FOURTH SESSION—SECOND LEGISLATURE

REGINA, THURSDAY, JANUARY 25, 1912.

3 O'CLOCK P.M.

This being the first day of the Fourth Session of the Second Legislative Assembly of the Province of Saskatchewan, for the dispatch of business, pursuant to a Proclamation of His Honour George William Brown, Lieutenant Governor of the Province, dated the second day of January, 1912, and the House having met, His Honour entered the House and having taken his seat upon the Throne was pleased to open the Session with the following speech:

MR. SPEAKER AND GENTLEMEN OF THE LEGISLATIVE ASSEMBLY,—

It is a matter of great pleasure to me to meet you in this magnificent chamber today on the first occasion of its use for the purpose for which it has been erected. Let me express the hope that today's proceedings in this assembly hall may inaugurate an epoch in the history of our province that shall be long marked by continued prosperity and progress in all that shall make for the material, moral and social welfare of our people. As you will have observed that neither this chamber nor the departmental offices adjoining are yet entirely completed it has been deemed advisable to postpone the more formal opening of this building and its dedication to its public purposes.

Since we last met the Empire has rejoiced at the Coronation of Their Most Gracious Majesties King George the Fifth, whom may God long preserve, and His Royal Consort, Queen Mary. The province was represented at the auspicious ceremonies in Westminster Abbey

by my First Minister who was also in attendance at the various functions by which the occasion was fittingly celebrated, in all of which it was also my great pleasure to be privileged to join.

His Majesty has given one more evidence of his interest in Canada by appointing as our Governor General a member of his own family so closely related to him as is His Royal Highness Field Marshall the Duke of Connaught and Strathearn. I am sure you all join with me in welcoming His Royal Highness to our Dominion and in appreciating the honour which his Majesty has been so graciously pleased to bestow upon our people.

From the census figures recently announced it is gratifying to learn that our province is now firmly established as one of the leading members of Confederation. The results of the final computation are not yet public but sufficient is known to indicate that as regard population Saskatchewan now occupies the fourth and possibly the third place amongst the several provinces. It may confidently be expected that by the time of the next decennial census we will be in a position to rival the older and larger provinces of Eastern Canada.

Although as a result of abnormal climatic conditions during the past season many of our farmers have not garnered as bounteously as in former years the aggregate grain crop of Saskatchewan exceeds that of any previous season. In fact it has been so great as completely to overtax all the facilities provided for taking care of it as marketed. The conditions prevailing during the past few months so clearly indicate the inadequacy of the existing terminal, storage and railway facilities that it is earnestly hoped that every endeavour will be made by all upon whom the responsibility rests to prevent a repetition of this season's experiences.

Following your action during your last session my Government promptly represented your wishes in relation to the natural resources of the province to the Dominion authorities, but the absence of the Federal Premier from Canada and the dissolution of Parliament shortly after his return prevented any final decision or agreement being reached with the late Government. Since the elections the attention of the new administration has also been invited to the subject and a conference asked for. All the correspondence relating to the matter will be laid before you.

You will be gratified to learn that The Saskatchewan Co-operative Elevator Company, which organisation you created at your last session, took hold of the work committed to it with commendable zeal which has met with merited success. Five elevators have been purchased outright and thirty-nine others constructed in the most modern and efficient manner, by which means facilities for the handling and storage of 1,210,000 bushels of grain have been furnished in addition to all the facilities afforded by private enterprise. It is understood that the company proposes to continue this good work as early in the coming season as may be found practicable.

As a result of investigations made by the officials of the Bureau of Public Health my Government has practically completed arrangements in conjunction with the three great railway companies operating in the province, for a careful examination into the question of the

feasibility and cost of diverting the water of the south branch of the Saskatchewan river and its disposition over as large an area as possible for the general benefit of the people residing in those sections of the country where water in sufficient quantity or in suitable quality is not otherwise readily obtainable. A successful solution of this problem will meet with general approbation.

