply resolutions. The Interim Supply process allows Members to ask questions and to focus debate on the need to grant, reduce or refuse supply with respect to the Interim Supply resolutions before the Committee of Finance. Debate must therefore apply to the Estimates as a whole and should not attempt to discuss policies and details of programmes of particular departments. An opportunity for detailed discussion will be available to Members when the Committee debates the Estimates of each department with the appropriate minister.

Hence the Minister of Finance should not be expected nor should he/she attempt to answer detailed questions on a particular department as this may generate continued detailed questioning on the specific department and this is not the intent of the Interim Supply exercise.

Members will recall that the Chair has reminded the Committee of this practice on numerous occasions, notably June 1 and July 30, 1992; May 6, 1991; April 9 and May 10, 1990.

The debate continuing, it was moved by Mr. Swenson:

That the Committee move to Vote 1 of the Estimates on Agriculture and Food.

The question being put, it was negatived on the following Recorded Division:

That all the words after the word "Assembly" be deleted and the following substituted therefore:

condemns the Minister of Economic Development for his failure to carry through on any of his stated goals for the province, and in particular for failing the people of Saskatchewan by: abandoning any pretence of an economic development strategy for rural and urban Saskatchewan; refusing to pursue a nuclear industry; providing tax incentives to Sears resulting in the closure of rural facilities in trade for part-time jobs in Regina; repeatedly announcing the success of the Piper deal and repeatedly failing to deliver on his announcements; incurring a dead loss of \$47 million last year in SEDCO; expending \$50 million of taxpayers money on his own department with no discernible economic benefits; refusing to build an ethanol industry at no cost to the government; presiding over the collapse of Westank-Willock without any serious attempt at an employee takeover; failing to maintain a competitive climate for the Saskatchewan livestock industry; crippling the province's grain industry; undermining major industries through public campaigns of

innuendo, coercion and threats; secretly spending \$20 million to go into partnership with organizations alleged to have mafia connections and actively under criminal investigation around the world; promising the relocation of 700 businesses to the province without delivering a single one; promising to create 30,000 new jobs and instead losing 11,000 in one year; attacking the basic infrastructure of the province such as the effort to plough under paved highways; increasing all costs of doing business in the province from utility rates to the paper burden involved in meeting government decrees; and the repudiation of Saskatchewan business in the government's proposed costly labour legislation agenda.

Mr. Speaker ruled that the reading of oral notices of questions should now cease and cited a ruling of the Chair dated March 21, 1986 as follows:

To go on at great length reading Oral Notices into the record, when this is not necessary to effectively give notice, appears to me to be an abuse of a courtesy traditionally extended to Members. A practice that is permitted as a courtesy only should not be permitted to obstruct the regular business of the House. I therefore direct the Member for Canora to submit any notices he wishes to give by laying them on the Table as provided in Rule 38.

This in no way interferes with the Member's right to place items on the Order Paper.

It is not my intention to prohibit the reading of Oral Notices in the future but only to remind Members that Oral Notices are permitted as a courtesy and will not be permitted to be used as a means of obstructing the House.

Moved by Mr. Neudorf: "That this Assembly do now adjourn".

The Member for Rosthern raised a point of order stating that Mr. Speaker should use his discretion to suspend the Closure Rule because there has not been sufficient time for debate on Bill No. 3. The Member cited the Speaker's exercise of discretion during a period of prolonged division bell ringing. Mr. Speaker ruled that the Chair has intervened in the past in circumstances where the rules did not exist or did not apply, but in the current circumstances the Closure Rule is clear and has been properly applied and therefore the Speaker has no authority to intervene with its application.

The Government House Leader raised a point of order that the Opposition House Leader illegitimately secured the floor by a point of order in order to move adjournment of the House. Mr. Speaker ruled the Member's motion was moved after a ruling of the Chair, and not on a point of order, therefore the point of order was not well taken.

A point of order was raised by the Member for Thunder Creek stating that Bill No. 3 should be ruled out of order because it was irregular in that it attempted to allocate monies that were not available to this Assembly because they belonged to charitable organizations. Mr. Speaker reminded Members that the proper time to raise such a point of order was when the Bill was introduced and he reserved his ruling.

APRIL 15, 1993

The Member for Moosomin raised a point of order stating that Bill No. 3 was irregular in that it contained no provisions for funding. Mr. Speaker said that this point of order was similar to a point of order raised on April 14, 1993 and made the following statement which he said was applicable to both points of order:

Yesterday, on April 14, 1993, the Member for Thunder Creek raised a point of order stating that Bill No. 3 was irregular and beyond the jurisdiction of the Assembly and that it therefore should be ruled out of order.

The issue to be considered here is whether or not Bill No. 3 falls within the jurisdiction of the Legislative Assembly of Saskatchewan. This is clearly a constitutional issue.

