#### 3 O'CLOCK P.M.

The Members having been duly sworn and having subscribed the Roll containing the Oath repaired to their seats in the House.

#### 3.15 о'сьоск р.м.

His Honour the Lieutenant Governor entered the House and took his seat on the Throne.

The Provincial Secretary then said:

I am commanded by His Honour the Lieutenant Governor to inform you that he will defer stating the reasons for which he has

summoned the Legislature until the Legislative Assembly have elected a Speaker. It is, therefore, His Honour's pleasure that the Legislative Assembly do now proceed to the election of a Speaker and present him here for His Honour's approbation.

His Honour the Lieutenant Governor then retired from the House.

Mr. Scott then addressed himself to the Clerk (who, standing up, bowed and then sat down), proposed to the House for their Speaker, John Albert Sheppard, Esquire, Member for the Electoral Division of Moose Jaw County, and moved that he do take the Chair of the House as Speaker, which resolution was seconded by Mr. Calder.

The question being put by the Clerk it was-

Resolved, unanimously, That John Albert Sheppard, Esquire, do take the Chair of this House as Speaker and the Clerk having declared John Albert Sheppard, Esquire, duly elected he was conducted by Messieurs Scott and Calder to the Chair, where he then said:

Gentlemen,----

I beg to express my grateful thanks and humble acknowledgment of the high honour the House has been pleased to confer on me, and while I leave the floor of this House to take the Speaker's Chair I feel that I also leave all political partisan feelings in order that I may discharge with impartiality to all and to the best of my ability the various and important duties pertaining to the high office of the Speaker of the Legislative Assembly of the Province of Saskatchewan.

His Honour the Lieutenant Governor then re-entered the House and took his seat on the Throne.

The Speaker then addressed His Honour to the following effect: MAY IT PLEASE YOUR HONOUR,—

The Legislative Assembly have elected me as their speaker, although I am but little able to fulfil the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error I pray that the fault may be imputed to me and not to the Assembly whose servant I am and who through me the better to enable them to discharge their duty to their King and country, hereby humbly claim all their undoubted rights and privileges, especially that they may have freedom of speech in their debates, access to your person at all seasonable times, and that their proceedings may receive from you the most favourable consideration.

The Provincial Secretary then said: MR. SPEAKER,—

I am commanded by His Honour the Lieutenant Governor to declare to you that he freely confides in the duty and attachment of the Assembly to His Majesty's person and Government, and not doubting that their proceedings will be conducted with wisdom, temper and prudence, he grants, and upon all occasions will recognise and allow, their constitutional privileges.

I am commanded also to assure you that the Assembly shall have ready access to His Honour upon all seasonable occasions and that

their proceedings as well as your words and actions will constantly receive from him the most favourable construction.

His Honour was then pleased to open the Session with the following speech:

Mr. Speaker and Gentlemen of the Legislative Assembly:

It is with great pleasure that I welcome you to this, the first session of the Third Legislative Assembly of Saskatchewan. You are meeting during a time of great and general prosperity; the earth has given of its increase abundantly during the past season, and in every walk of life the beneficial results are evident.

The province has recently been privileged to welcome in person his Royal Highness the Duke of Connaught and Strathearn, the Governor General of the Dominion, together with the Duchess of Connaught and their daughter the Princess Patricia. The keen interest in the welfare of our people displayed by their Royal Highnesses will long be remembered, and I feel that I am but voicing the general opinion in saying that we all heartily reciprocate the spirit of the gracious message which his Royal Highness was so good as to send to me when he was leaving the province on his return journey east, in which expression was given to the feelings of enjoyment which our Royal visitors had had during their sojourn with us, and that the warmth of the welcome they had received everywhere they had been was much appreciated.

When in Regina his Royal Highness was so good as to formally open this building and chamber upon their completion and dedicate them to the purposes for which they have been constructed. I do not doubt that the legislation that shall be enacted here from year to year shall be conceived and framed in the best interests of the people whom you represent.

You have all heard of and rejoiced at the success achieved by the farmers of this province at the Dry Farming Congress recently held in Lethbridge in the Province of Alberta. To carry off the trophy for the best exhibit made by any state or province, as well as a number of individual prizes, many of them being of the first rank, stamps the exhibits made by the province as being of high excellence. The competition at the annual meetings of the Congress is keen, the competing exhibits representing the best that can be done for their several states by the authorities of the Agriculture Colleges and Departments of Agriculture of the majority of those states of the union in the central and western portions of the continent. To be successful in any degree under such conditions is remarkable and worthy of note.

The Agricultural College is now meeting for the first time within the walls of its own building on the grounds of the University of Saskatchewan at Saskatoon. The need for an institution of this nature is universally recognised and I feel assured that your interests in the work now being commenced and to be carried on through its means will be marked by such tangible measures of appreciation as shall result in placing the Agricultural College of this province in the front rank of such institutions.

You will doubtless be pleased to learn that the Saskatchewan Cooperative Elevator Company, an institution created by this Assembly in the interests of the farmers of the province, has successfully completed its first full year of operation and gives every promise of fulfilling the highest expectations of those who were responsible for its organisation. You will I am sure join with me in expressing the hope that by careful management and wise control the operations of this company may be extended so as to bring relief and assistance to an ever increasing number of our grain growers.

The policy which was put into effect at the last session of the former Legislative Assembly, under which has been commenced a concerted and organised effort to put the main roads of the province into such condition as shall render it practicable for the farmer to market his produce with the smallest possible expenditure of time or money is already showing good results. It is earnestly to be trusted that this good work shall be carried on in the spirit in which it has been commenced and that the time shall not be far distant when the disabilities in this direction that our farmers have been suffering from in the past shall have been removed.

The rapid growth of the province and the consequent immense increase in the public services devolving upon my government required me to add to the number of my advisers during the recess. To give efficacy to their work a reorganisation of some of the departments of the public service will be necessary and you will be asked to make provision for doing so.

The live stock industry in this province in view of conditions at home and abroad calls for your serious consideration. The Legislative Assembly in the past has given some assistance to this industry, but the present situation seems to call for greater activity in this direction. The advisability of providing means whereby the needs of our farmers and of our farms for more live stock may be met will no doubt be considered by you.

Your attention will also be invited to the question of the present cost of loans to farmers, and you will be asked to make due provision for holding an inquiry into the several phases of the whole subject with a view to ascertaining the best solution for this important problem. The question of taking some action tending towards the establishment of internal storage elevators will also be submitted to you for consideration.

During the session you will be called upon to consider several measures of great interest to our people. Among these will be found bills making provisions for direct legislation, consolidated schools, the abolition of local improvement districts and the regulation and control of loan companies. It is also proposed to adopt a better system of municipal assessment, to modify the present method of assessment in town and village school districts and to place our rural telephone companies on a sounder financial basis.

Notwithstanding the fact that my government, carrying out the instructions of the last Assembly, has made repeated attempts to arrange for a conference with the federal authorities for the purpose of discussing and arranging for the transfer to the province of its lands and other natural resources, the date for such conference has not yet been fixed. Under the circumstances and especially in view of the practically un-

animous mandate of the people my government feel that the question should again be submitted to you for consideration and for such action as may be deemed best in the interests of our province.

## GENTLEMEN OF THE LEGISLATIVE ASSEMBLY:

The Public Accounts of the province for the past fiscal year will be laid before you, as well as the estimates of revenues and expenditures for 1913-14. These you will find have been prepared with all due regard to economy and the efficiency of the public service.