In view of the complaints received by my Government in reference to the freight and express rates charged throughout Western Canada by Dominion railways steps were taken some months ago to gather and compile such information and data as would be required to place the whole problem before the tribunal which has properly been vested by the Parliament of Canada with full power to deal with it. This information is now well in hand and as the Board of Railway Commissioners has decided to hold the necessary inquiry at an early date you will be asked to make provision whereby the people of Saskatchewan may be represented at the investigation.

In more recent years it has become apparent that the lack of experienced farm labourers and domestic servants has militated to a very considerable extent against our general development. As a consequence my Government two years ago took action to aid in the amelioration of this condition of affairs. Further proposals with the same object in view but on a more comprehensive scale will be submitted to you for consideration.

The growing importance of the horse raising industry requires that more advanced legislation providing for its regulation be enacted and your attention will be directed to a measure looking to this end.

The question of making further and better provision for the protection of our farmers from the ravages of hailstorms is one that has received a good deal of attention in recent years. A measure prepared with this object in view will be referred to you for consideration.

As very considerable progress has been made in constructing the branch lines of railway heretofore arranged for by you and as there are still many localities in the province in need of transportation facilities your concurrence will be asked to further measures intended to relieve existing conditions.

Bills to provide for greater regulation of insurance companies, to empower rural municipal organisations to purchase and distribute seed grain, for the control of motor vehicles, to redistribute the representation of the electorate of the province, as well as to furnish such amendments to the general law as its operation has suggested in the public interest, will all be laid before you.

The public accounts for the last fiscal year, and estimates of the amounts required for the public service during the year soon to commence, all prepared with due regard to economy and efficiency will be laid before you.

Gentlemen of the Legislative Assembly:

I now leave you to commence your duties, confident that you will give to them that careful attention and consideration which has hitherto marked your proceedings and believing that your deliberations will be Divinely guided to the best interests of the people and the province which you represent.

His Honour was then pleased to retire.

Mr. Speaker informed the House that in order to prevent mistakes he had obtained a copy of the Speech of His Honour the Lieutenant Governor which was laid on the table.

Moved by Mr. Simpson, seconded by Mr. Finlayson,

That whereas the early construction of branch railways throughout Saskatchewan is a matter of prime importance to thousands of settlers now residing at considerable distance from existing railways;

And whereas this legislature during the past three years has made provision for aiding in the construction of some 1,650 miles of branch lines and it is proposed to make provision for a further considerable mileage at the present session of this House;

And whereas the construction of many of these lines so urgently required has been delayed owing to the inability of the two steel rail mills in Canada to furnish the necessary rails;

And whereas there is every possibility that during the year 1912 and succeeding years track laying on the branches referred to and on new lines projected will be further greatly retarded by reason of the fact that the said mills cannot supply the steel required;

And whereas the existing high duty on steel rails entering Canada makes it prohibitive on the part of railway companies to import their rail supplies;

And whereas it is desirable that such duty should be removed (at least temporarily) so that the construction of the said branch railways may be proceeded with as speedily as possible;

Therefore be it resolved that in the opinion of this House action should be taken by the Government of Canada at the present session of Parliament to provide for the removal of the duty on steel rails which duty should not be re-imposed until such time as the rail mills of Canada are capable of supplying the steel required for the construction of Canadian railways.

And the Question being proposed.

And a debate arising,

And the debate continuing,

And the Question being again proposed,

It was resolved in the affirmative.