It is the responsibility of the Chair to rule on points of order which fall within the realm of parliamentary practice and procedure. The Chair has no role in ruling on points of order which relate to matters of a constitutional or legal nature. I refer Members to *Beauchesne's Parliamentary Rules and Forms*, 6th Edition at Citations 168(5) and 324:

The Speaker will not give a decision upon a constitutional question or decide a question of law, though the same may be raised on a point of order or privilege.

Furthermore, I refer Members to a ruling by the Speaker of the House of Commons, May 2, 1989 and I quote:

The reasons for these citations are straightforward. The Speaker should not sit in judgement on constitutional or legal matters. That role belongs more properly to the courts and the administration of justice. Previous Speakers have been very careful in strictly addressing themselves to matters of a parliamentary or procedural nature while avoiding dealing with constitutional or legal matters.

I therefore suggest there are other avenues for Members to pursue these issues and find the point not well taken.

Moved by Hon. Mr. Lingenfelter, seconded by Hon. Mr. Tchorzewski: Pursuant to Rule 41, that this Assembly shall, following the adoption of this motion, sit until 1:00 a.m. Friday, April 16, 1993.

Mr. Neudorf raised a point of order stating that the motion moved by the Government House Leader was out of order because there is no avenue in the practice of this Assembly to move a substantive motion pursuant to Rule 41 before Orders of the Day, without leave of the Assembly, whereupon Mr. Speaker reserved his decision and recessed the Assembly from 8:47 p.m. until 9:53 p.m.

APRIL 15, 1993

STATEMENT BY MR. SPEAKER

The Member has moved pursuant to Rule 41, that this Assembly shall, following the adoption of this motion, sit until 1:00 a.m. Friday, April 16th, 1993.

The Opposition House Leader, on a point of order, stated that the Member had no right to get the floor to move the motion.

Superseding motions cannot be moved at this point, that is, on Orders of the Day, because no motion is on the floor. However, this is not a superseding motion but rather is the kind of motion that is moved before Orders of the Day, that is, one dealing with ordering the business of the House.

The important question here is whether the motion is permissible under Rule 41 without leave or notice.

On the surface, Rule 41 seems very clear - a motion for fixing the times of the adjournment of the House does not need notice and therefore can be moved without leave. However, a review of the *Journals* can find no evidence of Rule 41 ever been invoked to move a motion of this type. Instead as the Opposition House Leader has pointed out, extended sittings on a particular day have traditionally been accomplished by unanimous consent. This is the practice of "stopping the clock".

What would be the effect of allowing a motion pursuant to Rule 41 to extend the sitting hours on a daily basis? The effect would be extremely severe. This would in effect, allow the Government to extend the sitting hours everyday, on a daily basis, although the motion is debatable pursuant to Rule 32.

Given that the effects of allowing motions of this kind pursuant to Rule 41 are so serious to the traditional operations of the House, I find that our practices regarding extension of sitting hours by leave or notice should be maintained. Therefore the motion will not be accepted.

Moved by Mr. Neudorf: "That this Assembly do now adjourn".

The question being put the Division Bells rang and the time of daily adjournment having been reached, the superseding motion lapsed. Pursuant to Rule 3(3), Mr. Speaker interrupted proceedings and adjourned the Assembly.

The Assembly adjourned at 10:00 p.m. until Friday at 10:00 a.m.

Mr. Neudorf then withdrew from the Chamber.

Moved by the Hon. Mr. Lingenfelter, seconded by the Hon. Mr. Shillington:

Whereas it is the fundamental privilege of the House is to establish rules of procedure for itself and to enforce them (*Beauchesne's* cit. 33, p. 14);

Whereas Rule 1 of the *Rules and Procedures of the Legislative Assembly* provides that the Rules of the Assembly shall be applied in all cases provided herein;

Whereas Rule 41 of the *Rules and Procedures of the Legislative Assembly* explicitly states that the requirement for 48 hours notice shall not apply to motions dealing with the times of meeting or adjournment of the Assembly;

Whereas the practice of unanimous consent for a proceeding does not constitute a precedent (*Beauchesne's* cit. 19, p. 7);

Whereas the ruling of a Speaker cannot ignore the Rules or Standing Orders of the House except in circumstances where amendments to the Rules have resulted in unintended inconsistencies which have been initially overlooked (*Beauchesne's* cit. 15, p. 6);

APRIL 16, 1993

Whereas a motion without notice to fix the sitting days or the times of its meeting or adjournment is a debatable motion pursuant to Rule 32(k) of the *Rules and Procedures of the Legislative Assembly*, and therefore would not override any rights or privileges enjoyed by Members, but on the contrary would respect the fundamental right of Members to fully debate the question before the Assembly;

Whereas *Beauchesne's* cit. 548, p. 167 explicitly states that in the absence of Standing Orders to the contrary, a motion for fixing the sitting days and the time of meeting or adjournment may be made without notice.

Therefore, I move:

That this Assembly shall, following the adoption of this motion, sit until 10:00 p.m. on Friday, April 16.