I now invite your best attention to the business of the session and invoke the Divine blessing on your deliberations.

His Honour was then pleased to retire.

Mr. Speaker informed the House that in order to prevent mistakes he had obtained a copy of the Speech of His Honour the Lieutenant Governor which was laid on the table.

Ordered, That Mr. Scott have leave to introduce a Bill respecting the Administration of Oaths.

He accordingly presented the said Bill and the same was received and read the first time.

Moved by Mr. Scott, seconded by Mr. Calder,

On motion of Mr. Bole, seconded by Mr. Bradshaw,

Ordered, That the Report be now concurred in.

Mr. Watson asked the Government the following question:

Is it the intention of the Government to extend next spring the Long Distance Telephone Line from Rosetown to Macklin?

Mr. Calder answered as follows:

The Government has not as yet decided its long distance construction programme for the year 1913. The proposed Rosetown-Macklin line is included in the programme to be considered.

Mr. Simpson asked the Government the following question:

1. At what points in the Province has the Government arranged for Normal Sessions for third class students?

2. Is it the intention of the Government that Normal Sessions should be held at these points annually. If so, when is it proposed to provide the necessary buildings?

3. Does the Government intend to establish in the north-western part of Saskatchewan a permanent normal school for the training of first and second class teachers. If so when and where?

Mr. Scott (Swift Current) answered as follows:

1. Arrangements have been made to hold Normal Sessions for third class students at Moosomin, North Battleford, Prince Albert, Estevan, Yorkton, Moose Jaw and Saskatoon.

2. The points at which Normal Sessions are held for third class teachers is determined each year by the number of students applying and their residence. Permanent centres are not fixed.

3. Not immediately. There are at present permanent Normal Schools for the training of first and second class teachers at Regina and Saskatoon, and there is not yet a sufficient number of students to warrant the establishment of a third Normal School. Mr. Bradshaw asked the Government the following question:

Has the Government of Saskatchewan received for its consideration and approval from the Canadian Northern Railway Company, the route, right of way or location plans for a line of railway running in a north-easterly direction from Prince Albert to a point on the Government Hudson Bay Railway at or near Split Lake?

2. September 25, 1912. No.

3. Within the near future.

Mr. Bradshaw asked the Government the following question:

Has the Government of Saskatchewan completed arrangements with the Grand Trunk Pacific Railway Company for the construction of a railway and traffic bridge across the South Saskatchewan river at or near St. Louis crossing?

If arrangements are not completed for the bridge, what is the cause of the delay?

Will the Government give the House the assurance that this bridge will be provided for during the years 1912 or 1913?

Mr. Calder answered as follows:

1. The Government has not completed any arrangement for the construction of a joint railway and traffic bridge at St. Louis.

2. The Government understands that the construction of the railway bridge has been delayed because the Railway Company concerned was unable this year owing to the condition of the London money market to secure the funds necessary to carry out many of its under-takings.

3. The Government is not in a position to give such assurance.

Moved by Mr. Scott (Swift Current), seconded by Mr. Calder,

That whereas, during the Saskatchewan Provincial Elections of 1912 the Government of the Dominion of Canada, in an endeavor to bring about the overthrow of the Administration then and now in office in this Province, did by unconstitutional and illegal methods participate in the conduct of the campaign in the interests of one of the Provincial parties;

And whereas such interference consisted partly of statements and declarations of policy made at public gatherings in this Province by Ministers of the Federal Government affecting the constitutional relations of the said Government and the Government of this Province, such statements and declarations being of such a nature as to indicate the inauguration within Canada of a radically new and dangerous policy in regard to such relations between the Government of Canada and the Government of the respective province of Canada;

슻

And whereas such interference consisted partly in the participation by unlawful methods of a large number of officials of the Dominion Government and particularly of the Department of the Interior in the said campaign;

And whereas subsequent to the said elections the Honourable Robert Rogers, the Minister in charge of the said Department of the Interior, speaking at the city of Montreal in explanation of the result of the said campaign and of the defeat of the political party upon whose behalf the aforesaid federal influence had been exercised, is reported in the Montreal *Gazette* in its issue of September 23, 1912, to have said as follows:

"Sentiment in the Province of Saskatchewan in favour of reciprocity?" he said. "No, no. In that province we have a very large foreign population, and I want to say here that a great many of these foreigners have taken on the responsibilities of our Canadian citizenship. I say further that such as have are numbered among our best citizens and our most loyal British subjects. Unfortunately, we have another class who have not assumed these responsibilities, and it was to that class that the Liberal party and the Liberal press of that province made their appeal in the recent contest. You naturally ask me what purpose they could have to serve in appealing to a class of men who were neither British subjects by birth or naturalisation and who could not for that reason exercise their franchise.

"My answer is that if these men lived in any other province in Canada than in Saskatchewan they could not exercise their franchise, but you all know that we have a Dominion naturalisation law in Canada. That law is supported, maintained and upheld in every province of the Dominion to the extent that each province places upon its statute book an oath which every elector who asks for a ballot is obliged to take before voting to the effect that he is either a British subject by birth or naturalisation. It existed upon the statute book of Saskatchewan until a few days previous to the election. Then the Premier, of that Province introduced an Act by which they wiped out that part of the oath where a man was obliged to swear that he was a British sub-That was to enable them to pull the vote in favour of and in symiect. pathy with them in that contest. It was the result of that vote that elected and returned that Government. That method was practised in every county within the borders of the Province."

#### Much Improper Voting.

"In one constituency where things were by no means at their worst, 1,914 votes were polled, and of these 214 votes were cast by men who were not naturalised British subjects. In addition to that, over three hundred loyal British subjects in that same county were denied the franchise to which they had a right. As the result the Liberal candidate was elected by a majority of eighty. That is what the Liberal press calls sentiment in favour of reciprocity. Among the classes of people to whom I refer there may be a strong sentiment of something else as well, as was evidenced on the day following when a motor procession was organised to do honour to the Premier. Some of

those taking part felt that full and complete honour could not be done without decorating their motors with the Stars and Stripes. That is what these men called sentiment in favour of reciprocity. How could there be an honest sentiment in favour of reciprocity in view of what has occurred since the recent contest?"

And in the Montreal Star of the same date to have said as follows:

"Our friends the Liberals as I said before are proud of the victory their party gained in the Province of Saskatchewan in the provincial elections, and they claim that it is proof that there is a very strong sentiment in favour of reciprocity in that part of the country at least. Well, let me explain to you what that sentiment consists of. There are in the Province of Saskatchewan a very large number of foreigners, many of them have become very good citizens of this country, some of them are even real examples of loyalty and devotion to the Crown and But there are also a number of others who have never consented flag. to take the oath of allegiance and who still have the right to vote, and let me say that it is to the latter that the Liberals appealed most particularly during the last elections in the Province of Saskatchewan. If those men were living in any other part of the country they would not be allowed to exercise the franchise, because every man who wishes to cast his ballot is required to swear, if called upon to do so, that he is a British subject. In Saskatchewan that obligation has been removed from the statute books, and this was done by the Liberals so that they might obtain the support of that class of foreigners. These conditions existed in every county of the province at the time of the elections, and in one particular county 214 votes were given by men who had not the right to claim the title of British subjects!" (Cries of "Shame!")