On motion of Mr. Simpson, seconded by Mr. Finlayson,

And whereas the said board has announced its intention to proceed with an inquiry for the purpose of ascertaining whether or not the rates now charged by the said corporations on their entire railway system west of Port Arthur are fair and reasonable;

That the amount of the securities to be so guaranteed shall not exceed the sum represented by \$13,000 per mile of the respective lines of railway mentioned in the schedule to the said Act; that the certificate of the minister of railways, telegraphs and telephones of the Province of Saskatchewan (hereinafter called "the minister") as to the mileage of the said respective lines of railway shall for the purposes of the said Act and of the guaranteed securities be conclusive but the minister may issue interim certificates from time to time based upon the estimated mileage of the said lines or any of them or may fix temporarily the mileages with regard thereto; that final certificates shall be ultimately issued by the minister with regard to each of the said lines to accord with the

miles and fractions of miles of the said lines actually constructed between the points authorised; that the said securities may be made payable in whole or in part in lawful money of Canada or in its equivalent in sterling or other money; that interest thereon shall be payable at the rate of four per centum per annum half yearly; that the principal shall be payable in thirty years from the passing of the said Act.

That the kind of securities to be guaranteed and the form and terms thereof and the form and terms of the deed or deeds of trust by way of mortgage securing them and the times and manner of the issue of the securities and the disposition of the moneys to be raised thereon by sale, pledge or otherwise, pending the expenditure of such moneys for the purposes of the said lines of railway respectively and the form and manner of the guarantee or guarantees from time to time or at any time given in respect thereof shall be such as the Lieutenant Governor in Council may approve.

That the said guarantee or guarantees shall be signed by the provincial treasurer or such other officer as may be designated by the Lieutenant Governor in Council and upon being so signed the Province of Saskatchewan shall become liable for the payment of the principle and interest of the securities guaranteed according to the tenor thereof; and that the Lieutenant Governor in Council be authorised to make arrangements for supplying the money necessary to fulfil the requirements of the said guarantee or guarantees and to advance the amount necessary for that purpose out of the general revenues of the province; and that in the hands of any purchaser, pledgee or other person acquiring any of such securities the said guarantee or guarantees so signed shall be conclusive evidence that the requirements of the said Act with respect to the guaranteed securities and the deed of trust and all matters relating thereto have been complied with.

That should the constructed mileage of any line or lines specified in the schedule to the said Act or the aggregate mileage of some or all of such lines be less than the mileage estimated in the said schedule by reason whereof there remains:

- (a) A surplus of authorised mileage in respect of which no securities at the rate specified with regard thereto were actually issued or guaranteed; or

Whereas the annual production of farm products in Saskatchewan having increased very rapidly and the grain centres of Western Canada

being in consequence now situated somewhere about 800 miles west of Canadian Lake ports, additional outlets for the products of Saskatchewan at reasonable freight rates are imperatively needed;

And whereas for more than twenty years past the desirability and feasibility of an outlet via Hudson Bay and Hudson Strait to the British market has been recognised by the people generally:

Therefore be it resolved that this House give expression to the earnest desire of the people of Saskatchewan that the Government of Canada complete without delay the necessary line of railway to a port on the Hudson Bay and also that all necessary arrangements be made to provide a line of suitable steamers to be operated from the said port on Hudson Bay to Great Britain.

And the Question being proposed,

And a debate arising,

And the debate continuing,

And the Question on the amendment being proposed,

And the debate continuing,

It was moved in amendment to the amendment by Mr. Stewart, seconded by Mr. Nolin,

That the words proposed to be added by the said amendment at the end of the question be left out and the following words be added to the main question in lieu thereof:

“And be it further resolved that this House is of the opinion that the Government of Canada should in the interests of the people hold and own the Hudson's Bay Railway and that such arrangement should be made for its operation directly by the Government, by an independent Commission, or otherwise as will secure to the people of Western Canada for all time to come absolute control by the Government over all rates, tolls and other tariffs to be charged, thus insuring that this new outlet for our farmers' produce to the world's markets shall constitute a competing line of railway the operation of which can be carried on successfully at the lowest cost consistent with public requirements.”

And the Question being put on the amendment to the amendment.

The House divided and the names being called for were taken down as follows:

YEAS.

