Province of Saskatchewan

Fourth Session

Twentieth Legislature

---

**Regina, Thursday, November 29, 1984**

*2:03 o'clock p.m.*

Mr. Speaker informed the Assembly that he had received a communication from the Private Secretary to His Honour the Lieutenant Governor stating that His Honour would open the Session at 2:00 o'clock p.m. today, Thursday, the 29th day of November, 1984.

*2:05 o'clock p.m.*

His Honour the Lieutenant Governor entered the Chamber and, having taken his seat upon the Throne, was pleased to open the Session with the following speech:—

MR. SPEAKER,

MEMBERS OF THE LEGISLATIVE ASSEMBLY

It is my pleasure to welcome you to the Fourth Session of the Twentieth Legislature.

This Assembly reconvenes at a time when the people of Saskatchewan face a number of crucial challenges and opportunities. The severity of this year's drought and flooding is responsible for severe economic difficulties in some parts of Saskatchewan. Unemployment remains a serious problem as well, although Saskatchewan continues to have the lowest level of unemployment in Canada.

To deal with these immediate and major concerns my Ministers will develop policies and programs based upon the traditional Saskatchewan values of self-reliance and cooperation. In this regard, my Ministers will continue to rely on these values in order to ensure that the activities of my Government facilitate the initiative and enterprise of our business community, protect our common heritage and enhance the quality of health, education and social services available to the people of Saskatchewan.

My Government recognizes, however, that in order to be effective its policies and programs must also be developed in consultation with the federal government and the other provinces. Accordingly, my Ministers are encouraged by the more open approach to federal-provincial relations exhibited by the new government in Ottawa. My Ministers believe that economic renewal in Canada can only be achieved when the federal government and the provinces cooperatively develop national programs targeted towards job creation and other efforts that will stimulate the economy.

### **World and National Economies**

The prosperity of Saskatchewan also is dependent to a large extent on economic developments outside the province. Approximately 30 per cent of Saskatchewan's income is earned outside Canada with another 15 per cent from the other Canadian provinces.

The world economy is slowly recovering from the severe recession of 1981-82. The economic recovery in Canada is proceeding at a faster rate than in Europe, but is lagging behind the recovery in the United States. Unfortunately, the Canadian recovery is not yet strong enough to bring about a significant reduction in the national unemployment rate. Interest rates remain at high levels, hurting many sectors of the economy and dampening investment.

### **Saskatchewan Economy**

The Saskatchewan economy weathered the world recession relatively well, but demand did fall off sharply in some key resource sectors. Recovery from the recession is now underway despite the recent negative financial effects of the drought on farmers and small businesses.

Following my Government's changes in the royalty tax structure, the number of oil wells drilled in 1983 was more than double the 1982 level. This year, a new record has been established with more than 2,100 new wells drilled in the first nine months alone. For the period 1982 through to 1984, the changes to the royalty tax structure implemented by my Government resulted in additional revenues of \$193 million for Saskatchewan and the creation of 2,450 full-time jobs.

On the investment front, new capital spending in Saskatchewan rose by 10.3 per cent during 1983, even though capital spending declined in the rest of Canada. Statistics Canada expects that in 1984 there will be a further increase in capital investment in Saskatchewan.

### **Rural Saskatchewan**

Rural Saskatchewan experienced a difficult year in 1984.

The depressed world market price of grain resulted in low returns on Saskatchewan agricultural products. Rising farm production costs left most farmers with reduced incomes and some with difficulties in meeting financial commitments. Environmental factors produced additional hardships. Crop production for 1984 fell to 16.1 million tonnes, down about 20 per cent from last year's harvest. Receipts from production are expected to fall about \$600 million as a result of this year's drought.

When and where necessary, my Government responded to the situation created by these problems by developing sector-specific policies and programs. The Northeast Saskatchewan Flood Assistance Program provided \$7.5 million in assistance to some 1,800 farmers in the northeast. My Government provided farmers and ranchers with assistance when the drought jeopardized water supplies and pasture conditions. In this regard, it provided assistance to move cattle to summer pastures and assistance to identify and develop alternate water sources. In concert with the Federal Government, my Government also implemented the Prairie Livestock Drought Assistance Program which is providing \$26 million to assist livestock producers.

Farmers have welcomed the recent improvements to the Crop Insurance Program, a vital part of the safety net for the grain economy. My Ministers are working with their federal counterparts to ensure the necessary legislative changes for an early and substantial payout from the Western Grain Stabilization Fund. My Ministers also are exploring other cooperative federal-provincial measures which may provide additional help for Saskatchewan farmers.

In addition to the immediate financial difficulties caused by this year's adverse climatic conditions, Saskatchewan farmers continue to be burdened by the cost-price squeeze. Last spring, my Government introduced an operating loan guarantee program for farmers to ensure they had sufficient funds to carry out their farm operations. Today, many farmers remain in business because of these loan guarantees. All of these measures I have mentioned will help alleviate the cash flow problems presently being experienced by Saskatchewan farmers and, in turn, protect the viability of the farm service sector so vital to rural Saskatchewan.

1984 has, however, been a particularly difficult year for farmers and further government action is required to protect the family farm. Accordingly, my Government intends to introduce in this Session comprehensive legislation to provide security for viable family farms jeopardized by uncontrollable costs, burdensome debts and the impact of adverse weather conditions.