The Member for Moosomin raised a point of order stating that the motion was out of order as Mr. Speaker had ruled a similar motion out of order on April 15, 1993. Mr. Speaker ruled the motion out of order for the following reasons:

Other than motions respecting Petitions and motions to adjourn the Assembly, a motion may not be moved under Presenting Petitions without leave of the Assembly;

A motion cannot include lengthy preambles;

The motion moved by the Member for Regina Elphinstone is similar to a motion which was ruled out of order on April 15, 1993.

The following Petition was presented and laid upon the Table:

APRIL 20, 1993

STATEMENT BY MR. SPEAKER

On April 15 the Member for Souris Cannington raised a point of order that his petition should be categorized as a personal grievance, and therefore be brought into immediate discussion under Rule 11(8). I have had opportunity to review the Member's petition, and others of a similar nature tabled in recent days. I find they pertain to a collective grievance and are not of a personal nature. For a petition to be categorized as a personal grievance, it must not be a matter which affects all citizens or a large number of people as a group or class. I refer Members to a petition laid on the table by the Member for Cumberland, June 18, 1990 as an example of a personal grievance. Therefore I find this point of order not well taken.

On April 15, 1993, the Member for Morse raised a point of order concerning the propriety of recent Ministerial Statements. I have reviewed the record and find that all but one of the Ministerial Statements of this session have been within the limits of our practice. A statement made April 5, however, which congratulated the curling champions, was out of order as the Member for Morse has suggested. It had nothing to do with government policy, its administration, nor did it announce new or existing government initiatives. However, I want to remind the Member that at the time I did rule that congratulatory messages are not properly Ministerial Statements. Therefore, I find the point of order not well taken.

On April 15, 1993, the Member for Thunder Creek raised a point of order stating that comments by the Premier in the House on April 14, 1993 were out of order as they referred to the presence of a Member in the Assembly. I have reviewed the text of Hansard of April 14, 1993 to which the Member for Thunder Creek referred and I find that the point of order is not well taken.

Moved by Mr. Devine, seconded by the Hon. Mr. Lingenfelter, by leave of the Assembly:

That this Assembly records with sorrow and regret the passing of Governor Mickelson of South Dakota, and that this resolution as passed, together with a transcript of the oral tribute to the memory of the deceased, be communicated to the Legislature of South Dakota on behalf of this Assembly by Mr. Speaker.

A debate arising, and the question being put, it was agreed to.

Before Orders of the Day the Member for Saskatoon Sutherland-University raised a point of order stating that it was out of order for the Member for Estevan to refer to Bill 38 and other government business during the introduction of guests, whereupon Mr. Speaker reserved his decision.

The Order of the Day being called for Question (Nos. 94 to 109), pursuant to Rule 38(4), they were transferred to Motions for Returns (Debatable) (Nos. 194 to 209).

APRIL 20, 1993

The Order of the Day being called for the following Motion under Rule 16, standing in the name of Mr. McPherson, it was by leave, moved by Ms. Bradley, seconded by Ms. Hamilton:

That this Assembly urge the Minister of Health continue her efforts to ensure that Saskatchewan achieves the second generation of Medicare, a second phase that will realize the goals of Health Reform, of community-based, community-controlled health care services and further that this Assembly deplore the attempts of the Official Opposition to destroy Medicare in Saskatchewan through obstructionist tactics in the Legislature and misleading messages in the countryside.

A debate arising, it was moved by Mr. Toth, seconded by Mr. Boyd, in amendment thereto:

That all the words after the word "Assembly" be deleted and the following substituted therefore:

demands that the Minister of Health heed the petitions of the people of Saskatchewan to postpone her health care changes, changes which are causing great unfairness through cabinet-based, Minister-controlled health care services and further that this Assembly deplores the complicity of the following MLAs in the destruction of Medicare in their own constituencies: the MLA for Assiniboia-Gravelbourg, the MLA for Bengough-Milestone, the MLA for Canora, the MLA for Cut Knife-Lloydminster, the MLA for Indian Head-Wolseley, the MLA for Kelvington-Wadena, the MLA for Kinistino, the MLA for Last Mountain-Touchwood, the MLA for Meadow Lake, the MLA for Melville, the MLA for Nipawin, the MLA for Pelly, the MLA for Quill Lakes, the MLA for Redberry, the MLA for Rosetown-Elrose, the MLA for Saltcoats, the MLA for Shaunavon, the MLA for Shellbrook-Torch River, the MLA for Turtleford, the MLA for Weyburn.

The debate continuing, and the period of seventy-five minutes having expired pursuant to Rule 16(4), Mr. Speaker interrupted proceedings.

Mr. Speaker laid before the Assembly, addendum to Sessional Paper No. 107 — Annual Report of the Provincial Auditor for the fiscal year ending March 31, 1992.

The Order of the Day being called for Resolution (No. 6), it was moved by Mr. D'Autremont, seconded by Mr. Boyd:

That this Assembly urges the government to improve accountability by publishing a complete list of all fees and charges made upon any member of the public by any part of government and that this published list be updated when new fees and charges are established or existing ones changed.