And whereas the said statements of the Honourable Robert Rogers contain allegations which if true indicate the existence within Saskatchewan of a condition of affairs dangerous to the national life of this Dominion, and which if false are a grave defamation of the Government and the people of this Province;

And whereas it is of the utmost importance that the fullest investigation to be held into the foregoing matters, viz.: the interference of the Dominion Government in the said election campaign and the statements made by the said Honourable Robert Rogers in explanation of the result of the said campaign;

Therefore be it resolved,

That the select Standing Committee of this House on Privileges and Elections shall immediately arrange for and conduct an inquiry into the said several matters, and that the said committee be instructed to report to this House its findings upon the said inquiry.

And the Question being proposed,

And a debate arising thereupon,

It was moved in amendment by Mr. Willoughby, seconded by Mr. Wylie,

That all words after "That" in the Resolution be struck out and the following substituted therefor:

And whereas at the elections held in 1905 and 1908 for the Legislative Assembly of Saskatchewan, the Honourable Frank Oliver, then Minister of the Interior, and Ministers of the Alberta Government, did take an active part in such elections in favour of the Liberal party;

And whereas Ministers of the Alberta Government did participate 40 in the elections of 1912; And whereas the holding an inquiry before the Committee on Privileges and Elections could not be concluded at the present Session of the Assembly for want of time; and as it is desirable that such matters should be speedily investigated; And whereas, the said Committee is, to some extent, composed of Members of the Assembly whose return was affected by the improper and unfair election lists used at the election of 1912: And whereas, persons not entitled to the franchise were encouraged to place their names on such lists; And whereas voters were induced by supporters of the Government to believe that they could vote, whether aliens or otherwise, if their names appeared on the lists; And whereas, in the interests of good government in the Province it is expedient that the matters referred to in the recitals of the resolution and all other matters pertaining to the late elections should be impartially investigated as well as the matters referred to herein;

Therefore be it resolved that all matters referred to in the said resolution of the Honourable the Premier, including all matters referred to herein, and more particularly the election lists used at the election of 1912, and methods of their preparation with special reference to the names of qualified electors omitted from such lists and names of unqualified voters placed thereon be referred for investigation to a commission composed of Judges of the Supreme Court of Saskatchewan, with power to hold sittings at the most convenient places therefor and call for all papers and documents and to summon all necessary witnesses and that such Commission do report to this House.

And the Question being put on the amendment,

And a debate arising,

And the debate continuing,

And the Question being again put on the amendment,

The House divided and the names being called for were taken down as follows:

It was moved in amendment by Mr. Calder, seconded by Mr. Motherwell,

That all the words after "resolved" to the end of the question be left out, and the following words be inserted instead thereof:

That the following members of this Assembly, namely: Messrs. Yes. A resolution of the Colgate Board of Trade and a communication from a citizen of Webster respecting this question were received. No reply has been received from the Canadian Northern Railway up to the present time.

Mr. Stewart asked the Government the following question:

The co-operation of the Saskatchewan Grain Growers' Association in directing attention to the provisions of the Act was asked and secured. A speaker has been supplied by the department to address meetings of ratepayers and grain growers whenever a request to that effect has been received. Some 12,000 copies of The Hail Insurance Act in English, French, German and Ruthenian, and 40,000 copies of a simple explanation of the provisions of the Act have been distributed either direct from the department in response to requests or through the medium of municipal secretaries and a heavy general correspondence upon the subject has been conducted.

2. Yes. 154 municipalities or districts have advised the department that the requisite bylaw has been given first and second readings by their council and will be submitted to a vote of the ratepayers at the municipal elections. 35 municipalities or districts have advised the department that their council, after giving the matter consideration, has decided to take no action therein. 82 municipalities or districts have made no response to the various communications addressed to them by the department upon this question.

Moved by Mr. Sutherland, seconded by Mr. Magee,

Whereas during recent years the more advanced countries of the civilised world have recognised the necessity and are making ample provision for carrying on a class of educational work intended to improve, the skill, efficiency and scientific knowledge of their farmers, mechanics and artisans, thereby materially increasing the earning power and wealth of those nations;

And whereas it has come to be generally recognised that the existing school systems of Canada do not make proper and sufficient provision for furnishing the masses of the people with a technical, industrial or agricultural training;

And whereas it is in the interest of the Dominion as a whole that this educational problem should be grappled with and solved by the adoption of an aggressive policy involving upon each province the annual expenditure of a very large sum of money;

Therefore be it resolved that in the opinion of this House it is desirable:

- (a) That the Parliament of Canada should appropriate annually for a period of years a sufficient sum of money to enable each of the provinces to improve and extend its educational system so as to suitably provide for the class of training and education above cited;
- (b) That the moneys appropriated by Parliament for this purpose be granted to the several provinces of Canada on the basis of population;
- (c) That each of the said Provinces be required to enter into an undertaking to the effect that any grants thus received shall be expended solely for the purpose for which it is voted.

And the Question being proposed,

And a debate arising,

And the debate continuing,

And the Question being again proposed,

It passed unanimously.

On motion of Mr. Sutherland, seconded by Mr. Magee, -

Resolved, That an Humble Address be presented to His Honour the Lieutenant Governor praying that copies of a Resolution concerning Technical Education be forwarded to the Secretary of State for Canada for transmission to His Royal Highness the Governor General in Council, and to the Provincial Secretary of each of the Canadian provinces for transmission to the Lieutenant Governor in Council of each such province.

Mr. Bole, from the Standing Committee on Standing Orders presented the following report:

Your Committee have examined the petition of P. A. Salter and three others praying for An Act to incorporate the Village of Balcarres as a Town under the name of the Town of Balcarres, and find that the provisions of Rule 51 concerning the advertisement have not been fully complied with, but your Committee recommend that leave be given to introduce the Bill.

On motion of Mr. Bole, seconded by Mr. Bradshaw, Ordered, That the Report be now concurred in.

Mr. Robinson asked the Government the following questions:

1. How many gun and game licenses were issued by the Government during the current year?

2. What is the total revenue received from this source?

Mr. Motherwell answered as follows:

1. The returns are as yet incomplete owing to the fact that the year has not yet closed. Returns have been received up to and including November 30th for:

(b) 24 \$10.00 Nonresident 6 day game bird licenses.

(d) 156 \$ 2.00 Resident big game licenses.

2. The total receipts from March 1 up to November 30 are \$7.006.05.

Mr. Totzke asked the Government the following question:

Is it the intention of the Government during the present Session of the House to introduce a Bill handing over to the University of Saskatchewan the control and regulation of the various professions practised in the Province?

Mr. Scott (Swift Current) answered as follows:

The Government has not as yet reached a decision respecting this important matter.

Mr. Johnston (Pelly) asked the Government the following questions:

1. Will the long distance telephone line be constructed next summer from Canora eastward through Kamsack and other stations on the Canadian Northern Railway to the Manitoba boundary?

2. Will connection be then made at or near Togo with the Manitoba long distance line and the necessary arrangements with the Manitoba Government completed for telephone connection with Manitoba points?

Mr. Calder answered as follows:

1. Construction programme for next season has not yet been decided upon. The line from Canora eastward will be considered with others when decision is being arrived at.

2. The Manitoba Commission will be approached with a view to making arrangements for connection with the Manitoba system at or near Togo.

Mr. Magee asked the Government the following questions:

1. What steps, if any, have been taken by the Canadian Northern Railway Company in connection of the two lines of railway in the southern portion of the Moose Mountain constituency guaranteed by the Legislature at its last session?