My Government is not prepared to see the security of the family farm endangered by short-term difficulties. My Government is determined to provide Saskatchewan farmers with the opportunity to remain economically viable in the increasingly competitive and technologically sophisticated agriculture industry.

### **Water Management**

My Government recognizes that we must begin to develop long-term solutions to drought and flood related problems through expanded programs in water management. The very dry conditions in southern Saskatchewan and the flooding in the northeast in 1984 are the most recent examples of two chronic problems that have plagued this province for decades. The Water Corporation will be increasing expenditures in 1985 and the years beyond in the water sector on capital works which will be of benefit to Saskatchewan.

In addition, the Saskatchewan Water Corporation will continue to work closely with the agencies of the federal government to ensure their participation in the needed expenditures on planning, research, drainage control, irrigation development and municipal water supply projects throughout Saskatchewan.

These positive actions demonstrate my Government's determination to resolve the long-standing water resource problems in the Province while at the same time expanding economic activity.

### **Social Development**

During the coming Session, my Government will demonstrate its continuing commitment to improving the quality of life for all Saskatchewan residents. It will do so by ensuring that its services and its service delivery systems are effective, comprehensive and community-based.

My Government is determined to uphold this commitment for the population in general and for special groups. In consultation with the medical profession, my Government is committed to identifying the most appropriate means by which it can end the practice of extra-billing in Saskatchewan. The new Kinsmen Children's Centre will open soon in Saskatoon and progress is being made on the new Regina Rehabilitation Centre, a \$35 million project which will see an \$18 million therapy wing under construction in 1985-86. My Government will continue to develop major initiatives in the field of Mental Health services, including a new Mental Health Act to ensure that the rights of patients are adequately protected.

My Government also will continue to develop services for the elderly. In this regard, it will continue with its major commitment to special-care home construction by spending \$25 million over the next five years. Furthermore, my Government's Senior's Bureau will ensure that the needs and concerns of seniors are communicated to Government and that Government programming will be available to seniors.

My Government is committed to upholding the dignity of the individual, protecting our children and preserving the sanctity of the family.

In April of this year, my Government presented a brief entitled *Respecting Human Dignity* to the Fraser Committee on Pornography and Prostitution. The brief expressed the view that there is a great deal of violence and degradation directed towards women in pornographic material. Consequently, the brief recommended to the federal government that it strengthen its laws and policies against pornography. Recently, Saskatchewan also submitted a brief to the Canadian Radio-Television and Telecommunications Commission, requesting stricter regulations be implemented with respect to pornographic programming on pay television networks.

During the past year, my Government undertook a comprehensive review of its Family Service Act and now is preparing new legislation emphasizing the prevention of child abuse, support for the integrity of the family and the need for community involvement. It will, as well, continue to provide help in a co-ordinated, comprehensive fashion, to women who are victims of family violence and to children in need of protection.

Thousands of men and women, formerly dependent, now have the opportunity to regain their independence as a result of my Government's continuing efforts to link job creation to skills development. My Government is pleased to announce that the \$12.6 million Saskatchewan Skills Development Program will channel 3,500 welfare recipients through our community college and technical institute system providing them with the skills required to compete for jobs and to become self-supporting. This approach to human development reflects my Government's commitment to effective, preventive programming designed to provide productive opportunities to all our people.

My Government also has been successful in linking skill training to the market place.

The Advanced Technology Training Centre was established in Saskatoon in June 1984 as a joint government-industry venture. This Centre will provide retraining opportunities during the next five years for approximately 1,000 technicians currently employed in our high technology industries.

Previously, my Government announced a major expansion to Saskatchewan's technical institutes. These institutions since 1982 have increased their capacity by 1,000 training places and there are plans to provide additional capacity in 1984-85. In addition, my Government is providing in excess of half a million dollars this year for the delivery of career counselling services in both rural and urban areas through the community colleges. This will enable individuals to make informed choices regarding career training and personal development.

My Government will continue to place a high priority on the flexibility and accessibility of the training provided to our residents. In this regard, it has developed and will continue to facilitate, improved consultation with the Federal Government, labour, industry and the public to ensure it is tailoring programs and delivery mechanisms to meet the needs of employers, employees and the unemployed.

### **Employment Policy**

These training initiatives are but one indication of my Government's determination to focus its energies on employment issues.

The efforts of my Ministers have contributed over the last year to a provincial employment situation which is the best in Canada. These efforts could not have been successful without the cooperation and involvement of many businesses, municipalities and non-governmental organizations.

Programs of my Government such as the Industrial Incentive Program, the Saskatchewan Access Youth Employment Program, Opportunities '84, the Students-in-Industry Program and the Saskatchewan Employment Development Program depend on this cooperation and involvement. With this assistance my Government will have created close to eight thousand jobs for students, social assistance recipients, Natives and the unemployed in general over the 1984-85 fiscal year. Other government programs with a job creation impact such as Government and Crown capital construction programs, support services for the development of employment cooperatives, the Seniors' Home Repair Program and the New Careers Corporation will add to this total.

These efforts will be redoubled to ensure that this strong performance is continued. My Government has already announced the designation of a Minister Responsible for Employment. This House will be asked to consider legislation establishing a Government Agency to assist him in his duties.