A debate arising, it was moved by Ms. Stanger, seconded by Mr. Flavel, in amendment thereto:

APRIL 20, 1993

That all the words after the word "Assembly" be deleted and the following substituted therefore:

recognize the timeliness and the necessity of the Government's determination to follow the recommendations of the GASS Commission, the success of which is recognized by the Provincial Auditor in his annual report, and the continuation of which will restore accountability, openness and clarity to the Province's financial picture.

Mr. Speaker ruled the amendment out of order on the grounds that it was not relevant to the main motion.

The debate continuing, it was on motion of Mr. Kowalsky, adjourned.

On motion of the Hon. Mr. Lingenfelter:

Ordered, That this Assembly do now adjourn.

---

The Assembly adjourned at 4:58 p.m. until Wednesday at 2:00 p.m.

The Chair having called clause 4, Mr. Neudorf raised a point of order that in recognition of the Time Allocation order on Bill No. 3, the Official Opposition had submitted amendments to the Chair and to the Minister in advance, so therefore the amendments should be considered part of the voting process and dealt with accordingly.

STATEMENT BY MR. CHAIRMAN

The Member for Rosthern has raised a point of order stating that the Opposition has amendments to move on the remaining sections of the Bill that had not been called. According to the Time Allocation motion adopted on April 19, I am unable to recognize Members for further debate after fifteen minutes before the set time of adjournment on the second day spent in Committee of the Whole on this Bill. I refer Members to the second paragraph of the motion as follows:

APRIL 27, 1993

That there shall be two sitting days allocated to the consideration of the said Bill in the Committee of the Whole, and that at fifteen minutes before the set time of adjournment on the second sitting day, unless sooner concluded, the Chairman shall put every question necessary to dispose of every section of the Bill not yet passed, and shall report the Bill forthwith to the House, and the question for first and second reading of any amendments shall be put forthwith and decided without amendments or debate.

Under this order, the Chair is required to "put every question necessary to dispose of every section of the Bill not yet passed". An amendment cannot be voted on until it is moved and it cannot be moved without a Member being recognized in debate. At this point there is no further debate. The question must now be put on each remaining clause and the Bill is then to be reported to the House. Therefore, the point of order is not well taken.

That this Assembly commend the Provincial Government for having the foresight to develop a comprehensive strategy for Saskatchewan agriculture for the future, and that the Provincial Government be further commended for its excellent consultation strategy and public relations process, which will involve eight regional meetings around the province with farmers, communities and the agriculture and food industries, who will help develop the agricultural plan for the future.

A debate arising, it was moved by Mr. Goohsen, seconded by Mr. Devine, in amendment thereto:

That all the words after the word "Assembly" be deleted and the following substituted therefore:

MAY 11, 1993

condemns the Provincial Government for its lack of vision and lack of comprehensive policy and programming to assist Saskatchewan agriculture today and in the future, and that the Provincial Government be further condemned for its lack of true consultation with our province's producers, and that this Assembly further condemns the provincial government for its emphasis on public relations, rather than substance which has involved even the Premier making statements while in New York claiming that "farm receipts" are on the rise in this province and making this claim with the full knowledge that Agriculture Canada's forecast for this year calls for Saskatchewan farm incomes to fall 56 to 68 percent from 1992 to less than \$5,000 a farm in realized net farm income.

The Speaker deleted all the words after the words "rather than substance" on the grounds that the deleted words were in the nature of a preamble and contained argument that would more properly form part of the debate.

The debate continuing on Resolution No. 7 and the amendment, it was on motion of Mr. Devine, adjourned.

STATEMENT BY MR. SPEAKER

The Opposition House Leader on Wednesday raised a point of order relating to the accuracy of the *Votes and Proceedings* in its record of the Speaker's ruling on an amendment made to Resolution No. 7 on May 11. I concur that in my ruling I did not actually use the words used in the *Votes and Proceedings* but for the reasons I stated in response to the point of order when it was raised, I do not find the point of order well taken.

While addressing this subject, I do want to point out to all Members that the only purpose of recording points of order in the *Votes and Proceedings* is to summarize a point of order or a Speaker's ruling which might have a bearing on proceedings. It is for this reason that not every point of order is recorded in the *Votes and Proceedings*. All points of order are of course published in their entirety in the *Hansard* report. *Hansard* being a verbatim, there is no interpretation or summary of events. In reviewing this matter, I have found that in certain jurisdictions points of

MAY 14, 1993

order are not noted in the *Journals*. In some cases neither are Speaker's rulings unless the Speaker makes a statement from a prepared text. A ruling is just as much a precedent when recorded in *Hansard* as it is when recorded in the *Votes*.

To avoid the prospect of misinterpretation in future, I have instructed the Clerks-at-the-Table not to record in the *Votes and Proceedings* points of order and to record Speaker's rulings only when the Speaker makes a statement from a prepared text. I hope this will in future avoid the necessity of raising a point of order like that raised by the Opposition House Leader.