Whereas the question of higher education is of vital importance to the future welfare and prosperity of this province;

And whereas the maintenance of a properly equipped university is a very expensive undertaking;

And whereas the University of Saskatchewan has neither a cash nor land endowment;

And whereas no further steps than the formal transmission of the said resolution to the Dominion Government have been taken by the Government of Saskatchewan to impress the unanimously expressed opinion of this House upon the Dominion authorities:

Therefore be it resolved that this House doth regret the inaction of the Government and doth hereby reiterate the opinion and request contained in the said resolution.

And the Question being proposed,

It was moved in amendment by Mr. Calder, seconded by Mr. Motherwell,

Therefore be it resolved that in the opinion of this House the question of the creation of a University Endowment should rest in abeyance until such time as the public domain is transferred to the province."

And the Question being proposed,

It was moved in amendment by Mr. Motherwell, seconded by Mr. Langley,

That all the words after "that" to the end of the question be left out and the following words be substituted in lieu thereof:

Whereas the existing railway outlets for the rapidly increasing grain products of Saskatchewan are not sufficient to handle the grain traffic offered;

And whereas our farmers are debarred from disposing of their products in the United States market thereby further increasing the congestion of grain traffic within Saskatchewan;

And whereas the capacity of the terminal elevators at the head of the lakes is not sufficient to take care of the grain required to be stored at that point after navigation closes;

And whereas it has been suggested as a partial remedy for existing conditions that a system of large interior terminal elevators should be erected at suitable points within Saskatchewan;

And whereas any plan of interior storage with terminal facilities would obviously necessitate the introduction of official grading and weighing which are matters of Federal control entirely;

And whereas the providing of sufficient and satisfactory terminal storage facilities is within the jurisdiction and acknowledged policy of the Government of Canada:

Therefore be it resolved that in the opinion of this House the Government of Canada should institute an inquiry to determine if any system of interior storage is commercially feasible and such as will tend to prevent the recurrence of the present unfortunate condition of affairs in the Province due to the lack of outlets and such additional markets as would tend to keep pace with our exportable surplus including off-grade grain.

And the Question being put on the amendment,

The House divided and the names being called for were taken down as follows:

Moved by Mr. Smith, seconded by Mr. Langley,

Whereas the provisions of The Manitoba Grain Act regulating the distribution of cars are regarded by Western farmers as their greatest protection against the elevator monopoly;

And whereas in clause (e) of Section 207 of a certain Bill numbered 32 now before the Parliament of Canada provision is con-

tained conferring upon the Board of Grain Commissioners the power to alter, practically at will, the method of car distribution set out in the said Act;

And whereas the said proposed change in the Act must necessarily tend to weaken to a considerable extent and possibly to destroy entirely the protective character of the said provisions of the Act:

Therefore be it resolved that in the opinion of this House the Parliament of Canada should not enact the aforesaid provisions contained in the Bill above referred to.

The Order of the Day being read for the adjourned debate on the Resolution moved by Mr. Langley, seconded by Mr. Shepard.

That whereas this Assembly did on the sixteenth day of March, 1911, unanimously adopt a resolution asking that the Government of Saskatchewan proceed with negotiations with the federal authorities for the purpose of having transferred to the Province the natural resources within the Province, as set out in the said resolution;

And whereas notwithstanding the representations made by the Government of Saskatchewan to the Government of Canada in accordance with the said resolution, no action has as yet been taken by the Government of Canada in the premises:

Therefore be it resolved that this House regrets that the Dominion Government has not yet dealt with the matter of the said resolution and is of the opinion that the Government of Saskatchewan should continue to urge upon the Dominion Government the expediency of satisfying the claims of this Province without further delay.

And the debate continuing,

It was moved in amendment by Mr. Gillis, seconded by Mr. Elliott,  
That all the words after "that" to the end of the question be struck out and the following substituted therefor:

In the opinion of this House the resolution adopted by this House on the 10th March, 1911, does not adequately set forth the just claims of Saskatchewan with regard to the lands, minerals and timber of the Province.