The Minister responsible for employment, in concert with his colleagues, will be refining and elaborating the employment strategy of my Government. In this regard, my Government intends to place a special emphasis on employment development in the private sector. The members of this Assembly will be asked to consider in the coming Session the programs required to implement this strategy, including innovative approaches in the area of employment and training for our young people.

Another important element in this strategy will be to respond immediately to the need for winter employment. Winter is typically a time when the economy slows down and unemployment rises. Immediate priority will be given to increasing opportunities for employment during this winter. My Government shortly will be announcing new funding to stimulate activity in both the public and private sectors.

The employment strategy of my Government must, however, go beyond such specific measures to consider and deal with questions fundamental to the economic future of all Saskatchewan residents — young and old, male and female, employee and employer.

There are no simple answers to these fundamental questions. Almost half of Saskatchewan's unemployed are unskilled and untrained young people. More and more people are coming to Saskatchewan in search of employment opportunities lacking elsewhere. Women are becoming increasingly important contributors to the overall economy with their own unique mix of needs for employment opportunities. The very nature of employment itself is changing under the impact of international events and changing technologies.

We in Saskatchewan must learn to respond to these events by adapting our traditional industries as necessary and by exploring the potential of new industries that may arise. The Provincial Government has a key role to play in this response, but others must be involved as well.

Discussions will be required with the federal government in order to improve the co-ordination of federal and provincial employment and training programs. Dialogue with major actors in the private and public sectors of the economy and with the public at large will be established to ensure that policies match the employment needs of both employers and employees.

My Government believes that all of us must work together to explore every avenue that promises meaningful employment to our people on a sustained basis. In consequence, a further priority will be to ensure that the Government's job creation efforts are consistent with and support the long-term economic development policy of the province.

### **Economic Development**

My Government believes that Canada's economic potential can only be realized through a cooperative national effort that will allow the two orders of Government to develop common solutions to the country's economic and social problems. My Government intends to cooperate fully with the Federal Government and the other provinces to ensure a successful First Ministers' Conference on the Economy to be held here in Regina early next year.

My Government actively sought the opportunity to host this important Conference because of its belief that Saskatchewan and Western Canada have a very real contribution to make to the economic growth of this country. Indeed, the agenda for the First Ministers' Conference on the Economy addresses Saskatchewan's priorities for economic renewal. In this regard, the agenda for the Conference will focus on training, increasing investment in Canada, building on regional strengths and developing an internationally competitive Canadian economy. Saskatchewan expects to make a significant contribution to the Conference in the anticipation that major, new directions will be established.

My Government is committed to the development of joint federal-provincial initiatives aimed at encouraging economic development in Saskatchewan. In 1984, Canada and Saskatchewan signed an Economic and Regional Development Agreement under which approximately \$250 million in joint programs have been initiated. This Agreement represents a cooperative process of economic development in Saskatchewan and ensures that the Federal Government's economic policies build on Saskatchewan's inherent strengths.

Economic activity in Saskatchewan has continued at an encouraging pace. My Government's Major Projects Inventory now monitors \$9 billion in large-scale construction being planned for implementation over the next five years. My Government is working hard to ensure that Saskatchewan firms reap the benefits of these projects.

These major projects are important. However, it is the health and prosperity of individual businesses across this province that will ensure the continuing growth of the Saskatchewan economy. Sound, well-managed enterprises built on our strengths and spanning all sectors of the economy will make by far the most significant contribution to economic performance and output.

My Government is committed to ensuring that these enterprises function in an environment which is conducive to growth and development. In this regard, my Government has initiated a number of policies and programs to help our small business community realize its potential and meet the challenges of the 1980's

The Spring Budget this year introduced a comprehensive program for industrial development. The program included tax reductions for manufacturing and processing, sales tax exemptions for prototypes, tax credits for venture capital creation and innovative industrial incentives for job creation and capital investment.

These successful programs have provided an integrated approach to support economic growth. For example, commitments to date under the Industrial Incentive Program indicate that the program will meet its twelve month target of 1,500 permanent jobs and more than \$40 million in new capital investment in manufacturing and processing.

The Venture Capital Tax Credit Act is encouraging the supply of Saskatchewan investment funds to small businesses in need of capital. This kind of assistance promotes the introduction of new technologies, products and services and creates jobs.

These policies and programs reflect my Government's continuing commitment to the creation of permanent job opportunities through sound economic growth.

### **Saskatchewan Heritage 1985**

1985 will be a special year for Saskatchewan and its people. My Government has designated the year as Saskatchewan Heritage 1985 and the theme "Commemorating our Past, Building our Future" expresses the spirit of this year. Saskatchewan Heritage 1985 will be a year for the people of Saskatchewan to commemorate the accomplishments of our history, to recognize Saskatchewan's youth as a special resource with which we will build the future and to honour the contribution of native culture to Saskatchewan through our remembrance of the North West Rebellion. In preparation for Saskatchewan Heritage 1985, my Government will be facilitating the development of heritage committees and undertaking a number of promotional programs outside the province to attract visitors to Saskatchewan.

### **Conclusion**

Various other legislative measures will be placed before you for your consideration.