STATEMENT BY MR. SPEAKER

My second ruling deals with another point of order raised on Wednesday by the Opposition House Leader concerning Resolution No. 7 and the amendment to it on which I ruled on May 11. Given that the amendment to Resolution No. 7 was ruled out of order because it contained words in the nature of a preamble, the Member asked that the main motion be modified by Mr. Speaker for the same reason. I have again reviewed the wording of the resolution and find it to be within our practice.

However, the Member again raises an issue which is of some concern to the Speaker. On occasion during this and the last session I have ruled on the inadmissible form of amendments proposed from both sides of the House. The difficulty of this issue is the loose practice that has developed over many years regarding the technical acceptability of certain private members' motions and especially the amendments made thereto.

While the Speaker has attempted to be diligent, this is again another issue where the Speaker must make a judgement where to draw the line. It is apparent that when the Speaker has acted, it has been to the dissatisfaction of certain Members from both sides of the House. On the other hand, I have found that other Members feel the Speaker has not been strict enough. Given the problematic nature of this matter, this is perhaps an issue which should be addressed by the Rules and Procedures Committee so that the general will of the Assembly can be determined.

STATEMENT BY MR. SPEAKER

The Opposition House Leader raised a point of order yesterday relating to the proceedings of Wednesday, regarding how points of order should be recognized by the Chair.

On reflection, after the heat of the moment has passed, I agree that points of order should be heard when they arise and therefore the point of order is well taken. The Member's suggestion that the disorder should have been dealt with by other means is also well taken.

I thank the Member for his advice and it is my intention to use those means when appropriate.

STATEMENT BY MR. SPEAKER

At this time I also want to deal with a point of order raised some time ago by the Government House Leader. On April 15, 1993 a point of order was raised regarding the repeated use of adjournment motions which in the view of the Government House Leader amounted to obstruction of the Assembly.

The use of motions to adjourn the House to delay the Assembly from proceedings to controversial business is not a new occurrence. The aspect that is new is the 10 minute limit on the division bells on the vote on such a motion and hence the move to repeated adjournment motions.

MAY 14, 1993

This is also not the first time that the Speaker has been asked to intervene to stop this form of obstruction from succeeding. I refer Member to the *Journals of the Legislative Assembly* for June 12, 1991, where Speaker Tusa responded to a similar point of order respecting the use of adjournment motions to obstruct the House. At that time the Chair pointed out that there were serious inconsistencies in our practice between the use of adjournment motions and other superseding motions during Routine Proceedings. Speaker Tusa recommended that the House seek a solution to the problem of obstructive use of adjournment motions through the usual channels of a Rules Committee review.

Indeed, the most common way for changes in rules and practices to be made in this Assembly is through review and report by the Committee on Rules and Procedures. There, options can be studied, the pros and cons weighed, the effects of one change on the broader picture of all the rules as a whole can be debated, and most importantly, essential compromise can be made and a balance found. This process respects the important principle that the rules are made by the Members themselves and the House as a whole.

If it is the view of the Government House Leader that the use of adjournment motions is still a problem and should be addressed, then I submit that the Rules Committee is the most appropriate place to do so.

On motion of the Hon. Mr. Lingenfelter, seconded by the Hon. Mr. Shillington, by leave of the Assembly:

STATEMENT BY MR. SPEAKER

On Friday the Member for Moosomin raised a point of order before Orders of the Day relating to responses by the Minister of Health during Question Period. The Minister was asked two questions at once and when time ran short during the first answer the Minister attempted to answer the second question the next time she was recognized. First of all, when answering questions, Ministers ought to gauge the length of their answers to insure they can answer all parts of the question that they wish to answer in the acceptable time frame allowed for answers. Secondly, it is not appropriate for a Minister, when recognized on a later question, to finish an answer to a previous question.

Members asking questions must also keep in mind a couple of points relating to this point of order. One is that Members should not ask more than one question at a time. If they do, then they should be prepared to receive longer answers. Members should not include long preambles unless they are prepared to receive long answers in which their main question may be evaded.

I ask Members to observe these points to improve the operation of Question Period.

#### STATEMENT BY MR. SPEAKER

On Friday May 28, 1993, the Leader of the Opposition raised a question of privilege concerning the release to the media of a bill concerning NewGrade Energy Incorporated before it was introduced in this Assembly. I heard the advice of Members from both sides of the House about the circumstances of its release and the appropriateness of such action.

From the commentary of Members on this issue, I think the Assembly is aware that the grievance of the Leader of the Opposition is one that has been raised each time the usual courtesies to the Assembly are not maintained in this respect. While neither the rules nor the precedents require that bills must be kept confidential until introduction in the Assembly, it is not customary for a bill to be distributed to the public before it is introduced in this Assembly. Notwithstanding that custom, at no time has the advance release of a bill been found to breach any privilege. I refer Members to rulings of the Chair dated December 4, 1975; June 2, 1988; and April 22, 1991. Therefore I must rule that the Leader of the Opposition does not have a point of privilege although he does have a legitimate grievance.