This House is further of the opinion that:

(a) In the establishment of the Province the important principle of absolute equality among the Provinces of the Dominion, which is the only sure guarantee of the permanency of the Confederation structure was not adhered to in regard to the lands, minerals, timber and waters of the Province.

(b) The people of this Province held and hold the view that when the Province was established it was only fair, just and proper that the land, timber, minerals and waters therein should be handed over to the people dwelling there to be managed and owned by them in the same way as in most of the other Provinces in the Dominion.

(c) The people of the Province further ask for and expect that compensation for the lands, minerals, timber and waters of the Province, alienated for Federal purposes should be made to the Province by the Dominion.

(d) The lands and other public resources of the Province can be managed more efficiently, economically and satisfactorily by the Province than by Canada, and there was and is no good reason for a departure from the principle of The Confederation Act in the case of the Province of Saskatchewan.

2. This House dissents from the principle of a money grant in lieu of lands contained in The Saskatchewan Act and claims that the compensation granted by that Act is manifestly unfair and inadequate.

3. This House is of the opinion that a policy of administering the agricultural land of the Province in the interest of settlement and colonisation by a homestead and pre-emption system should be followed out by the Province in the event of its acquiring control of its lands and that therefore negotiations should at once be commenced by the Government of Saskatchewan with a view to obtaining from the Dominion:

(1) The beneficial interest in and control of all Crown Lands, minerals, timber and waters in the Province.

(2) Compensation for all lands alienated by the Dominion for purely Federal purposes including purchased homesteads and pre-emptions.

(3) The extension of the northern boundaries of the Province in the same manner as the other Provinces are dealt with.

(4) A right of way to Ports Nelson and Churchill on Hudson's Bay similar to that proposed to be granted to Ontario.

And the Question being put on the amendment,

And a debate arising,

And the debate continuing,

On motion of Mr. Tate, seconded by Mr. Wellington

Ordered, That the debate be adjourned.

And whereas such negotiations were proceeded with, but as yet no action has been taken by the Federal authorities to have the said transfer made;

And whereas it is the declared policy of the present Government of Canada which has taken office since the passing of the said resolution to restore to the prairie provinces of Western Canada the public domain within their limits;

And whereas this House is of the opinion that negotiations for the transfer of the public domain to Saskatchewan should properly have been taken up by the Dominion Government at the same time as the negotiations that were recently carried on by the said Government with the Provinces of Manitoba, Ontario and Quebec concerning the extension of the boundaries of the said Provinces and the readjustment of the grants and subsidies payable to Manitoba;

And whereas a request was preferred by the Government of Saskatchewan to the Federal authorities for a conference prior to the time that a settlement was reached regarding the question involved in an extension of the boundaries of the Provinces referred to but such request was not granted:

Therefore be it resolved that this House regrets that the present Federal Government did not prior to its settlement with Manitoba and the other provinces mentioned accede to the wishes of the Government of Saskatchewan to have an opportunity in conference with the Federal Government to set forth the claim of Saskatchewan with respect to its public domain;

And be it further resolved that in the opinion of this House the Government of Saskatchewan should urge upon the Dominion Government the expediency of arranging without delay,—

Moved by Mr. Calder, seconded by Mr. Turgeon,

That an humble Address be adopted by this House for presentation to His Royal Highness the Governor General of Canada as follows:

To Field Marshal, His Royal Highness Prince Arthur William Patrick Albert, Duke of Connaught and of Strathearn, etc., etc., etc., Governor General of the Dominion of Canada.