The Public Accounts for the last fiscal year, together with Estimates for the year commencing April 1, 1985, will be submitted to you.

I leave you now to the business of the Session, with full confidence that you will favourably discharge your duties and responsibilities.

May Divine Providence continue to bless our province and guide this Legislature in all its deliberations.

His Honour the Lieutenant Governor then retired from the Chamber.

fails to deal with the plight of those in real need, such as the disadvantaged, the people of Northern Saskatchewan, the working poor, senior citizens and injured workers;

fails to recognize important opportunities for economic growth, such as a properly financed education system, an improved transportation network, and a renewed dedication to the protection of our environment;

Mr. Speaker referred all Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, para. 322 and quoted:

It has been formally ruled by Speakers that a statement by a Member respecting himself and particularly within his own knowledge must be accepted, but it is not unparliamentary temperately to criticize statements made by a member as being contrary to the facts; but no imputation of intentional falsehood is permissible. On rare occasions this may result in the House having to accept two contradictory accounts of the same incident.

and further — *Beauchesne's*, para. 319(3):

In the House of Commons a Member will not be permitted by the Speaker to indulge in any reflections on the House itself as a political institution; or to impute to any Member or Members unworthy motives for their actions in a particular case; or to use any profane or indecent language; or to question the acknowledged and undoubted powers of the House in a matter of privilege; or to reflect upon, argue against or in any manner call in question the past acts and proceedings of the House, or to speak in abusive and disrespectful terms of an Act of Parliament.

## STATEMENT BY MR. SPEAKER

Yesterday before Orders of the Day, the Leader of the Opposition raised a point of order with regard to the procedure of a Minister taking notice of a question and responding on a subsequent day. I deferred my ruling at that time in order to review the verbatim record.

There are no rules or specific parliamentary guidelines to cover the point raised. I have reviewed the practices of the House with regard to the taking of notice of questions during oral question period. It appears to me that the Minister, on December 12, did offer to take notice of a question but never clearly stated that he would take notice. I therefore urge Ministers to either answer the question or in some cases, where necessary, clearly state to the House that he will take notice and respond to the Members on a later day.

It has been the practice of this House, when a Minister takes notice of a question that only a few supplementaries are permitted to expand and clarify the question and the remainder are withheld until the Minister has familiarized himself with the facts of the situation and has reported to the House.

I am sure that this clarification of the practices of this House during oral question period will help to guide Members in the future.

Before Orders of the Day, the Member for Regina North West raised a point of privilege to the effect that his capacity to fulfill his role as a Member was hampered due to threats to his staff members.

Mr. Speaker presented the following statement:

I thank the Honourable Member for the notice of his point of privilege which was received in my office this morning. I refer all Honourable Members to *Beauchesne's Parliamentary Rules and Forms*, p. 11, para. 16 as follows:

Parliamentary privilege is the sum of the peculiar rights enjoyed by each House collectively as a constituent part of the High Court of Parliament, and by Members of each House individually, without which they could not discharge their functions and which exceed those possessed by other bodies or individuals.

and:

The privileges of Parliament are rights which are "absolutely necessary for the due execution of its powers". They are enjoyed by individual Members, because the House cannot perform its functions without unimpeded use of the services of its Members; and by each House for the protection of its members and the vindication of its own authority and dignity.

The role of the Chair is to decide whether sufficient evidence has been produced and whether the point raised by the Member is so urgent that the House must set aside all of its business in order to debate this point.

And further from *Beauchesne's* page 25, para. 84(1)

Once the claim of a breach of privilege has been made, it is the duty of the Speaker to decide if a *prima facie* case can be established.

and para. 84(2)

It has often been laid down that the speaker's function in ruling on a claim of breach of privilege is limited to deciding the formal question, whether the case conforms with the conditions which alone entitle it to take precedence over the notices of motions and

Orders of the Day standing on the *Order Paper*; and does not extend to deciding the question of substance, whether a breach of privilege has in fact been committed—a question which can only be decided by the House itself.

I rule that the Honourable Member has not presented sufficient evidence to convince me that a *Prima Facie* breach of privilege exists. The Member may initiate a debate on the matter with a substantive motion with proper notice.

Moved by the Hon. Mr. Rousseau: That Bill No. 18—An Act to amend The Automobile Accident Insurance Act—be now read a second time.

A debate arising and the question being put, it was agreed to and the said Bill was, accordingly, read a second time and referred to a Committee of the Whole at the next sitting.

Moved by the Hon. Mr. Rousseau: That Bill No. 19—An Act to amend The Saskatchewan Insurance Act—be now read a second time.

The question being put, it was agreed to and the said Bill was, accordingly, read a second time and referred to a Committee of the Whole at the next sitting.

Moved by the Hon. Mr. Garner: That Bill No. 9—An Act respecting the Transportation of Dangerous Goods in Saskatchewan—be now read a second time.

A debate arising, it was on motion of Mr. Lusney, adjourned.

The Assembly, according to Order, resolved itself into a Committee of the Whole.

The following Bill was reported without amendment and ordered for third reading at the next sitting:

Bill No. 2—An Act to establish the Employment Development Agency.

On the following Bill progress was reported and the Committee given leave to sit again:

Bill No. 11—An Act to amend The Legislative Assembly and Executive Council Act.