2. When is it expected that grading will be commenced on these lines?

Mr. Calder answered as follows:

1. The Lampman-Kipling branch has been surveyed and application has been made by the Railway Company for approval of route. Preliminary surveys are under way for the Kaiser-Swift Current branch but as yet the company has not applied for approval of route.

2. During the year 1913.

3. The Government is not at present in a position to give an assurance that these lines will be completed in 1913.

Moved by Mr. Robinson, seconded by Mr. Johnston (Melfort),

Whereas in Western Canada the cost of producing grain and the cost of living have steadily increased for a number of years past;

And whereas the farmers of Saskatchewan are at present being deprived of the advantage of the United States grain markets, thereby entailing a loss to them of millions of dollars annually;

And whereas it is desirable that steps should immediately be taken to bring about at least a partial measure of relief for the enormous loss thus sustained; And whereas such partial relief may be attained by adjusting the tariff law of Canada so as to bring about a lowering of the price of rough lumber, cement, coal oil, gasoline, traction engines, separators and farm implements generally;

And whereas such a relief measure is the more warranted because in spite of ample protection for a long term of years the Canadian manufacturers of agricultural machinery and supplies are unable to satisfy the home demand;

Therefore be it resolved that in the opinion of this House it is the duty of the Government of Canada at the present session of Parliament to introduce and further legislation that will have as its objects:

- (a) The entry into Canada free of duty of lumber, all grades of gasoline, coal oil, machine and lubricating oils;
- (b) A substantial reduction if not abrogation of the duties upon cement and all kinds of agricultural machinery and implements;
- (c) An immediate increase of the British preference and the gradual ultimate of free trade within the Empire.
- And the Question being proposed,

And a debate arising,

And the debate continuing,

On motion of Mr. Willoughby, seconded by Mr. Donaldson,

Ordered, That the debate be adjourned.

On motion of Mr. Watson, seconded by Mr. Scott (Tramping Lake),

Atkinson and G. A. Foster, and the sale to them of certain lots, namely lots 11 and 12 on the north side of Nineteenth street, west of Central avenue in the Town of Battleford, and to authorise the said Trustees to execute a legal and proper transfer conveying the title to said lots to the said F. G. Atkinson and G. A. Foster.

On motion of Mr. Mitchell, seconded by Mr. MacNeill,

Ordered, That the Report be now received.

Mr. Cawthorpe asked the Government the following question:

Has the Government any knowledge regarding a coal shortage in the Province. If so, what is being done by the Government to relieve the same?

Mr. Motherwell answered as follows:

The Government has knowledge of a coal shortage existing at the present time at only one point in the Province, namely, the village of Harris on the Goose Lake branch of the Canadian Northern Railway. Steps were taken several days ago to secure such information as to delayed shipments as would enable the department to hasten the movement to Harris of such coal as was on order and an assurance was received from the Canadian Northern Railway Superintendent for the district that all shipments of coal, and particularly those consigned to points on the branch line of railway mentioned were receiving special consideration.

Ordered, That Mr. Bole have leave to introduce a Bill to incorporate The Prairie Loan and Investment Company.

He accordingly presented the said Bill and the same was received and read the first time, and

Moved by Mr. Scott (Swift Current), seconded by Mr. Turgeon, Whereas by a resolution of this House adopted on the twenty-fifth day of November, 1912, Messrs. Bole, Bradshaw, McNeill, McGee and Tate, members of this House, were appointed a select committee for the purpose of holding an inquiry into certain matters set out in the said resolution;

And whereas the said committee is now holding its sittings and conducting the said Inquiry;

And whereas certain telegrams were forwarded by the said committee through the chairman thereof to the Honourable Dr. Roche and the Honourable Mr. Rogers notifying them of the sittings of the said committee and offering them an opportunity to attend the said sittings and produce evidence thereat;

And whereas subsequently on the second day of December, 1912, an article entitled "Scott's Flimsy Subterfuge" was published in *The Daily Province Newspaper of Regina* of which the following paragraphs are extracts:

"It is to be hoped that Hon. Robert Rogers and Hon. Dr. Roche "treat the telegrams sent them by the Scott Government partisan in-"vestigating committee with the contempt they deserve."

"To appear before the partisan committee appointed by the Scott "Government would be to subject themselves to indignity and unfair-"ness. The personnel of the government portion of the committee is "sufficient to guarantee this. After Premier Scott refused an inde-"pendent commission there is no hope of fairness from his partisan "committee. Messrs. Rogers and Roche are not responsible to the "Scott Government, and would be foolish to countenance its attempt to "hide its crooked work by recognising the partisan committee."

"The committee is a farce, a cheap political trick of a gang of "political tricksters, and Messrs. Rogers and Roche should treat it as "such."

And whereas on the third day of December, 1912, another article entitled "The Packed Jury," was published in the said *Daily Province* of which the following paragraphs are extracts:

"Mr. Turgeon has said that *The Province* has been guilty of con-"tempt toward the Legislature. *The Province* has nothing to retract, " "and if its words bear the construction placed upon them by Mr. Tur-"geon the Legislature is responsible."

"If Hon. Robert Rogers or Hon. Dr. Roche recognise the partisan "tribunal of a government elected by the most infamous methods they "will be assisting in degrading public life. Imagine justice from Bole, "McNeill and Magee, but more especially imagine fair play from these "men when they are the creatures of Turgeon, Calder and Scott."

And whereas in the opinion of this House the aforesaid extracts and the general tenor of the articles from which they are taken constitute:

- (a) A libel upon certain members of this House in their capacity as members of the aforesaid select committee;
- (b) A contempt against the honour and dignity of this House and a select committee thereof;
- (c) An infringement of one of the most important privileges of this House.

Therefore this House desires to place on record its disapproval of the said publications.

And the Question being proposed,

And a debate arising,

And the debate continuing,

And the Question being again proposed,

The House divided and the names being called for were taken down as follows:

Yager and two others praying for an Act to incorporate The Empire Mortgage Trust Company and find that the provisions of Rule 51 concerning the advertisement have not been fully complied with, but your Committee recommend that leave be given to introduce the Bill.

On motion of Mr. Bole, seconded by Mr. Bradshaw,

Ordered, That the Report be now concurred in.

Mr. Bole from the Select Committee on Privileges and Elections presented the following report:

In view of the situation which arose in the Committee on Friday last, and which was reported to the House on that date, and as a result of which the work of the Committee has since been suspended, the Committee now deems it advisable to make an interim report on the evidence so far admitted to the said Committee.

As to the first question to be inquired into, viz.: the unconstitutional and illegal participation of the Federal Government in the receut provincial elections, copies were filed of the following newspapers: the Regina *Daily Province* of June 11, 1912, the Saskatoon *Phoenix* and the Saskatoon *Star* of June 27, 1912, and the Yorkton *Enterprise* of June 27, 1912. These newspapers contain reports of speeches delivered in Saskatchewan by the Hon. Dr. Roche, then Secretary of State, upon the question of the transfer by the Dominion to the province of the natural resources of the province. Certificates of conviction and of the depasitions in the cases of King v. Alfred Smyth and the cases of King v. Lange were also filed. These documents go to show the use of intimidation and other illegal methods by homestead inspectors and others in the said election.