Before ending this matter, I do want to point out that in a ruling of March 22, 1967 the Speaker commented on the parliamentary principle that Members of the Assembly should be advised of new policies before the public generally. In future I ask that Ministers consider this principle carefully so that this Assembly does not further develop what is an undesirable practice.

The Assembly resumed the adjourned debate on the proposed motion of the Hon. Mr. Mitchell: That Bill No. 38--An Act to amend The Saskatchewan Human Rights Code--be now read a second time.

The debate continuing, it was on motion of Mr. Boyd, adjourned.

For Members of the Legislative Assembly

Preamble

As Members of the Legislative Assembly we recognize that our actions have a profound impact on the lives of all Saskatchewan people. Fulfilling our obligations and discharging our duties responsibly requires a commitment to the highest ethical standards.

Statement of Commitment

To the people of this province, we owe the responsible execution of our official duties, in order to promote human and environmental welfare.

JUNE 14, 1993

To our constituents, we owe honesty, accessibility, accountability, courtesy and understanding.

To our colleagues in this Assembly, we owe loyalty to shared principles, respect for differences, and fairness in political dealings.

We believe that the fundamental objective of public office is to serve our fellow citizens with integrity in order to improve the economic and social conditions of all Saskatchewan people.

We reject political corruption and will refuse to participate in unethical political practices which tend to undermine the democratic traditions of our province and its institutions.

#### Declaration of Principles

Members of this Assembly must carry out their official duties and arrange their private financial affairs in a manner that protects the public interest and enhances public confidence and trust in government and in high standards of ethical conduct in public office.

Members of this Assembly must act not only lawfully but also in a manner that will withstand the closest public scrutiny; neither the law nor this code is designed to be exhaustive, and there will be occasions on which Members will find it necessary to adopt more stringent norms of conduct in order to protect the public interest and to enhance public confidence and trust.

Every Member is individually responsible for preventing potential and actual conflicts of interest, and must arrange private financial affairs in a manner that prevents such conflicts from arising.

Members of the Assembly must carry out their official duties objectively and without consideration of personal or financial interests.

Members of the Assembly must not accept gifts, benefits or favours except for incidental gifts or customary hospitality of nominal value as provided for in legislation.

Members of the Assembly must not take personal advantage of or private benefit from information that is obtained in the course of or as a result of their official duties or positions and that is not in the public domain.

Members of the Assembly must not engage in personal conduct that exploits for private reasons their positions or authorities or that would tend to bring discredit to their offices.

JUNE 14, 1993

Members of the Assembly must not use, or allow the use of, public property or services for personal gain.

Members of the Assembly, when leaving public office and when they have left public office, must not take improper advantage of their former office.

Moved by the Hon. Mr. Mitchell:

Strike out section 18 of the printed Bill and substitute the following:

Section 47 amended

18 Subsection 47(1) is amended by striking out "race, creed, religion, colour, sex, marital status, disability, age, nationality, ancestry or place of origin" and substituting "race, colour, sex, disability or ancestry".

Mr. Chair made the following statement:

The principle of Bill 38 as approved in second reading prohibits discrimination based on sexual orientation, family status or on the receipt of public assistance.

Clause 18(a) of Bill 38 provides for sexual orientation as the basis for the application of programmes designed to reduce disadvantages to certain individuals or groups (affirmative action).

The Minister's amendment removes sexual orientation as a basis for the establishment of such programmes, and that is in order.

The amendment however goes beyond the scope of the Bill in removing other provisions, already part of the Saskatchewan Human Rights Code, on which such programmes can be based. Provisions such as "creed, religion, age, marital status, nationality and place of origin" are being removed from the Act as a basis for establishing these programmes. These provisions do not relate to sexual orientation, family status or the receipt of public assistance.

An amendment which seeks to remove such provisions goes beyond the scope, the intent and the principle of the Bill as agreed to in second reading. This amendment seeks to amend other provisions in the parent Act which are not part of Bill 38.

I refer Members to *Beauchesne's Parliamentary Rules and Forms*, 6th edition, paragraph 698(1) which reads as follows:

(1) An amendment is out of order if it is irrelevant to the bill, beyond its scope or governed by or dependent upon amendments already negatived.

For these reasons, I find the amendment out of order. Such an amendment can only be proceeded with by unanimous consent.

Mr. Speaker,

Members of the Legislative Assembly

It is my duty to relieve you of further attendance at this Legislative Assembly. In so doing I wish to thank you for the work you have done.

This session marked a renewal of hope for the people of Saskatchewan. While some jurisdictions chose to aimlessly slash budgets; you chose to tackle adversity with innovation, initiative and compassion.