Before Orders of the Day, the Member for Regina North West rose to apologize to the Speaker for certain comments, which appeared in a local newspaper, that the Member made outside of the House, regarding the integrity of the Chair, whereupon the apology was accepted by the House.

The Member for Regina North West raised a point of privilege regarding an alleged threat made against the Member's family by the Member for Biggar. Mr. Speaker waived notice under Rule 6(2). After hearing an explanation from the Member for Biggar, Mr. Speaker referred all Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, as follows:

Citation 19(1) - A dispute arising between two Members as to allegations of facts, does not fulfill the conditions of parliamentary privilege.

and

Citation 322 - It has been formally ruled by Speakers that a statement by a Member respecting himself and particularly within his own knowledge must be accepted, but it is not unparliamentary temperately to criticize statements made by a member as being contrary to the facts; but no imputation of intentional falsehood is permissible. On rare occasions this may result in the House having to accept two contradictory accounts of the same incident.

and ruled that a *prima facie* case of privilege had not been made out.

Before Orders of the Day, the Member for Regina North West rose on a point of order with regard to the adjournment of the Assembly on December 17, 1984 and cited Rule 28(3). Mr. Speaker noted that a number of events occurred immediately before adjournment. ### STATEMENT BY MR. SPEAKER

I wish to make a Statement with regard to the new format of the Routine Proceedings and Orders of the Day which is before you today.

Due to the increased size of the daily blue paper, we have initiated a new format whereby private Members' business is printed as a supplement to the order paper. The supplement will be reprinted following each private Members' day for the following week. The supplement would be reprinted during the week whenever any changes or additions occur.

This new format could save three or four printings per week and thus considerable staff time and printing costs but will still ensure that Members and the public are fully aware of the private Members' business which is before the Legislative Assembly. In Ontario and in the House of Commons where the number of questions is regularly very high, the complete list of questions on the order paper is printed only periodically — once a week in Ontario, once a month in Ottawa.

I have initiated this new format on an experimental basis. If a Member has any problems or suggestions with regard to this change, I would be happy to meet with you in my Chambers to discuss it.

Leave of the Assembly having been granted, the following Bill was received, read the first time, and by leave of the Assembly and under Rule 48 and Rule 51, ordered to be read a second time later this day.

Bill No. 31—An Act respecting the By-election in the Constituency of Thunder Creek

That this Assembly records with sorrow and regret the passing of a former Member of the Legislative Assembly of Saskatchewan and expresses its grateful appreciation of the contribution he made to his community, his constituency and this Province.

**ALLAN LISTER SAMUEL BROWN**, who died on January 4, 1985, was a Member of this Legislature for the constituency of Bengough from 1944 to 1960. He was born at Readlyn in 1917 and received his education there and at the University of Saskatchewan in Saskatoon. He was awarded the University Medal for general proficiency in the School of Agriculture. Allan Brown was the first chairman of Saskatchewan Crop Insurance and was active in the Saskatchewan Wheat Pool. As a farmer he pursued solutions to all problems confronting the farming community.

In recording its own deep sense of loss and bereavement this Assembly expresses its most sincere sympathy with members of the bereaved family.

A debate arising and the question being put, it was agreed to.

On motion of the Hon. Mr. Devine, seconded by the Hon. Mr. Blakeney:

During consideration of the Estimates for the Department of Education, a point of order was raised by the Member for Quill Lakes stating that it was out of order for a Minister to give a lengthy, prepared opening statement at the beginning of the Department's Estimates. The Chairman ruled that the Rules of the Committee had not changed and that the procedure was in order and referred Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, cit. 494 as follows:

The whole management of a department may be discussed in a general way when the committee is considering the first item of the Estimates of that department, which reads as follows: "Vote 1 — Administration"; but the discussion must not be extended to any particular item mentioned in the Estimates of that department.

Progress was reported and the Committee given leave to sit again.

### PRAYERS

Before Orders of the Day, a point of order was raised by the Member for Shaunavon to the effect that the question asked today in Oral Question Period, by the Member for Athabasca, was not the same as the question asked yesterday and on December 10 and therefore was not out of order. Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, p. 132, para. 359(8). Thereupon, Mr. Lingenfelter challenged the Speaker's ruling. Mr. Speaker ruled that a ruling of the Chair cannot be challenged but a substantive motion with proper notice may be moved.

The Deputy Speaker reserved his ruling.

Before Orders of the Day, a point of order was raised by the Member for Quill Lakes to the effect that the Member for Shaunavon had been recognized when he moved an adjournment motion during Question Period and therefore the motion was in order. The Clerk advised the Assembly that Mr. Speaker would not be present to open the sitting. Thereupon Mr. Deputy Speaker took the Chair.

### PRAYERS

Before Orders of the Day, the Member for Regina Centre raised a point of order to the effect that the Ministerial Statement pertained to the federal jurisdiction and not to the Minister's provincial portfolio. Mr. Deputy Speaker deferred his ruling.

Before Orders of the Day, the Member for Regina North West, in his point of order, sought the right to reply to the Ministerial Statement. Mr. Deputy Speaker ruled that it is the practice of this Assembly to allow only recognized parties the right to reply to Ministerial Statements.