As to the charges made by the Hon. Robert Rogers, copies were filed of the Montreal *Star* and the Montreal *Gazette* of September 23, 1912, containing reports of Mr. Rogers' speech at Montreal on September 21, 1912; these reports are similar to the quotations set out in the Resolution appointing this Committee. Evidence was also given by Mr. Phin, M.L.A., and Charles Whitman, registrar of voters' lists for the Electoral Division of Pipestone, as to the conditions of the voters' lists in the said electoral division.

Telegrams were sent on November 29th by the Committee to Hon. Dr. Roche and Hon. All correspondence between the Government of this province and the late Government of Sir Wilfrid Laurier, touching the transfer by the Dominion of Canada to this province of the public lands and natural resources of the province. (Sessional Paper No. 28.)

Moved by Mr. Turgeon, seconded by Mr. Bell,

Whereas at the last Session of the Parliament of Canada a Bill was introduced by the Dominion Government providing for the expenditure by the said Government of certain sums of money in the construction and improvement of highways in the various provinces of Canada;

And whereas it is reported to be the intention of the Dominion Government to introduce similar legislation at the present session of the Parliament of Canada;

And whereas according to the true intent and interpretation of the Canadian constitution the control of highways and of all subjects pertaining to the building and improving of highways within a province are matters of provincial concern; And whereas as a consequence it would seem that any action taken by the Parliament of Canada assuming to vest the control of such matters in the Government of Canada and to provide for the expenditure thereon of moneys taken from the revenue of Canada, constitutes:

1. An attempt to usurp the jurisdiction of the Provincial Legislatures in a matter of purely provincial concern;

2. An assumption that expenditures should be made upon the construction and improvement of highways in the various provinces in addition to the amounts which the said Provinces are in a financial position to make and consequently that the subsidies granted the several provinces under the terms of Confederation are inadequate for the proper carrying on of important works of provincial responsibility;

Therefore be it resolved that this House deems it to be its duty to direct the attention of the Federal and Provincial Governments of Canada to the constitutional question involved in the contemplated action of the Federal Government with respect to the improvement and construction of highways;

And be it further resolved that in the opinion of this House it is desirable before any further action is taken by the Federal authorities in the direction of providing for highway construction and improvement in the several provinces of Canada that the Governments of the said provinces should be called together in conference with the Federal authorities for the following purposes, namely:

(a) The consideration of the constitutional question involved in the said proposed action of the Dominion Government;

(b) The consideration of the advisability of so increasing the annual grants and subsidies payable to the several provinces to enable them to make proper provision for any additional expenditure that may be necessary for highway construction and improvement.

And the debate continuing,

The Order of the Day being read for the adjourned debate on the Resolution moved by Mr. Turgeon, seconded by Mr. Bell:

Whereas at the last session of the Parliament of Canada a Bill was introduced by the Dominion Government providing for the expenditure by the said Government of certain sums of money in the construction and improvement of highways in the various provinces of Canada;

And whereas it is reported to be the intention of the Dominion Government to introduce similar legislation at the present session of the Parliament of Canada;

And whereas according to the true intent and interpretation of the Canadian constitution the control of highways and of all subjects pertaining to the building and improving of highways within a province are matters of provincial concern;

And whereas as a consequence it would seem that any action taken by the Parliament of Canada assuming to vest the control of such matters in the Government of Canada and to provide for the expenditure thereon of moneys taken from the revenue of Canada constitutes:

1. An attempt to usurp the jurisdiction of the Provincial Legislature in a matter of purely provincial concern;

2. An assumption that expenditures should be made upon the construction and improvement of highways in the various provinces in addition to the amounts which the said provinces are in a financial position to make and consequently that the subsidies granted the several provinces under the terms of Confederation are inadequate for the proper carrying on of important works of provincial responsibility;

Therefore be it resolved that this House deems it to be its duty to direct the attention of the Federal and Provincial Governments of Canada to the constitutional question involved in the contemplated action of the Federal Government with respect to the improvement and construction of highways;

And be it further resolved that in the opinion of this House it is desirable before any further action is taken by the Federal authorities in the direction of providing for highway construction and improvement in the several provinces of Canada that the Governments of the said provinces should be called together in conference with the Federal authorities for the following purposes, namely:

(a) The consideration of the constitutional question involved in the said proposed action of the Dominion Government.

(b) The consideration of the advisability of so increasing the annual grants and subsidies payable to the several provinces to enable them to make proper provision for an additional expenditure that may be necessary for highway construction and improvement.

And the debate continuing,

And the Question being proposed,

It was moved in amendment by Mr. Wylie, seconded by Mr. Davidson,

That all the words after "That" be struck out, and the following substituted:

That whereas the Government of the Dominion of Canada introduced at its last session an Act to Encourage and Assist the Improve-. ment of highways;

And whereas the passing of such Act was defeated by the action of the Senate of Canada;

And whereas the Government of the Dominion of Canada has signified its intention of reintroducing the said Bill at the present session thereof;

And whereas by the provisions of the said proposed Act the same would come into effect in Saskatchewan only on its receiving the approval of the Legislature of the Province and the consent of the Lieutenant Governor in Council;

Therefore be it resolved, That this House do express its approval of the announced policy of the Dominion Government to aid in the construction and improvement of the Highways of the Province and that the Lieutenant Governor in Council be requested to give his approval to such measure in the event of the same being passed by the Dominion Government.

And whereas it is desirable that this policy which has been so beneficial to the wage earning classes employed on public works should be extended to all undertakings over which the Government has control.

And whereas the attention of the Government of Canada has been directed to the said resolution;

And whereas no action has been taken by the Government of Canada to transfer the control and administration of the said endowment to the provincial authorities;

Moved by Mr. Scott (Swift Current), seconded by Mr. Bell,

I That whereas the Government of the Dominion of Canada is pledged to the policy of transferring to Saskatchewan the public domain within its limits;

And whereas the Government of Saskatchewan, pursuant to a Resolution of this House passed at its last Session, has directed the attention of the Dominion Government to the expediency of making the said transfer at as early a date as possible;

And whereas notwithstanding its said pledge and the representations made by the Government of Saskatchewan the Government of Canada has as yet taken no action towards arranging for the said transfer;

And whereas in the interests of this Province and of Canada as a whole it is desirable that the questions involved in the matter of the said transfer be settled forthwith;

Therefore be it resolved that in the opinion of this House the Government of Saskatchewan should continue to urge upon the Government of Canada the necessity of arranging for the said transfer without further delay.

And a debate arising,

3

- And the debate continuing,

It was moved in amendment by Mr. Bradshaw, seconded by Mr. Wylie.

That all the words after "that" be struck out and the following substituted :

Whereas the Hon. Walter Scott, Premier of the Province of Saskatchewan, by accepting such office on the granting of Autonomy to the Province indorsed the attitude and position of the Government of Sir Wilfrid Laurier in withholding from the Province its natural resources;

And whereas in the elections held for this Assembly in 1905 and 1908 the people sustained the position of the Hon. Walter Scott on the Laud Question;

And whereas at the said elections of 1905 and 1908 the Hon. Walter Scott being Premier of the Province took the position that the so-called Land Question had been finally and constitutionally settled, and that such settlement made by the Autonomy Bill of a cash payment was better for the Province than obtaining its natural resources;

And whereas the Members of the Government and their supporters declared in the election of 1912, that the dominant issue was Reciprocity;

And whereas the people of this Province have never been given any direct mandate to this Government to demand the natural resources thereof;

And whereas this Province has suffered damage by the attitude of the Government in preventing expression of opinion on the land question and thereby delaying a proper settlement of the question;

Therefore be it resolved until such time as the electors of the Province shall give an unequivocal mandate in favour of demanding its natural resources in lieu of the present subsidy any action of this House would be premature.