You have sharpened the focus of government in order to better assist the recovery of the Saskatchewan economy through job creation and fiscal stability. *The Department of Economic Development Act, 1993* will increase government's ability to rejuvenate the economy, through job creation and increased trade capability. *The Labour-Sponsored Venture Capital Corporations Act* enhances the ability of Saskatchewan workers and corporations, working together, to raise equity capital which will create, protect or maintain jobs and allow corporations to diversify and increase investment into Saskatchewan businesses. Further, you have encouraged growth in small business with the passage of *The Income Tax Amendment Act, 1993*.

You have endeavoured to improve the circumstance of farmers and the farm economy. You have approved *The Farm Financial Stability Act* which helps reduce the risk to loan guarantees granted to Feeder/Breeder associations and increase efficiencies for government, lenders and associations. *The Saskatchewan Farm Security Act* broadens the investigative powers of the Farm Ownership Board and strengthens enforcement provisions. As part of government re-organization, amendments to *The Crop Insurance Act* bring the Corporation into the Department of Agriculture, consolidating and streamlining administration.

In approving *The Health Districts Act* you have moved to the second phase of the provision of health care envisioned thirty years ago, when the Woodrow Lloyd government launched North America's first public, prepaid Medicare program. This Act will integrate health services and increase community involvement through the creation of health districts and district health care boards. Providing more local control over the delivery of health services is a significant step in the promotion of wellness for Saskatchewan people.

The continued focus of open and accountable government remains a high government priority. Changes to *The Financial Administration Act* implement the recommendation of the Financial Management Review Commission by adopting the principles of accrual accounting, *The Crown Corporations Act, 1993* sets forth a clear, more accountable structure for the operation and reporting of Crown Corporations.

You have provided for the increased confidence in the electoral practices of Saskatchewan. *The Constituency Boundaries Act, 1993* allowed for public input and the impartial creation of more

FEBRUARY 7, 1994

representative electoral districts. *The Local Government Election Amendment Act, 1993 (Wards)* and *The Urban Municipality Amendment Act (Wards)* will restore the ward system in Saskatchewan for urban municipalities, strengthening equal representation and accountability. In addition, *The Local Government Elections Amendment Act (1993) (No. 2)*, updated and enhanced democratic rights within municipal elections in response to requests from the Saskatchewan Urban Municipalities Association.

You have endeavoured to earn the faith and trust of the Saskatchewan people by embracing high ethical standards. You have adopted *The Members' Conflict of Interest Act* and approved a Code of Ethical Conduct in order to lend credibility to the conduct of elected officials of the Legislative Assembly.

You have approved legislation that ensures safer workplaces and a better system of benefits and rehabilitation for injured workers. *The Occupational Health and Safety Act* helps workers and employers to reduce workplace hazards and prevent injuries. It also provides a framework for dealing with sexual and other forms of harassment. *The Workers' Compensation Act* has been amended to curtail the practice of deeming and to ensure that injured workers receive fair compensation and treatment.

You have adopted amendments to *The Saskatchewan Human Rights Code*, further extending freedom from discrimination.

Although the times have required financial restraint and careful attention to an overburdened treasury, you have nonetheless sought to show that government has a compassionate face and has not ignored the difficulties of the less fortunate. *The Limitation of Actions Amendment Act* and *The Victims of Crime Amendment Act* empower victims of abuse to make progress towards recovery. *The Family Maintenance Amendment Act, 1993* will eliminate the potential of further financial hardship for disabled adults. As well, these amendments eliminate a perceived discrimination against children of parents who have never been married.

You have adopted *The Treaty Land Entitlement Implementation Act* in order to accommodate the provisions of the historic agreement signed by Saskatchewan 25 Indian Bands and Canada in 1992.

I thank you for the provision you have made to meet the further requirements of the public services and I assure you that this sum of money will be used economically, prudently and in the public interest.

In taking leave of you, I congratulate you for the manner in which you have devoted your energies to the activities of the Session and wish you the full blessing of Providence.

The Hon. Mr. Lingenfelter, Acting Provincial Secretary, then said:

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of Her Honour the Lieutenant Governor that this Legislative Assembly be prorogued until later today, the 7th day of February, 1994 at 2:00 p.m., and that this Legislative Assembly is accordingly prorogued.

11:22 a.m.

# APPENDIX TO JOURNALS

## QUESTIONS and ANSWERS

MARCH 4, 1993

76-- Mr. Toth asked the Government the following Questions, which were answered by the Hon. Mr. Mitchell:

Regarding the administration of justice in Saskatchewan, will the government (a) provide a list of all plea bargains entered into by the Attorney General through his prosecutors in the calendar years 1991 and 1992? (b) for each plea bargain, provide the date, name of offender, crime, name of responsible prosecutor and reason for the plea bargain?

Answer:

(a) The generally accepted understanding of "plea bargaining" is that it is a process as portrayed on American television as part of the U.S. criminal justice system for the expedient clearance of charges through the criminal courts. That process is not one that is used in this jurisdiction.