### STATEMENT BY MR. DEPUTY SPEAKER

On Friday last, the Member for Shaunavon and the Leader of the Opposition raised a point of order to the effect that the Premier's answer to a question he had taken notice of was lengthy and irrelevant. I deferred my ruling at that time in order to review the record.

I now have had a chance to review the record. All Honourable Members will realize that it is not the role of the Chair to evaluate a Minister's answer to see if it answers the question. On the other hand, when a Minister takes notice of a question, he or she should not respond at a later time with a speech but should present a brief response to the question. I therefore find the point of order well taken.

At this time I would like to request the cooperation of all Honourable Members in having a more orderly question period.

The Assembly, according to Order, resolved itself into a Committee of the Whole.

The following Bill was reported with amendment, considered as amended, and by leave of the Assembly read the third time and passed:

Bill No. 41—An Act respecting the Consequential Amendments to Certain Acts resulting from the Enactment of the Canadian Charter of Rights and Freedoms

The Committee was given leave to sit again.

Moved by the Hon. Mr. Garner: That Bill No. 52—An Act to amend The Highways and Transportation Act—be now read a second time.

A debate arising and the question being put, it was agreed to and the said Bill was, accordingly, read a second time and referred to a Committee of the Whole at the next sitting.

Moved by the Hon. Mr. McLeod: That Bill No. 33—An Act to amend The Wascana Centre Act, (No. 2)—be now read a second time.

A debate arising and the question being put, it was agreed to and the said Bill was, accordingly, read a second time and referred to a Committee of the Whole at the next sitting.

The Assembly, according to Order, resolved itself into the Committee of Finance.

Progress was reported and the Committee given leave to sit again.

PRAYERS

### STATEMENT BY MR. DEPUTY SPEAKER

Yesterday, the Member for Regina Centre raised a point of order regarding the ministerial statement made by the Minister of Highways and Transportation. I have reviewed the statement and find that it covered a federal government program and was not, strictly speaking, a new program under a provincial government department.

I refer all Honourable Members to a ruling of the Chair of March 22, 1967 as follows:

It has long been the established practice of this Legislature for ministerial statements to be made upon the Orders of the Day, and it is traditional that Cabinet Ministers should, as a courtesy to the House, if the House is in Session, make any major policy statement or announcement in the House prior to announcing the same outside of the House. Each of such statements should be brief, factual and specific.

And further from a ruling of the Chair on April 4, 1979 as follows:

The purpose of a ministerial statement is to provide an opportunity for statements on government policy and administration to be made to the Legislative Assembly.

While the matter raised in the statement is certainly one of provincial interest it should be dealt with by some other avenue, not as a ministerial statement.

I therefore find the point of order well taken. I ask all Ministers to adhere to these guidelines as outlined by previous rulings of the Chair.

The Order of the Day being called for Resolution (No. 2), it was moved by Mr. Hopfner, seconded by Mr. Myers:

That this Assembly congratulates the Minister of Energy and Mines and his Department for the successful negotiations and agreement to build a bi-provincial heavy oil upgrader near Lloydminster, creating thousands of jobs in construction and related oil industries and, thereby, promoting further economic diversification in the province.

A debate arising, it was on motion of the Hon. Mr. Blakeney, adjourned.

The Order of the Day being called for Resolution (No. 7), it was moved by Mr. Lusney, seconded by Mr. Shillington:

That this Assembly urge the Government of Saskatchewan to improve the transportation services in Saskatchewan which it has allowed to deteriorate, and specifically to increase the capital and maintenance work on provincial highways, and bus transportation to communities throughout the province.

A debate arising, it was moved by Mr. Katzman, seconded by Mr. Birkbeck, in amendment thereto:

That all the words after the word "Assembly" be deleted and the following substituted therefor:

endorse the efforts of the Government of Saskatchewan to improve the transportation services in Saskatchewan which it has drastically upgraded and specifically endorse this Government's accomplishments in the area of school bus safety.

The debate continuing, it was on motion of Mr. Birkbeck, adjourned.

Moved by Mr. Shillington: That Bill No. 30—An Act to amend The Occupational Health and Safety Act—be now read a second time.

A debate arising, it was on motion of the Hon. Mr. Berntson, adjourned, on Division.

The Assembly, according to Order, resolved itself into the Committee of Finance.

#### STATEMENT BY MR. SPEAKER

Having delayed a ruling due to the absence of the Member, I am now prepared to give my ruling. I have had a chance to review the verbatim record for Tuesday, May 14 and in particular page 2182 of that record. During the Oral Question Period, I ruled that certain remarks by the Minister of Parks and Renewable Resources were unparliamentary and I sought a withdrawal.

The Minister in his withdrawal said, and I quote:

I abide by your ruling, Mr. Speaker. You're quite right, and I apologize to all the pigs in Saskatchewan.

This was not a withdrawal and in fact these remarks have no place in this Assembly.

I therefore now ask the Honourable Minister not only for a full and unconditional withdrawal but also an apology to this Assembly.

Mr. Maxwell thereupon withdrew the said remarks and apologized to the Assembly.

#### STATEMENT BY MR. SPEAKER

On Friday the Member for Meadow Lake raised a point of privilege stating that certain remarks of the Member for Shaunavon, made outside the House and reported by the media that day, were a serious reflection on the Deputy Chairman of the Committee of the Whole and constituted a contempt of this House.