Aud the question being put on the amendment.

And a debate arising,

And the debate continuing,

And the Question being again put on the amendment.

The House divided and the names being called for were taken down as follows:

Moved by Mr. Turgeon, seconded by Mr. Scott (Swift Current), Whereas the Hon. Robert Rogers, ex-Minister of the Interior, and now Minister of Public Works in the Government of Canada, speaking at Montreal on the 21st day of September, 1912, in reference to the Saskatchewan Provincial election of 1912, is reported in the Montreal *Daily Star* of September 23, 1912, and in the Montreal *Gazette* of the same date to have made statements to the following effect:

- (a) That there exists in the Province of Saskatchewan a large class of foreigners who do not wish to become British subjects and who are animated by an anti-British and anti-Canadian sentiment;
- (b) That the Liberal Party made their appeal particularly to this class of men in the said election;
- (c) That the election law of Saskatchewan was designed purposely to allow this class of people and aliens generally to vote without acquiring the qualifications of British citizenship;
- (d) That the voters' lists were prepared in such a manner that a large number of these anti-British and anti-Canadian foreigners and of aliens generally were unlawfully placed upon such lists and a large number of duly qualified British subjects were unlawfully omitted from such lists;
- (e) That the Liberal Party won the said election on account of votes improperly cast by the aforesaid foreigners and by aliens generally and of the unlawful exclusion from the franchise of duly qualified British subjects.

And whereas the aforesaid statements constitute charges which if true indicate the existence within Saskatchewan of a condition of affairs dangerous to the national life of this Dominion and if false are a grave defamation of the Government and the people of this Province;

And whereas this House, desirous of having an inquiry made into these charges and other matters of importance concerning the said Provincial election of 1912, did on November 25, 1912, appoint a Select Committee of the House to inquire into the same;

And whereas on November 29, 1912, a telegram was forwarded by the said Select Committee to the Hon. Robert Rogers calling his attention to the aforesaid newspaper reports of his speech and offering him an opportunity to substantiate the charges made by him;

And whereas the said Hon. Robert Rogers did not reply to the said telegram or produce any evidence before the said Select Committee in substantiation of the aforesaid charges;

And whereas in the opinion of this House the aforesaid charges are false and constitute a serious defamation of the people and the Government of this Province;

And whereas in the opinion of this House the conduct of the said Hon. Robert Rogers in publishing the aforesaid charges and refusing subsequently to substantiate the same before the tribunal properly constituted for that purpose by this House is regrettable and reprehensible:

Therefore be it resolved that this House express its regret at the aforesaid conduct of the Hon. Robert Rogers, and is of the opinion that the Government of Saskatchewan should take steps to call thereto the attention of His Royal Highness the Governor General in Council and of the Parliament of Canada. And the Question being proposed,

And a debate arising,

And the debate continuing,

And the Question being again proposed,

It was resolved in the affirmative.

The House according to Order resolved itself into Committee of the Whole on the Bill (No. 47) to incorporate the Regina-Moose Jaw Interurban Railway, and after some time spent therein Mr. Speaker resumed the Chair and Mr. Bole reported the Bill.

Ordered, That the Report be now received.

Ordered, That the Bill (No. 47) be read a third time at the next sitting of the House.

Moved by Mr. Calder, seconded by Mr. Scott (Swift Current),

That whereas it is the declared policy of the Government of Canada to transfer to the Province of Saskatchewan its public domain;

And whereas on the fourteenth day of March, 1912, the Legislative Assembly of Saskatchewan unanimously passed a resolution to the effect that the Government of Saskatchewan should proceed with negotiations with the Government of Canada as speedily as possible for the purpose of having transferred to the Province its public domain;

And whereas pursuant to the unanimous wish of the Assembly expressed by the said resolution steps have been taken by the Government of Saskatchewan to arrange for a conference with the Federal authorities for the purpose of having transferred to the Province its public domain;

And whereas subsequent thereto and during and immediately prior to the general Provincial elections held in Saskatchewan in July, 1912, the Hon. Dr. Roche, the then Secretary of State in the Federal Government, attended and addressed public political gatherings in the Province;

And whereas the following are extracts from the reported speeches made at these gatherings by the said Hon. Dr. Roche:

"Mr. Borden would not be right in forcing the resources upon an unwilling people as represented in the Provincial Legislature, he deelared. He did not think that that was the wish of the people, though that had been the expression of their representatives in the House. If the people returned Haultain, and he believed they would, they would be in a position to give Mr. Borden a real expression of their opinion." (Regina Daily Province, June 11, 1912.)

"Mr. Borden at that time favoured the handing over of your public domain," continued Dr. Roche. "Putting the question seriously, would it be fair, and would it be right for Mr. Borden to force his former policy on an unwilling people? Any other result than the placing of the Haultain party in power on July 11 would be tantamount to saying that you were satisfied with your present conditions."

(Saskatoon Daily Phænix, June 27, 1912.)

"If you desire to secure the ownership of your public domain and if you would assure the Government at Ottawa you are in earnest

on this question, you cannot do it in any more convincing manner than by sending to Regina the men who have held the opinion in spite of all opposition, that the lands of this Province should be returned to the people of Saskatchewan.

"If the Scott Government is returned the Ottawa Government will be perfectly justified in assuming that the people of Saskatchewan do not want the public domain. Premier Borden intends to fulfil his pledges and return to Saskatchewan and Alberta the public domain belonging to these Provinces, but you can realise how difficult this will be if the Scott Government is elected, a Government which has no sympathy with such a policy and which is on record as being unalterably opposed to it."

(*The Yorkton Enterprise*, June 27, 1912.) And whereas this House is of opinion that the said statements reported to have been made by the said Hon. Dr. Roche constitute:

- (a) A dangerous departure from the recognised policy of nonpartisan consideration which has heretofore existed and in the interest of Confederation should continue to exist in the treatment by the Federal Government of questions affecting the constitutional relations of Canada as a whole and any or whole of the Provinces of Canada;
- (b) An attempt to intimidate and coerce the electors of Saskatchewan in the exercise of their franchise.

And whereas the said Hon. Dr. Roche has neglected and refused to explain his position with regard to the said reports although invited to do so;

Therefore be it resolved that in the opinion of this House the matters herein referred to are of such a grave character as to demand that they be brought to the attention of His Royal Highness the Governor General in Council and of the Parliament of Canada.

The Order of the Day being read for the second reading of the Bill (No. 73) to amend The Rural Municipality Act (No. 2).

The said Bill was accordingly read a second time, and

Ordered, To be committed to a Committee of the Whole House today.

Mr. McNab, a Member of the Executive Council, laid on the Table the following:

Return to an Order of the House dated December 4, 1912, showing:

1. The total cost of the Legislative Buildings to date, including:

- (a) The cost of site;
- (b) The improvements to the same;
- (c) The cost of buildings;

(d) The cost of furnishings;

(e) The total estimated cost to complete the building.

(Sessional Paper No. 47.)