In this jurisdiction a prosecutor will assess the strength of a criminal case based on recognized legal principles and this assessment governs the exercise of the prosecutorial discretion. The use of prosecutorial discretion ensures that when pleas are accepted they are accepted to the most appropriate charge or charges and that sentences in accordance with the law are imposed.

The discretionary powers of the prosecutor are essential to the workings of the criminal justice system and that prosecutorial discretion must be free from partisan politics or the appearance of such: Judicial authority recognizes that prosecutors possess broad and serious areas of discretion in criminal proceedings which the courts control by judicially defining that discretion.

There are not now, nor have there ever been, records kept in the Department of Justice concerning what might be encompassed by the term "plea bargaining". As a result that information is not available. Furthermore, providing information on individual cases potentially compromises the essential independent nature of the prosecution process.

(b) Not applicable.

**MARCH 8, 1993**

78-- Ms. Haverstock, asked the Government the following Questions, which were answered by the Hon. Mr. Koskie:

Regarding the Department of Highways recently announced increase to vehicle registration charges (1) Why are vehicle owners whose registration expires in March of 1993 being charged an additional 7.6% on renewal despite renewing before April 1st when the increase is to take effect? (2) What has the Minister responsible done to determine the extent of the above practice?

Answer:

(1) The vehicle registration renewals sent out by SGI earlier this month were for those registrations that expire on March 31, 1993. Therefore, when a registrant pays for his or her renewal in March, they are actually paying in advance for the 12 month period from April 1, 1993 to March 31, 1994.

(2) It has been SGI's practice for many years to mail out vehicle registration renewals several weeks early, to allow people to renew without having to stand in line at a motor licence issuer's office, just prior to the end of the month.

79-- Ms. Haverstock, asked the Government the following Questions, which were answered by the Hon. Mr. Goulet:

Regarding SGI and the recently announced increase to insurance premium rates. (1) Why are vehicle owners whose insurance expires in March of 1993 being charged an additional 4.75 percent on renewal despite renewing before April 1st when the increase is to take effect? (2) What has the Minister responsible done to determine the extent of the above practice?

Answer:

(1) The vehicle registration renewals sent out by SGI earlier this month were for those registrations that expire on March 31, 1993. Therefore, when a registrant pays for his or her renewal in March, they are actually paying in advance for the 12 month period from April 1, 1993 to March 31, 1994.

(2) It has been SGI's practice for many years to mail out vehicle registration renewals several weeks early, to allow people to renew without having to stand in line at a motor licence issuer's office just prior to the end of the month.

**MARCH 26, 1993**

91 -- Ms. Haverstock, asked the Government the following Questions which were answered by the Hon. Ms. Simard:

Regarding the Department of Health and recent changes to the Prescription Drug Plan: (1) Why is the eligibility for benefits under the new plan based on gross income rather than net income? (2) How many farm families in rural Saskatchewan whose gross incomes are much larger than their net incomes will now be denied benefits under the new plan? (3) Did the Minister do any study to determine how many people might be negatively affected by basing the plan on gross rather than net income?

Answer:

(1) Eligibility for benefits under the plan is based on total income, rather than gross income. Total income is a calculation required by Revenue Canada in the completion of tax returns. For example, a farmer's total income is based on his net income from farming, not gross income.

(2) Farm families will not be denied benefits on the basis that their gross income is much larger than their net income because their eligibility will be determined on the basis of net farm income.

(3) The Department of Health did not do a study because there are no records equating family incomes to family drug costs.

**MAY 21, 1993**

112-- Mr. Neudorf, asked the Government the following Questions, which were answered by the Hon. Ms. Simard:

Regarding the Regina Health Board's employment practices, was Harvey Fox: (1) Employed as a head Administrator at the Plains Hospital? (2) If yes, was this individual fired from his position at the Plains Hospital? (3) If yes, did this individual receive a severance package? (4) If yes, provide full details of this severance package? (5) Has this individual been re-hired as a consultant? (6) If yes, provide full details of Mr. Fox's consulting fees and benefits?

Answer:

(1) Prior to the establishment of the Regina Health Board, Mr. Fox was the Executive Director of the South Saskatchewan Hospital Centre, that is the Pasqua Hospital and the Plains Health Centre. The administrator of the Plains Health Centre was Dick Chinn.

(2) With the creation of the Regina Health Board, all four Regina facilities report to one board, including the Pasqua Hospital, the Plains Health Centre, the Regina General Hospital and Wascana Rehabilitation Centre. The South Saskatchewan Hospital Centre complex ceased to exist and the Executive Director's position became redundant and therefore was abolished.

(3) & (4) Mr. Fox is no longer employed by the Regina Health Board. The Minister is unaware of any severance arrangements. The Regina Health Board would have to be contacted for this information.

(5) & (6) Mr. Fox is currently providing consulting services to some organizations in the province, but not to Saskatchewan Health and not to the Regina Health Board. Details of fees and benefits are not known.