I have carefully considered the transcripts of the remarks in question, and also the comments by the Member for Meadow Lake and the Member for Regina Centre. The precedents of this Assembly indicate that reflections on the Chair have been consistently found to be a breach of privilege. I refer all Hon. Members to precedents of this House dated November 17, 1977, April 11, 1980, and April 24, 1980, *Journals of the Legislative Assembly of Saskatchewan*.

It is not the function of the Speaker to decide the question of substance of whether a breach of privilege has in fact been committed; this is a question that can only be decided by the House itself. I refer you to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, para. 84. It is my duty to determine whether a *prima facie* case of breach of privilege has been made out by the Member for Meadow Lake which justifies this matter taking precedence over other Orders of the Day. Having reviewed the matter in question, I find that this case fulfills the conditions of a *prima facie* case of breach of privilege and I therefore leave the matter in the hands of the House, to deal with as the House sees fit.

On motion of the Hon. Mr. McLeod, seconded by the Hon. Mr. Schoenhals:

Ordered, That this Assembly finds the remarks of the Member for Shaunavon as reported on CBC radio and others on Friday, May 17, 1985, reflecting on the impartiality of the Chairman of Committees to be in contempt of this House and reprimands the Member.

The Order of the Day being called for the following motion under Rule 16, it was moved by Mr. Parker, seconded by Mr. Hodgins:

That this Assembly congratulates the Government of Saskatchewan and, in particular the Minister of Tourism and Small Business for the establishment of a program to write down interest rates on loans to small businesses to as low as 9 5/8 per cent, combined with the many other programs designed to provide support and assistance to the prime business sector of Saskatchewan, namely small business.

A debate arising, it was moved by Mr. Shillington, seconded by Mr. Thompson, in amendment thereto:

That all the words after the word "Assembly" be deleted and the following substituted therefor:

regrets that the Government's policy of tax increases and reduced services for small business and consumers will hinder economic renewal in our province.

The debate continuing on the motion and the amendment and the period of seventy-five minutes having expired under Rule 16(4), Mr. Speaker interrupted proceedings.

Moved by Mrs. Caswell: That Bill No. 53—An Act respecting Freedom of Informed Choice concerning Abortions in Saskatchewan—be now read a second time.

A debate arising, it was on motion of Mr. Weiman, adjourned.

### PRAYERS

The Minister, having acquainted the Assembly that His Honour the Lieutenant Governor, having been informed of the subject matter of the Bill, recommends it to the consideration of the Assembly, the following Bill was received, read the first time, and ordered to be read a second time at the next sitting:

Bill No. 85—An Act respecting Film and Video Classification

*(Hon. Mrs. Duncan)*

### STATEMENT BY MR. SPEAKER

Last Friday a point of order was raised by the Member for Shaunavon to the effect that the reply by the Premier to a supplementary question asked by the Leader of the Opposition was out of order on the grounds that it was not relevant to the question and constituted a speech.

I have reviewed the transcript of the Oral Question Period and wish to bring several matters to the attention of the House. With respect to the specific point of order raised I find the point to be well taken. While the supplementary question was straightforward and offered without debate, the answer given by the Premier did not deal with the matter raised and was in the nature of a speech and was therefore out of order.

Members will recall the disorderly nature of much of Friday's Question Period. A review of the Hansard shows that there were other answers given that were lengthy and not strictly relevant to the question asked. However, it is also clear that many questions included lengthy, argumentative preambles and offered debatable information and thus were also out of order.

I wish to remind Members of the guidelines established by this House for the conduct of Question Period when our current rules were adopted in 1976. The following guidelines are particularly relevant to our current problems:

- Questions must be brief and to the point
- Questions must be stated without preamble or speech or be in the nature of debate
- Questions must seek and not offer information to the Assembly
- Answers to questions should be as brief as possible, should deal with the matter raised, and should not provoke debate

I suggest that Members review the complete guidelines as tabled in the *Report of the Special Committee on Rules and Procedures*, March 12, 1976.

It is my duty, my practice, and my intent, to apply the guidelines for Question Period as fairly and consistently as possible without being so stringent as to unduly interfere with the cut and thrust of the process. I ask for the co-operation of all Members in adhering more closely to the guidelines.

The Assembly, according to Order, resolved itself into the Committee of Finance.

### STATEMENT BY MR. CHAIRMAN

On Friday, during consideration of the Estimates for Saskatchewan Crop Insurance Corporation, I called the Member for Assiniboia-Gravelbourg to order and the Member withdrew remarks charging the Minister with being a 'bagman for the Tory Party'. A review of the Hansard shows an even more serious breach by the Member when he said, on page 2537 of Friday's Hansard, and I quote:

You got out there and you dug up these guys that were good for a thousand bucks each. You're maybe paying them off with a little extra coverage in crop insurance.

I refer all Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, para. 316, which states:

...it has been sanctioned by usage that a Member, while speaking, must not:...(e)impute bad motives or motives different from those acknowledged to a Member; (f) make a personal charge against a Member.

I also refer Members to Rule 26 of the Rules and Procedures of the Legislative Assembly of Saskatchewan which states in part:

No Member shall...use offensive words against the Assembly or any Members thereof.