Moved by Mr. Motherwell, seconded by Mr. Langley,

Whereas at the last session of this Assembly it was "resolved that in the opinion of this House the Government of Canada should

institute an inquiry to determine if any system of interior storage is commercially feasible and such as will tend to prevent the recurrence of the present unfortunate condition of affairs in the Province due to the lack of outlets and such additional markets as would tend to keep pace with our exportable surplus including off grade grain" and no action would appear to have been taken by the said Government with this object in view;

And whereas in spite of improved transportation facilities and continued fine weather throughout the late fall and early winter the congestion of grain at initial shipping points that has prevailed during almost every fall and winter of recent years still continues;

And whereas while this condition can only be permanently remedied by the introduction of mixed farming and the securing of additional outlets the general opinion prevails that some system of interior storage is necessary to take care of our grain as quickly as it is now offered on the primary market;

And whereas recent inquiries indicate that there is a probability that if properly organised and administered under one executive body, such as the Canada Grain Commission in conjunction with lake or ocean terminal or transfer elevators, terminal elevators at railway centres in Saskatchewan and Alberta might afford some measure of relief if operated in every particular as public terminals;

And whereas the operation of such elevators as public terminals would obviously necessitate the grading and weighing of grain into and out of such terminals by officers of the Canada Grain Commission;

And whereas the Saskatchewan Grain Growers' Association at its last annual convention unanimously indorsed by resolution the plan of "a system of storage elevators at central points with terminal facilities" and subsequently in September made representations to the Government of Saskatchewan asking that it urge upon the Government of Canada the need for the immediate provision of such storage facilities;

And whereas the providing of sufficient and terminal storage facilities is within the jurisdiction and acknowledged policy of the Government of Canada;

Therefore be it resolved that it is still the opinion of this House that the Government of Canada should institute an inquiry to determine the feasibility of erecting and operating terminal storage elevators at interior railway centres in conjunction with government or railway owned and operated terminals at lake or occan ports.

And the Question being proposed,

And a debate arising,

And the debate continuing,

And the Question being again proposed.

Whereas under The Animal Contagious Diseases Act passed by the Parliament of Canada ten years ago provision was made for the compensation of owners of horses, cattle, sheep or swine killed on account of having contracted certain infectious or contagious diseases;

And whereas the value of all these kinds of farm live stock but particularly of horses has almost doubled in the last decade so that compensation based on the maximum value determined by the said Act no longer represents a fair proportion of the value of animals killed;

And whereas the present very low rate of valuation and consequently of compensation is likely to act as an incentive to owners to not report cases of such diseases even when they are known to exist and thus encourage rather than check the spreading of such diseases;

Therefore be in resolved that in the opinion of this House the maximum valuation of all classes of live stock, both grade and pure bred but particularly of horses, upon which compensation under the said Act is based should be materially increased.

and co-operative credit will, I am sure, meet with universal approbation.

The additional provision which you have made for railway and telephone development throughout the province is certain to be heartily indorsed by all interested.

The many original and amending Acts which you have considered and passed will without doubt prove of great benefit in the general administration of public affairs.

Your enactment of a measure embodying the principle of the initiative and referendum involves a radical change in our existing system of making law and for this reason I have no doubt that your decision to have the matter referred to the electors of the province for their sanction will meet with general approval.

GENTLEMEN OF THE LEGISLATIVE ASSEMBLY:

I thank you for the liberal provision you have made to meet the requirements of the public service.

I now take leave of you expressing the fullest confidence that your labours of the Session will materially advance the interests of our Province and trusting that the blessings of Providence may continue to rest upon our people.

The Hon. Mr. Turgeon then said:

MR. SPEAKER AND GENTLEMEN OF THE LEGISLATIVE ASSEMBLY:

It is His Honour the Lieutenant Governor's will and pleasure that this Legislative Assembly be prorogued until it pleases His Honour to summon the same for the despatch of business, and the Legislative Assembly is accordingly prorogued.

1. Copies of all correspondence carried on between the Government of Saskatchewan and the Ottawa Government or any of its officials with respect to the sale of school lands recently arranged for and now being held:

DEAR SÍR.---

I observe from newspaper reports that school lands have recently been offered for sale by public auction at various points in this province. This is a matter causing some surprise as no such sale in the past has been held without this Government having been first consulted in the matter and its advice solicited, both as to the general question of the advisability of the sale and as to the details of the parcels to be offered. An understanding to the effect that such action shall always be taken prior to any sale has been in existence between your Department and this Government for some years, and I cannot conceive of any reason why this practice should have been departed from in the case of the present sales. You will, of course, readily understand that no question is raised as to the right of the Minister of the Interior in this matter, but I would point out that these lands in this Province are set apart by Statute as an endowment for purposes of education and that the moneys arising from their sale forms a fund in your trust, the beneficial interest in which is in the Government of this Province. From this point of view you will, I have no doubt, agree with me that we have an interest in this matter that fully warrants our belief that we should be consulted before any of these lands are sold. Our opinions on this matter are strongly held, and go so far as to lead us to consider that, no matter what the technical rights may be or where the final responsibility may lie, no sale of school lands should be held in this province without the formal consent of this Government is first obtained.

I shall be glad to learn now that this matter has been brought to your attention, that you approve of the understanding to which I have referred and that it shall be given due effect in future.

Yours truly,

DEAR MR. SMART,---

As the legislation with regard to school lands was passed last session I presume there will be no further difficulty on that score with regard to the sale of school lands in the Territories.

I now enclose you a list of the lands which I would recommend to be sold during the coming winter. I have taken a good deal of trouble to obtain full information with regard to all these lands, and in each case the section is recommended to be sold by the local member of the district in which it is situated and by other people with whom I have had correspondence on the subject. None of the land included in the list has been valued as low as \$7 per acre, and in many instances. I am led to believe that sections can be sold for prices ranging from \$10 to as high as \$20 an acre. We recommend that the upset price in all cases should be \$7 per acre and with that as a minimum price I

cannot see any reason why these lands should not be placed on the market during the coming season.

We have had a good crop this year and there will be a tendency on the part of the farmers all over the country to increase their acreage. The month of December would be a good time for holding a sale, but I presume that all the details will be arranged by your department.

Yours faithfully,

(Signed)

F. W. G. HAULTAIN.

Ottawa, November 9, 1899.

DEAR MR. HAULTAIN,-

Referring to your letter of the twenty-fourth ultimo with regard to a sale of school lands in the Territories, according to the list forwarded, I beg to state that I am arranging to have the sale take place at the garliest possible date. It would be quite impossible, however, to hold it in the month of December, and I will arrange it for the month of January if you think it would be suitable. There are some eight parcels mentioned in the list, which are now used for grazing purposes, and it requires a year's notice to determine a lease of this kind, so that I presume these parcels cannot be offered for sale this year unless the lessees are willing to relinquish their right to a year's notice. They are now being written to on the subject. I presume the sale should be held at Qu'Appelle, although I think there would be no difference as to convenience as between Indian Head and Qu'Appelle.

## May 18, 1909.

#### Dear Sir,—

Yesterday I received your wire inquiring as to whether decision has been received by us regarding school land sales in Saskatchewan this fall, and I at once replied to effect that we favour immediate preparations for some sales and that I should write you soon indicating localities.

After consultation I beg to advise in favour of preparations being carried on for sales this fall at the following places: Weyburn, Francis, Hanley, Saskatoon and Strassburg.

We should like it understood that we are to have the liberty later in the season, if untoward conditions arise and the prospect of favourable sales becomes not so good, to advise that the sales be not gone on with.