MAY IT PLEASE YOUR ROYAL HIGHNESS:

We, His Majesty's dutiful and loyal subjects, the Legislative Assembly of Saskatchewan in Session assembled, humbly approach Your Royal Highness for the purpose of representing:

That one of the fundamental principles of the Canadian Confederation is that all the Provinces which form part of the said Confederation should be in a position of absolute equality in respect of legislative jurisdiction and financial and other assistance, grants and concessions received from the Federal Government; and that it has been found necessary in the past to make such changes and readjustments as were required from time to time to be made to bring about, preserve or restore such equality;

That a necessary condition for the maintenance and strengthening of the said Confederation is that the people inhabiting each of the several provinces should possess such facilities for the proper and profitable carrying on of their various industries, pursuits and occupations as they may enjoy without detriment to the interests of Canada as a whole or of the Empire, and it the duty of the Federal authorities to endeavour to secure such facilities for the people of each of the said several provinces when it is within the scope of federal jurisdiction to secure them;

That in the opinion of your memorialists the Province of Saskatchewan is not in a position of equality with most of the other provinces of the Dominion in regard to the exercise of the important power of taxation, in view of the fact that the Canadian Pacific Railway Company enjoys, by virtue of a Federal Act, exemption from taxation in this Province;

That by reason of an extension of territory now being granted to the Provinces of Manitoba, Ontario and Quebec, furnishing these Provinces with access to Hudson Bay, accompanied by a complete readjustment of the financial terms of the said Province of Manitoba, the principle of equality of treatment is not being observed in so far as the Province of Saskatchewan is concerned;

That by reason of the said extension of territory granted to the aforesaid provinces and the readjustment of the financial terms of Manitoba, it is more than ever imperative in order to do justice to the claims of Saskatchewan, that immediate steps should be taken to grant to Saskatchewan the ownership and control of her public domain;

That the production of grain is the most important industry of the people of Saskatchewan and it is of imperative necessity in view of the rapidly increasing quantity of the said production that new markets be secured for the grain producers of Saskatchewan at as early a date as possible; that the market of the United States is recognised as one of the best and most available markets for the Saskatchewan producer and that the federal authorities should endeavour by means of a reciprocal pact or otherwise to bring about a removal of the tariff barrier that now excludes Saskatchewan products from the United States market;

That another urgent necessity for the profitable carrying on the grain growing industry in Saskatchewan is the securing of additional outlets for our grain products; that the calamitous experiences of the past season have demonstrated the insufficiency of the present outlets, and that more particularly the Hudson Bay Railway, operating in conjunction with a line of steamers between a port on Hudson Bay and Great Britain, should be pushed on to a speedy completion;

That we do therefore most humbly pray that Your Royal Highness will cause such action to be taken as will bring about the following measures of relief for the people of the Province of Saskatchewan:

(a) The removal of the exemption from taxation now enjoyed by the Canadian Pacific Railway Company;

(b) Access for Saskatchewan to a port on Hudson Bay;

(c) The granting to the Province of the public domain within its limits;

(d) Free access to the market of the United States for the grain products of Saskatchewan;

(e) New outlets for our farm products and more particularly a speedy completion of the Hudson Bay Railway with a line of steamers from the Bay to Great Britain.

All which we humbly pray Your Royal Highness to take into your most favourable consideration.

MR. SPEAKER AND GENTLEMEN OF THE LEGISLATIVE ASSEMBLY:

I am pleased to relieve you from your attendance upon the present Session of the Legislative Assembly, which has been fruitful of a large amount of useful and beneficial legislation.

The unanimous action you have taken in relation to the public domain within this Province we may all trust will meet with early recognition and approval at the hands of the Federal authorities.

The redistribution of the representation of the Province in this House has been accomplished with general appreciation, the principles of the representation of both population and area having been given full consideration.

You have done much to advance the settlement of the general transportation question, both by your legislation and generous grants towards the construction and improvement of permanent highways throughout the Province as well as by the valuable assistance you have given towards the construction of railway facilities by the guarantee of bonds to raise money for such purposes.

The prospects of the season just commencing are bright, and we may join in the hope that they may be fully realised by all.

I have to thank you for the liberal provision you have made for the public service, and I now take leave of you in the full belief that the Divine blessing will rest upon you and your labours here.