I find the remarks of the Member quoted above to be out of order and I therefore request the Member for Assiniboia-Gravelbourg to withdraw the said remarks.

Mr. Engel thereupon withdrew the said remarks.

During consideration of item 1 of the Estimates for Saskatchewan Crop Insurance Corporation, it was moved by Mr. Engel:

That we reduce the Minister's salary to \$1.00.

Progress was reported and the Committee given leave to sit again.

The Assembly, according to Order, resolved itself into a Committee of the Whole.

*(In the Committee)*

During consideration of Bill No. 70—An Act respecting the Provision of Financial Assistance to Depositors of Pioneer Trust Company, it was moved by the Hon. Mr. Blakeney:

That section 6 of the printed Bill be amended by renumbering it as section 7 and by adding the following section as section 6:

#### Inquiry

6(1) The Continuing Select Committee of the Legislature shall establish a select committee to conduct a public inquiry into the involvement of the Government of Saskatchewan in the Pioneer Group of Companies and the collapse of Pioneer Trust Company and, in particular but without limiting the generality of the foregoing, into the following matters:

- (a) the regulatory responsibilities of the Government of Saskatchewan with respect to Pioneer Trust Company;
- (b) the agreement of the Government of Saskatchewan to provide a share guarantee to Pioneer Trust Company and its subsequent decision not to proceed with the share guarantee;
- (c) the extent to which any directors or officers of Pioneer Trust Company should be held liable to the province on the basis that their gross mismanagement caused the loss to the depositors; and
- (d) the extent to which any directors or officers of Pioneer Trust Company or other persons have personally and improperly benefited as a result of the offer and withdrawal of the share guarantee mentioned in clause (b).

(2) The select committee established pursuant to subsection (1) may summon and examine under oath Ministers of the Crown, government officials, officers or directors of Pioneer Trust Company or any other persons and may compel the production of all papers it considers necessary in order to conduct a complete investigation into the involvement of the Government of Saskatchewan in the Pioneer Group of Companies and the collapse of Pioneer Trust.

A point of order was raised by the Minister of Finance to the effect that the amendment was out of order on the grounds that it was substantially the same as a previous amendment dealt with on Section 3 of the same Bill regarding a judicial inquiry.

The Chairman ruled the point of order not well taken on the grounds that this amendment was directed towards establishing a legislative committee and was therefore a different amendment and was in order.

A further point of order was raised by the Minister of Finance stating that the inclusion in statute law of a provision forcing the Legislature to establish a select committee was inappropriate.

The Chairman ruled that the point was not well taken, stating that while it is unusual there are no precedents to prohibit this and it is in order for the Continuing Select Committee to be instructed by statute to appoint a committee.

The debate continuing on the amendment and the question being put, it was negated on the following Recorded Division:

STATEMENT BY MR. SPEAKER

Yesterday, the Member for Shaunavon raised a point of order to the effect that the Minister of Labour was refusing to answer an oral question under the *sub judice* convention. I deferred my ruling in order to review the record.

I refer all Hon. Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, p. 118, para. 335 as follows:

Members are expected to refrain from discussing matters that are before the courts or tribunals which are courts of record. The purpose of the *sub judice* convention is to protect the parties in a case awaiting or undergoing trial and persons who stand to be affected by the outcome of a judicial inquiry. It is a voluntary restraint imposed by the House upon itself in the interest of justice and fair play.

The Member for Shaunavon is correct when he says that the *sub judice* convention applies only to cases awaiting or undergoing trial. Therefore, there is no procedural reason under *sub judice* why the questions cannot be asked or answered. However, a Minister may decline to give an answer during Oral Question Period. It is not the role of the Chair to judge the reason given by the Minister. I refer all Hon. Members to *Beauchesne's* again, p. 133, para. 363(1).

A Minister may decline to answer a question without stating the reason for his refusal, and insistence on an answer is out of order, with no debate being allowed. A refusal to answer cannot be raised as a question of privilege, nor is it regular to comment upon such a refusal. A Member may put a question but has no right to insist upon an answer.

I therefore rule that the point of order is not well taken.

The Assembly, according to Order, resolved itself into a Committee of the Whole.

The following Bills were reported without amendment, read the third time and passed:

Bill No. 61—An Act to amend The Department of Revenue and Financial Services Act

Bill No. 62—An Act respecting the Consequential Amendments resulting from the enactment of The Department of Revenue and Financial Services Amendment Act, 1985

Bill No. 77—An Act to amend The Tobacco Tax Act

Bill No. 78—An Act to amend The Corporation Capital Tax Act

Bill No. 44—An Act to amend The Venture Capital Tax Credit Act

The Committee was given leave to sit again.

The Assembly, according to Order, resolved itself into the Committee of Finance.

Progress was reported and the Committee given leave to sit again.

Mr. Speaker,

### MEMBERS OF THE LEGISLATIVE ASSEMBLY

It is my duty to relieve you of further attendance at the Legislative Assembly. In doing so, I wish to thank you and congratulate you on the work you have done.

In this Fourth Session of the Twentieth Legislature you have passed legislation to respond to the challenges and opportunities facing this great province.

You have passed The Mental Health Services Act to ensure that the rights of patients are adequately protected.