If with the information in possession of your Department you may be of opinion that the points I have named are not in the best districts within the Province for school land sales this fall, we shall be glad to give consideration to any suggestions you may have to offer.

May I suggest that it will be advisable to advertise the sales for sixty days if possible and in any case not less than thirty days.

Yours sincerely,

#### Office of the Deputy Minister of the Interior, Ottawa, May 29, 1909.

DEAR MR. SCOTT,---

I am in receipt of your letter of the nineteenth instant with regard to the question of school land sales in Saskatchewan. I may say in reply that from our experience in the past it has been found very much more convenient to the public and in the interests of the School Endowment Fund to hold the sales in the month of June instead of in the Fall of the year. The proper advertising of the same always involves considerable expenditure and it is therefore important that once it has been decided to hold a sale anywhere no change should

subsequently be made in so far as that district is concerned. If you agree with my view I would suggest that the sales mentioned in your letter be delayed until June of next year.

However I will be quite pleased to have our inspector consult your Department so that we can come to a satisfactory understanding in this relation, and if you agree to this proposal I will have instructions given accordingly.

Yours faithfully, (Signed)

W. W. CORY, Deputy Minister.

June '8, 1909.

DEAR MR. CORY,-

In reply to your letter of May 29 regarding school lands sales I would say that we will raise no objection against deferring the sales in Saskatchewan until June of next year. It may be, however, that changing conditions in the meantime will make it wise to decide upon different localities for the sales from those named in my letter of May 19. We shall be glad to discuss the matter with your inspector.

Very sincerely yours,

(Signed) WALTER SCOTT.

### Department of the Interior.

SIR,-

#### Ottawa, July 27, 1909.

A letter has been received from Mr. Hines, President of the Farmers' Railway Company of Melfort, Saskatchewan, asking that section 11 townshp 45 range 19 west of the second meridian be put up at auction at an early date so as to afford the company an opportunity of acquiring it for a townsite.

He also states that there are a number of other sections in that locality which might be offered at the same time with advantage to the fund, and mentions specially section 29 township 44 range 19; section 29 township 45 range 17; section 11 township 44 range 20; and section 29 township 43 range 20; all west of the second meridian, and states that there are also a number of other sections near Star City and Kinistino which might be offered at the same time.

Before any steps are taken in this matter it is thought proper to ask for an expression of the views of your Government as to the advisability of holding any sales of school lands in Saskatchewan this year. I am to add that it is very doubtful in any case whether it would be possible to make the necessary preparations for the sale this fall, as arrangements have to be made for sales at Edmonton, Stettler, Lacombe and the north-western part of Manitoba, and as the lists would have to be out ready for distribution by the first of October, there is very little time to spare. Under all the circumstances it would perhaps be better to defer the sale of the lands mentioned by Mr. Hines until next spring, but the Department would be glad to hear from you in the matter.

Your obedient servant,

#### Ottawa, February 25, 1910.

Dear Sir,---

In further reference to your suggestion that there should be an inspection of surrounding lands in connection with and supplementary to our present inspection of school lands, I beg to say that on inquiry I find that to secure the additional information desired would need the appointment of at least two or three additional inspectors, with a corresponding addition to the charges on the school funds. It would also tend towards delay in holding the usual auction sales. Otherwise there does not seem to be any difficulty in the way.

Before taking any action, however, I should like to be informed definitely by your Government as to what information they desired to have.

Yours very truly,

#### Re Inspection of School Lands.

Dear Sir,---

Your letter of the twenty-fifth ultimo dealing with the above matter and addressed to Mr. Scott has been referred to me. From what you state it would appear that Mr. Scott in his request to you did not make quite clear the object we have in view and as the matter is of considerable importance I will again place it before you for your early consideration.

Under the existing arrangement for the administration of the School Lands Trust there is a general understanding, I believe, between your Department and the Provincial Governments that no lands will be offered for sale or otherwise disposed of without our approval. From time to time as sales have been contemplated approval has been sought and granted. Occasionally, however, we have found ourselves in the position of not knowing what action to take in view of the fact that certain of the lands in question had not been inspected and valued. This was the case recently in connection with a number of the sales now being arranged for you by your Department through Mr. Ingram.

In view of the fact that it will be necessary from time to time in future years to arrange for other sales the thought occurred to us that it would be advisable during the course of this and next year to have you arrange for a careful and thorough inspection of all school lands in what might be regarded as the settled portions of Saskatchewan or at least in those areas where sales will likely be held during the course of say the next five years. If this is done now anything in the nature of a hurried inspection can be avoided. In your letter of the twentyfifth ultimo you speak of an inspection of lands adjacent to or surroundiug school lands. Personally I cannot see any necessity for this. To iny mind all that should be necessary is to inspect the school lands themselves, the inspector's report to include all observations respecting the character of the soil and subsoil, the area under water, the amount of scrub and timber and hay lands and other details of that nature which might very well be worked out by the officials of the School Lands Branch of your Department. At the same time the inspector should be required to fix the actual value of the land at the time of his iuspection. If all this is done now we should on very short notice be able to arrange for sales at future dates, knowing exactly where we stand.

The information which we will have on hand will enable us to approve any selection of lands thought desirable and at the same time we should have no difficulty in arriving at a fair upset price to be fixed in accordance with the general value of lands at the time of sale. The value of the land as originally fixed at the time of inspection will be found very helpful for this purpose.

In case you agree with the general proposition I would suggest that two special inspectors be appointed for the purpose and as the Province is chiefly concerned in the matter I think you will agree with me that it is only proper that the officials to be appointed should meet with our approval. If the work is to be undertaken we are anxious that it should be done thoroughly by perfectly reliable inspectors. It will be understood, of course, that their salaries and expenses will be paid out of the proceeds of our School Lands Trust Fund.

I shall be glad if you will let me know at an early date what you think of the general scheme. If anything is to be done matters should be so arranged that inspection can be begun as soon as the snow is off the ground. It also occurs to me that inspection should be carried on only during the summer season and that the inspectors should understand that their appointment is merely temporary.

Yours very truly,

#### Re SE. 29-19-22 W 2

DEAR MR. CALDER,-

This is a school quarter near Disley. Last year the Canadian Northern had the right to take gravel off the land and I believe that Peter Lyall & Son also took gravel from there and this caused a great deal of difficulty among gravel dealers in Regina.

Some men in the vicinity of Disley have been asking for a gravel lease this year, but under all the circumstances the Department has decided to give gravel rights to no one. I believe the Provincial Government has instructed the Department not to sell any school lands this year. No harm could be done by selling this quarter section, and I would suggest that you agree to have this quarter put up for sale at public auction so that the people in the vicinity of Disley would get the right to buy it.

DEAR MR. CALDER,-

I wrote you some time ago asking that you request the Departcent of Interior to sell this quarter section. There are some people in the vicinity of Disley who want to take gravel from it and owing to the position taken by the department here no lease can be obtained for this purpose. I should judge that you would have no particular objection to allow it to be sold as apparently it is only useful for gravel purposes.

DEAR SIR,

In order to close out numerous applications for permits to remove gravel from the south-west quarter of section 29 township 19 range 22 west, of the second meridian it is desired to have this quarter section put up at auction at once if at all possible. I understand that the quar-

ter section is unfit for anything except gravel, and as you are probably aware we have no legislation under which gravel permits could be issued in this case. As the building season is about to open I would be glad to hear from you at an early date in order that we may proceed with the necessary preliminary arrangements.
